Z. G. Simmons Explains It.

Russia Is Thinking.

No Saloons, Much Gold.

By ARTHUR BRISBANE

(Copyright, 1925, by the Star Co.)

Another "2,000,000 share day" in Wall Street. Somebody decided to sell and somebody was ready to buy 2,078,500 shares of stock. Those with their noses to the financial grandstone, which is the ticker, are disturbed and puzzled. A fly crawling over a big battleship painting doesn't see the battle. He is too close.

If men whose business is finance could stand back from the ticker and look over the country, they wouldn't be worried about what they call a "frenzied boom."

Z. G. Simmons, who sells goods to hundreds of thousands of American families every year and knows conditions, said yesterday:

"None of us realize what it means to this country that the average man is earning twice what he earned a little while ago, $5 or $6 a day for a 'handy man;' all the way up to $20 a day for skilled mechanics. The people are spending, but they are not extravagant. Look at the billions pouring into life insurance and savings banks."

Don't gamble, proceed carefully in everything; but don't sell the United States, or stocks representing its real value short.

Mention Russia and respectable high finance shudders. Utter that dread word "Bolshevism;" the same high power pulls the bed covers up over its head. Yet somebody in Russia seems to be thinking along construct[illegible] Russian agents are buying $25,000 worth of high grade rams in the United States, to improve the grade of Russian sheep.

The soviet government is spending $35,000,000 improving the national telephone system, even installing automatic systems in Moscow and Rostov. It took us a long while to get to the automatic telephone.

Development of telephones is the test of civilization, of which one great task is to bring the human race closer together.

Russian women also show intelligence fighting an attempt to reduce the marriage age for girls below 16, declaring that a girl at 16 is "only a baby.' She is more than that but it is foolish to let her marry younger than 16. The right law would be no marriage under 20.

The mother gives to the child health, strength, plus moral character, and many other good qualities She should wait until strength and health are fully developed.

A man contributes to the child-character and intelligence, if he has any. He should wait until both are fully developed, say until 30 among the mentally poorer sort, 50—as Plato suggested—among the really intelligent.

A Free Booklet On Yellowstone Park For School Children

Every school child should have a copy of the Yellowstone booklet which our Washington Bureau offers for free distribution. This offering will be helpful in the study of this great national park.

Of all our national parks it is the wildest and most universal in its appeal.

It has more geysers than all the rest of the world together. It has mud volcanoes, petrified forests, a canyon unequaled for natural coloring, blue lakes and rivers filled with trout, and the greatest wild bird and animal preserve in existence.

Send today for this beautifully illustrated booklet telling all about Yellowstone. Fill out the coupon below and send two cents in stamps for return postage.

TWO MINUTES OF SILENCE AT TRUCE HOUR ON NOVEMBER 11

Churches, Schools and Business Houses Arrange Programs.

HOMAGE TO DEAD

Factory Whistles and Church Bells Will Give Signal.

A two-minute period of silence in memory of those who made the supreme sacrifice during the World War, will be observed in the downtown stores and the public and parochial schools at 11 o'clock Wednesday morning, November 11, Armistice day.

This is the proposal made by the Retail Merchants' division of the Chamber of Commerce in a bulletin issued to the membership today. In this manner, it is pointed out, the day will be observed in a more appropriate manner than it would be if the stores were closed for the day or a part of the day.

Uniform Decorations.

Superintendent of Schools C. S. McVay has endorsed the plan for the observance in the public schools, while the same program will be followed in the parochial school. For five minutes preceding 11 o'clock, the teachers will be asked to discuss the meaning of Armistice day.

Church bells will ring and factory whistles and fire department sirens will be blown during the period of homage to the dead. A committee from the merchants' division has been named to seek the co-operation of the factory owners and church pastors.

Merchants' Bulletin.

The downtown district will be decorated in the national colors during the day. The merchants have been

Sebring Merchant Is Asphyxiated by Gas From Stove

James Connors, 66, formerly a pottery worker, proprietor of a small confectionery and pop-corn establishment which adjoins the Sebring hotel, at Sebring, is dead today, a victim of asphyxiation by gas escaping from a small heating stove.

Connors' body was found on a small cot behind the counter of his establishment by Scott Robertson, a personal friend.

Klan Establishes Its Headquarters In Washington, D. C.

WASHINGTON, Oct. 22.—Grand headquarters for the Ku Klux Klan have been finally established in the capital, a few blocks from the White House, it was learned today.

The klan has leased the upper floors of the reconverted mansion at Seventeenth and I streets, formerly occupied by the late Senator Frank B. Brandagee, of Connecticut, who committed suicide there.

The leasing of the building for a long term of years was taken as indicating the abandonment of the Klan plan to construct an imposing national home in the capital.

KIWANIS URGES PEACE IN HIGH GRID DISPUTE

Club Names Committee to Act in Intercity Rupture.

MURPHY SPEAKS

Congressman is Guest of Honor at Noon Luncheon.

Congressman Frank B. Murphy of Steubenville was honor guest at today's luncheon meeting of the Kiwanis club in Larkins annex, delivering an address on the operation of the government budget system which he pointed out, has saved millions of dollars for the country's taxpayers.

President George Lewis was in charge of the meeting. The attendance prize, a pair of gloves given by Frank Swaney, was won by Charles Pilgrim.

Steps were taken by the club to open negotiations for the resumption of athletic relations between East Liverpool and Wellsville high schools, which were severed almost three years ago prior to the annual Thanksgiving day grid classic.

In response to a suggestion by President Lewis, C. C. Cline, who was president of the City Industrial baseball league during th[illegible]n, and an euthusiastic sports devotee, asserted that in his opinion there must be some way to bring the two schools together and to iron out the

MOTOR TOURIST IS FOUND DEAD

ST. CLAIRSVILLE, O., Oct. 22.—Alonzo W. Loomis, 62, of Ithaca, Mich., was found dead in a tourist camp on the National road near here today. The body was found by his wife, Mrs. Malina Loomis. The couple was en route from Florida to their Michigan home. Mr. Loomis died from apoplexy while sleeping in his car during the night, according to a physician.

Irene Castle McLaughlin Resting.

CHICAGO, Oct. 22.—Mrs. Irene Castle McLaughlin, who has been confined to a hospital here since Tuesday morning, will not have to undergo an operation, it was stated today. The former dancer, through her nurse, stated she was merely confined to the hospital for a complete rest.

SCHOOL PUPILS TO COMPETE IN ESSAY CONTEST ON FORESTRY

Congressman Davey Offers $4,000 Scholarship as Prize.

PLAN OUTLINED

Mrs. W. F. Lones is Named Chairman in County.

High school students in East Liverpool, Wellsville, Salem, Lisbon, East Palestine and other county towns today were invited to participate in the essay-writing contest, dealing with the subject of forest conservation, winner of which will be awarded a $4,000 scholarship in some Ohio college or university.

Mrs. W. F. Lones, 411 Tenth street, Wellsville, has been named county chairman of the contest, which is to be conducted by the Ohio Federation of Women's clubs. Mrs. Lones, who is a member of the East Liverpool Federation of Women's Clubs, will receive the contestants' essays and forward them to the judges.

The scholarship is being offered by Congressman Martin L. Davey, of Kent. The essay will deal with some phase of the forest conservation movement, including either the conservation of the existing supply or the reforestation of denuded lands, or both.

Purpose of Campaign.

According to instructions which have been received by Mrs. Lones, the contest is open to any high school student, who is enrolled this year, or who graduated last year. The scholarship will be paid at the rate of $1,000 per year for four years at some Ohio institution.

"The whole purpose of the donor, Congressman Davey, and the Ohio Federation of Women's Clubs in offering the scholarship,' says a statement outlining the campaign, "is to stimulate the thoughtful interest of the people of Ohio in this subject of fundamental and far-reaching importance. Ohio has been so backward and so negligent in the matter of conserving and building up her forest wealth and in permitting the terrible effects of forest devestation that we must give immediate and serious conservation to its bearing on our forest prosperity and security and happiness."

Rules for Contest.

Rules, information and suggestions concerning the contest are as follows:

"First—This contest is open to any regular high school student in Ohio, including senior classes that graduated in the spring of 1925 and freshman classes of the fall of 1925.

"Second—The award will be $4,000 representing $1,000 per year for four

MOYER-WASBY SUIT SETTLED

Begin Rebuilding of Fire-Swept Fifth Street Structure.

Rebuilding of the Mrs. May Wasby business block, East Fifth street, destroyed by fire February 22, last, was started by the Potters' Lumber company today, after settlement of the injunction proceedings filed by Moyer Brothers, former occupants, to halt the erection of a one-story structure on the site.

The new building will be brick in construction, but will not be fireproof, such as the neighboring Milligan and Thompson structures, also in course of construction. Two of three firms are said to be seeking a lease of the building.

Under the terms of the pact between Moyer Brothers and Mrs. Wasby the former has agreed to withdraw the injunction action now in the court of appeals. A cash settlement was made by which the dry goods firm surrendered all claims to their lease.

The agreement was made between

Taxi Drivers do As They Are Told In Bath, England

BATH, England, Oct. 22. — Bath taxi drivers do as they are told.

Miss Knowles hired a taxi to drive her home. She said the fare was excessive, but paid all but four cents of the sum the driver demanded.

"Sue for the rest," said Miss Knowles as she left the driver. He did. He won, despite the fact that Miss Knowles told the court that she had changed her mind and sent the driver four cents' worth of stamps.

ELKS OUTLINE PLANS TO SAVE 'OLD IRONSIDES'

Appeal for Funds Will be Made in Schools.

SPEAKERS NAMED

Seek Pennies to Recondition Famous Frigate.

The East Liverpool lodge No. 358, B. P. O. E's, will launch a campaign among the public and parochial school children here next week to raise funds to recondition the frigate Constitution, familiarly known as "Old Ironsides," Exalted Ruler Ralph C. Benedum announced today.

Speakers representing the lodge will visit the various school buildings Monday to outline plans for the canvass, while contributions ranging from 1 to 10 cents will be sought on Friday, October 23.

A picture of "Old Ironsides" will be furnished each school room, while each contributor will be given a lapel button on which is a painting of the historic ship.

Prizes for Essay Written.

Frank Campbell, W. H. Robinson and Rev. W. H. Clark will be in charge of arrangements for the East Liverpool campaign.

Collections will be made by the teachers, who, in turn, will report the funds to the school principals.

The Constitution now lies at the Charlestown navy yard, at Boston, in bad condition. Congress authorized the rebuilding of the ship and directed the secretary of the navy to solicit funds to defray the cost. Mr. Wilbur decided to appeal for the money to the school children.

President Coolidge has shown his interest in the campaign by naming the topics of essays to be written by grammar school and college students of the United States, for which prizes will be awarded in the form of bronze, silver and gold medals.

Congress has placed a limitation of $500,000 on the amount to be raised.

MASONS HONOR LUTHER BURBANK

WASHINGTON, Oct. 22.—Luther Burbank, of Santa Rosa, Cal., famous naturalist, has been awarded the 33rd degree of Scottish Rite Free Masonry, it was announced today by the supreme council, southern jurisdiction, in session here.

Burbank's award was for "beneficent labors in behalf of humanity."

ATHENS SOLDIERS PUSH INTO BULGARIA; TOWN OF PETRICH SHELLED

Sofia Dispatches, Quoting Semi-official Statements, Charge That Hellenes Have Attacked Border Sentinels, Killing Five, and Have Occupied Three Posts in Neighboring Territory.

INVADERS PLAN TO SEIZE CITY TO ENFORCE INDEMNITY DEMANDS

Hostilities are Launched in Keeping With Ultimatum Against Bulgarian Aggressions and Call for Apology for Alleged Enemy Attack Upon Greek Outposts Along Frontier.

By HARRY R. FLORY.

LONDON, Oct. 22.—Greek troops have begun war operations against Bulgaria, according to dispatches from Sofia today quoting semi-official statements.

The semi-official Sofia statement charges that a detachment of Greeks supported by artillery, has advanced into Bulgarian territory and shelled the Bulgarian town of Petrich.

The statement further charges that the Greeks have attacked Bulgarian sentinels, killing five, and occupying three Bulgarian posts.

Petrich, which Sofia claims has been shelled, is understood to have been scheduled for occupation by the Greeks. It has long been a center of Macedonian activities.

According to word from Athens, the Bulgars today continued to occupy part of the Greek line in the region of Demirhissar.

Cross Border at Dawn.

ATHENS, Oct. 22.—Greek troops crossed the Bulgarian border at dawn, carrying out the Greek decision to occupy the Bulgarian town of Petrich, it was announced here today.

The government announces that the occupation of Petrich has been decided upon in order to prevent further Bulgarian aggressions and to insure the complete fulfillment of the Greek demands for 2,000,000 francs indemnity and an apology for the alleged Bulgarian attack upon Greek outposts.

Another Test of League.

LONDON, Oct. 22.—That the Graeco-Bulgarian crisis will furnish another test of the League of Nations appeared certain today with reports from Sofia that the Bulgarian cabinet would protest to the league against the Greek invasion of Bulgarian territory and would ask permission to mobilize troops in defense of its borders.

As these reports were received from the Bulgarian capital, by way of Vienna, it was learned from Athens that the proposed advance and occupation of Petrich as a guarantee of payment of indemnities would be made today.

The trouble originated in the Demirhissar region, where bad blood has existed for three months because of the killing of a Greek citizen at Stanimaka. Bulgarian irregulars were reported to have fired over the border at Greek patrols and a night-long fight followed.

Illegal to Shoot Wild Geese in Ohio At Night, Warning

COLUMBUS, Oct. 22.—Warning that it is illegal to shoot wild geese and ducks in Ohio between sunset and sunrise and that vigorous prosecution will be meted out to the guilty persons was issued here today by D. O. Thompson, chief of the state fish and game division.

Thompson's warning was prompted by reports from various sections of the state that hunters shot down large numbers of wild ducks and geese Wednesday night.

Review-Tribune Ads Find Beaded Bag and Currency

The honesty of two persons, combined with the efficacy of Review-Tribune advertising, restored lost articles in two instances during the last few days.

The manager of the Holland Furnace company, 719 Dresden avenue, lost a bill-fold, containing $60, on Saturday night. It was found by Raymond Young, of Third street, a St. Aloysius parochial school pupil, as he was on his way to school Monday and promptly returned to the owner who paid a reward.

An employe of the Ceramic theater found a beaded bag, containing a small purse and vanity case, which was lost Monday evening. It was returned to the owner, who resides at 726 Bradshaw avenue.

Both finders read of the lost articles in the Review-Tribune classified columns, once more proving the truth of the axiom, "It pays to advertise."

BOWDLER TRIAL IS POSTPONED

Federal Case Will Not be Heard During October Term.

Trial of A. E. Bowdler, former East Liverpool attorney, and ten other business associates who were interested in the defunct Real Estate Guaranty Mortgage company and the Belmont Securities company of Wheeling, W. Va., and Bellaire, Ohio, respectively, facing federal court indictments, will not be heard during the October term of the U. S. court, now in session in Wheeling.

An important witness for the government is now at work in the west and cannot return to Wheeling to testify. This witness, it is said, audited the accounts of the two companies after the crash.

The indictments against Bowdler and Gordon D. Ulyatt, officers, and nine other business men of the Wheeling district who were either members of the board of directors or were employed by the two insolvent companies, are mostly for using the mails to defraud. Twelve indictments were returned by the federal court while charges of a similar nature are pending in the courts of Ohio, Marshall and Brooke counties, West Virginia.

POTTERY EMPLOYES WILL ENROLL MONDAY IN SCHOOL OF CERAMICS

Board of Education Prepares to Organize Night School Classes for Adults Interested in City's Chief Industry.

Enrollment for the proposed night school in ceramics, which will be offered "employed adults' in East Liverpool this year under the direction of the board of education and the state board of vocational education, will take place in the high school building on Monday evening.

The class will be open to all persons, who are employed in the local ceramic industry during the day. Special registration cards have been printed to facilitate the enrollment. No registration fee is to be charged.

E. L. Heusch, supreviaor for state board of vocational education, division of trades and industries, has been asked to be present on registration night to explain the proposed course. Prof. Kenneth Smith, ceramics teacher in the high school, who will be in charge of the class, will supervise the registration.

The ceramics classes will meet two evenings a week. The number of classes will depend entirely upon the enrollment. Each class must have not less than 15 students, although 25 students can be taken care of.

There will be two terms, each of 12

RADIO WILL BE CLASSED AS PUBLIC UTILITY IF CONGRESS HEEDS HINT

Secretary of Commerce Hoover Will Recommend Federal Regulation as Means of Better Broadcasting Service.

WASHINGTON, Oct. 22.—Radio officials will be placed in the classification of a public utility next year, if recommendations of the department of commerec are followed by the 69th congress, officials declared today.

Preparation of a new general foundation for the new radio bill is being completed by Secretary of Commerce Hoover, who will explain his program at the National Radio conference opening here November 9.

The entire radio industry, department officials said, agrees that there must be federal regulation if broadcasting is to survive with any degree of service to the public.

"Without regulation we should have complete chaos in the air," Hoover said, "and as every word by radio is an interstate performance we cannot avoid federal legislation."

So many stations are operatong on a number of important wave lengths that where the listener on a selective set formerly "pulled in" his favorite station, all he gets now is a wild uncanny wail. Some of the best broadcasting stations in the country are blotted out by this interference, ac-

Year 1926 Will Be Eventful, Says French Crystal Gazer

Prof. Raymond Predicts Trans-Atlantic Liner Disaster, Death of American Financier and Steadying of International Exchange.

PARIS, Oct. 21.—The year 1926 will be an eventful one, fraught with great world changes, if one can believe the annual forecast of Professor Raymond, the widely known French crystal gazer.

Professor Raymond has men followers in France, for it is claimed that he predicted the World war, America's entry into the World war, the Lusitania disaster and the death of President Wilson.

Among the professor's predictions for 1926 are these:

A terrible catastrophe to a trans-Atlantic liner on the high seas bound for the United States.

The death of an American financier.

Greater American interest in European affairs because of the personal sympathy of President Coolidge, and bankers in southern and eastern states.

Steadying international exchange. France, the United States, Great Britain and Germany coming to an agreement which will stabalize the franc.

The professor's crystal also predicts that sugar, copper, platinum and steel will have a bull year.

Rum-Crazed Hound.

SOUTHBRIDGE, Mass.—This town turned out en masse to watch 750 gallons of confiscated liquor flood the gutters and pour into the sewers when Chief of Police Ulric Brauk emptied his station of last year's collection.

A hound took an opportunity to steal a drink. He took a couple of licks, laid down on his back and howled. Next he jumped up and started off on the run. He hasn't come back yet.

Three hundred crippled girls in eight months made 14,000,000 flowers to be sold in London streets to raise funds for disabled soldiers.

Get Rid of Your

Rheumatism

Before Winter Sets in

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer that if a full pint bottle of Allenrhu, the sure conquerer of rheumatism, does not show the way to stop the agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenrhu has been tried and tested for years and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and piteous and where the patient was helpless.

James H. Allen, of 26 Forbes St., Rochester, N. Y., the discoverer of Allenrhu, who for many years suffered the tortures of acute rheumatism, desires all sufferers to know that he has instructed druggists to guarantee it as above in every instance.

East Liverpool Druggists are my appointed agents in your city. If you live out of town I'll gladly send you free particulars.

Toughest of Old Hang-On Coughs Go

Why send a boy to do man's work? Sweet, sugary cough syrups may help a simple cough, but when you are traveling along towards the cemetery with a stubborn tight old cough that lingers on and on with the most persistent devilishness then you need a real cough medicine—and the realest destroyer of tough old coughs is Bronchuline Emulsion.

The cough may be so tantalizing that you can't sleep nights and your days may be filled with racking torture, yet that's just the kind of a cough that Bronchuline likes to tackle and conquer.

Many times a few doses will stop the hacking and loosen things up and you can depend upon half a bottle to make a two months' cough quit cold and disappear.

Life is sweet—it will be much sweeter when you get rid of that old time cough.

Ask Cahnahan's Drug Stores and Jesse D. Holloway or any wide awake druggist for a bottle of Bronchuline Emulsion. There's no dope in it—or chloroform, and a couple of teaspoonfuls will usually end any ordinary cough.

Latest Discovery Dissolves Freckles

All Gone in Four Days—They Just Melt Away

Isn't it rather odd that one discovery made almost over night will stop the worrying of millions of freckled girls and women in just a few days?

These maids and matrons have been praying for a real freckle remover for years and right now when society more than ever demands of women a skin free from blemishes and ugly brown spots Flyte is discovered.

Flyte is a cream—easy to apply—it will not injure the most delicate skin—but it will dissolve freckles in four days and melt them completely away, leaving the skin clean, clear and soft as velvet.

And best of all Flyte is not expensive—a little goes a long way. You can get it right here at Carnahan's Drug Stores, C. G. Anderson's, J. D. Holloway's, who guarantees it to take off every freckle or money back as do all live druggists everywhere.

Why Mother's Oats "stands by" you through the morning ending premature fatigue

DO you feel tired, nervous, hungry, hours before lunch?

Don't jump to the conclusion of poor health. Almost 90% of the time you'll find it's premature fatigue, brought on largely by an ill-balanced breakfast ration. Thousands have "draggy" mornings for that reason.

To feel right, you must have well-balanced, complete food. You can't deceive nature into accepting breakfasts that lack even a single element toward correct food balance.

That is why Mother's Oats is so widely urged today. It is almost a perfectly balanced dish.

Contains 16% protein, food's great tissue builder; 58% carbohydrate, the great energy element; is rich in minerals, and in vitamines. Supplies the "bulk" your diet needs to make laxatives seldom necessary.

Few foods have its remarkable "balance." That is why it stands by you through the morning.

MODERN TOWN IS BUILT ON ANTIQUITIES

Water Mains of Visby, Sweden, Reveal Relics.

"BALTIC'S PEARL"

Rude Stones From Viking Period are Dug up.

VISBY, Sweden.—Four thousand year-old records of human habitation have been uncovered this fall under this city, called "The Pearl of the Baltic.' By simply digging down below the central market square a mine of antiquities, ranging in dates from the Stone Age or about 2,000 B. C. to comparatively recent period when Sweden was one of the great Baltic powers, has been brought to light. The first clues were disclosed last year when the city put in a modern water main and now government archeologists have taken charge of the explorations.

under the central city square five distinct layers of paving stone, laid at irregular intervals from the twelfth century to the twentieth, were cut through, and as the picks struck deeper and deeper, signs of increasing older civilizations were encountered.

Old Church Found.

Immediately below a modern merchant's warehouse, for instance, were struck the nine-feet thick foundations of a medieval church, and part of the church floor consisted of rude stones from the Viking period. In later times material from the crumbling walls were used, before their archeological value was realized, in the construction of a bank building.

Underneath each layer of pavings or building foundations have been recovered either coins or ornaments or tools, characteristic of the age that had gone before, and thus each period has left a date as clear to the Swedish archeologists conducting the excavation as though it had been written in a book. Under one of them layers of paving stones, for instance, was found a coin of the fifteenth century, when the Danes ruled the island on which Visby is situated, and under the ruined stone flooring of the church lay a silver ornament of the Viking age

Evidence of habitation before the age of metals appeared in the form of bone or horn ornaments, polished bird bone beads, carved seal teeth, and harpoons of deer horn with a hole at one end for the line. Shards of pottery and bone instruments for their manufacture have also been dug up in great quantities. Skeletons of both children and grownups, buried on rough hewn blocks of lime stone instead of in the loose earth, have been identified as belonging to the Stone Age. Across the face of one skeleton lay two huge eye teeth of a wild boar, clearly attributing pugnacious qualities to the dead cave man.

In the Middle Ages Visby was the most important trading center of Northern Europe and to this day there remain impressive ruins of both churches and fortifications, erected by the well-to-do merchants. This summer the foundations of their city hall, built, according to an old Latin chronicle, in 1317, have been laid bare and the stone columns as well as some of the steps leading down to a wine shop in the basement have been uncovered.

Bootleggers, Too.

The refreshment place was kept by one of the city councilors, who, according to contemporary records, found it necessary to take legal measures to restrain his colleagues from selling wine illicitly in their shops about the market square.

When the rival tradesmen of Lubeck stormed and stormed the city of Visby in 1525, the city hall was burned and several thousand of the ornamental bricks set in the ceiling of the basement wineshop were later used for the restoration of the St. Maria church, which this Summer celebrated its 700th anniversary.

Called 'the city of ruins and roses," Visby is today the best preserved centre of mediaeval antiquity in northern Europe.

Among the items listed at an auction at Leipzig were "Horse hair, long tails, short tails, cuttings, combings and manes," with a total weight of 60,000 pounds.

The annual printing bills for the Cardiff consular district of Wales total $7,300,000.

Doves And Bulls

The long continued bull movement in the stock market, with prices reaching a spectacular height, has puzzled many observers, including some of the professionals. It has been by no means a mere speculators' market. There developed, especially toward the middle of October, a tremendous popular demand for securities, drawing its support from the whole country and from all classes of investors.

Many reasons are given for this stock boom, proceeding as it has done without any very close relationship to current business conditions. Nearly all of them have doubtless had some influence. But it was probably no accident that the climax of the bull movement came almost exactly with the successful conclusion of the European security conference at Locarno.

It may be that the new peace spirit in Europe, typified in that conference, has really been the most powerful factor in Wall Street optimism. It might well be so, if the treaty means all that it seems to mean. American investors know that there can be no greater boost for big earning power in American industry and trade than assured peace in Europe, with the promise that would give of increased prosperity and buying power abroad.

America is an empire in herself. Americans can prosper by merely working for and trading with each other, supplying nearly all of their own essentials. But America can prosper still more when the Old World quits fighting, starts working and enters the world market again with cash in her pocket.

More Gold

With the finding of the "lost main reef" in the Transvaal gold field, a big increase in gold production is expected. Half the world's gold production comes from there already. Now another great source of supply is tapped, far down in the earth, but capable of being worked.

This factor alone, it is suggested, will have a bearing on the payment of war debts. And not only Great Britain's, but those of all the other debtors. For more gold anywhere means cheaper gold everywhere.

Other gold mines are likely to be discovered, with production continuing to increase. The metal used as a standard of value, which as economic history shows has been getting steadily cheaper for centuries, will doubtless continue depreciating.

Thus, even if the United States had its war loans repaid dollar for dollar, it would probably get back a good deal less than it lent. Which is nothing to worry much about, but a matter of interest nevertheless.

It might be worth while to consider this possibility in figuring out all funding plans contemplating payments over a long period of years. Also in long-term leases.

It is also just as well for financiers to keep in the back of their minds the possibility, however remote it may be, of gold being manufactured some time in paying quantities from base metals.

Sooner or later, in the history of mankind, a time may come when the fable of Midas and his gold shall come true on a big scale.

Sunshine In Winter

At the recent electrical show in New York there was exhibited a light bulb that would put a coat of tan on your skin, and do it quicker than sunshine. Moreover, the doctors say, its rays will do the person they shine on exactly as much good as the actual sunshine.

The bulb has been scientifically developed to produce the invisible ultra-violet rays by which the beneficent effects of sunlight are accomplished. Those rays are said to shine deep into the body, vitalizing the blood and stimulating the organs and glands. They are responsible for the "sunshine cure" of rickety and tuberculous children. They operate as a powerful and wholesome stimulent.

Now it won't matter so much whether the sun shines or not. That wonderful bulb, the doctors say, can bring sunlight into any home, any climate, and season. When it is put on the market and made available for ordinary folk, it should prove a godsend, especially in dull northern regions which have little sunshine in the winter months. It should be good not only for children and invalids, but for everybody.

When an artificial sunbath can be obtained in one's bedroom, whenever desired, giving in a few minutes the equivalent of an hour or two of direct exposure to summer sunlight, our winters should become immensely more healthful.

NEW YORK DAY BY DAY

By O. O. McINTYRE

NEW YORK, Oct. 22.—There is another side of the New York debutante not included in the popular picture—chiffon, gold flasks and buck teeth. It is not all lolling on the Pal Beach sands for Sunday papers. A shop girl really has more leisure.

The hot-house flora of the Smart Push must be up early and their day runs far into night and that is why, so often, they are trundled off babling to sanitariums. The cardinal social sin is not to be seen. To miss a breakfast or lunch may start tongues wagging.

The slightest slip may loose those "don't belong" rumors. And so they are goers to the death. It is only through secretaries they know what is in store for them from day to day. To their credit it must be said they give largely of their time to society charity fetes.

During the season some attend four or five social affairs in an evening, sometimes a morning musical and two luncheons nad several afternoon teas have preceded. We immortalize almost everything in Manhattan from Steve Brodie to Civic Virtue.

Some day there should arise on one of Manhattan's lofty minarets a memorial to the Four Hundred—some symbol to the worship of Mammon and Speed. No lives are pitched to such racing tempo. The European spas are filled with those who have dropped out of the race.

At the age of the matronly and healthy years they are faded flowers hanging to broken stems. Ghosts of dear dead frivolties. They cannot remain in the furious whirl and be no part of it so they filter off to quiet resorts—making rounds of cures.

They are comforted by faithful maids, silken spaniels and dreams of the past. Given family and wealth, society has always and will ever be a game of intrigue. And like all paths of glory it leads to the conventional place.

My contact with the Four Hundred is, of course, casual. It consists of craning my neck now and then to peep at a debutante bride walking under the sidewalk awning to a church. Or from society press agents who send me rosy mimeographed copy which is mostly abstract piffle and tossed overboard with the less polite letters from creditors. It is no doubt a gay and exciting life but most of us would rather sit on the sidewalk and with it evovle and effloresce.

Now and then one runs across those spurous Kentucky Colonels but they are not so numerous as they used to be. They wear the wide black hat, long coat, boiled shirt, white lawn tie and goatee of their real prototype. They have mastered the drawl and the abolity to horn-in conversation. Their field of operation is the crowded hotel lobby. Their craft is slight—a small loan here and there apparently satisfying them.

There are all sorts of incongruities around New York. The other evening I saw a man tailored to fashion come out of a half completed building. He was so well dressed it was noticeable After the theater I saw him resting in a chair in a doorway. He was smoking a cigar in what appeared to be a gaundy holder. The next evening he was there at dusk lighting red warning lanterns about the various building impediments on the streets and I learend he was the nightwatchman. Now there is no reason why the nightwatchman should not be a fashion plate. His work is mostly light and cleanly. Yet they conform so much to type that one of this kind was startling.

Only one night club is demanding formal dress of its patrons. The proprietor declares it will not change the rule if it has to close up which will more than likely be its fate. The proprietor is a former dish washer.

HASKIN'S LETTER

By FREDERIC J. HASKIN

Caring for Friendless Animals.

WASHINGTON, Oct. 22.—Not so long ago the last fire horse in Washington was retired from service and was taken over by the engineer corps of the army. He just missed the opportunity of spending the rest of his life in leasure at the rest farm of the Humane Education Society for Friendless Animals.

This farm comprises some eighty acres and is about twenty miles from Washington in Montgomery county, Maryland. It is maintained, as its name would indicate, for the purpose of giving a haven to friendless animals and those whose days of usefulness have passed. In a way it corresponds to the various homes for those unfortunate humans who have grown old and ined no place in the rush and bustle of the economic world.

At the present time this rest farm is sheltering between 140 and 150 dogs, 40 or 50 cats, seven horses and two cows. It may be well imagined that rare discretion was shown when its site was selected. One of the officers of the society says that at the time the purchase of a tract of land for the farm was first considered some one suggested a locaation where the population was somewhat numerous. That officer was taken to look over the site and immediately exclaimed, "We wouldn't last here one night!" It is to be feared that even the most ardent of animal lovers would not be inclined to take kindly to the barking and yowling of a hundred or more dogs and cats.

The staff of the farm consists of a caretaker and one or two men to look after the animals. The dog kennels have been declared by many experts to be among the finest in the country. Before they were built a member of the society visited many places where the highest type kennels were and when those at the farm of the Washington organization were built it was endeavored to incorporate in them the best features of all that had been inspected. Each dog has his private stall and own runway.

The cats have a house of their own above which is erected the sign of the black cat. They also have their private yard, which is roofed over to protect them from rain and snow.

Food Carefully Selected.

The food for these animals is prepared with special reference to the appetites and tastes of each class. For instance, the cats have salmon and prepared cat food. The dogs have meat, corn bread and dog biscuits, while the cows and horses have their regular grain, hay and forage. It is stated that the cost of feeding these animals amounts to something over $200 a month.

During the summer months the farm has many requests to board family pets. However, just now there are no facilities for this and all such requests must be refused. It is believed that if the society could raise the amount of money necessary to build additional kennels the boarding of animals during the summer would be a profitable business. Indeed, one officer is of the opinion that if someone could be found who would be willing to contribute the initial cost, the farm could be made self-supporting by boarding pets. It would seem to be advantageous to the owners as well, since the persons operating the farm are animal lovers and not merely interested commercially. One might therefore be sure that his dog or his cat would get the best of care and as far as possible the personal attention to which he has been accustomed.

The secretary of the Humane Education society who is so enthusiastic about going into the business of boarding pets says somewhat humorously that it would probably pay some wealthy animal lover to contribute the necessary funds and thus put the society on a basis that would do away with its necessity of continuously soliciting contributions.

While there are many societies interested in the welfare of dumb animals the Humane Education society feels that it is unique in that it never kills any animals. They are cared for until they die from natural causes. If a dog or cat becomes ill it is given home attention and if it fails to respond to this then it is taken to a veterinarian.

Kindness to Animals.

In addition to conducting this rest farm for animals the society conducts educational campaigns for the purpose of teaching the public to be kind to animals. It does this by distributing literature in the public schools by providing speakers to give talks to the school children and by various other mediums. It has held two animal parades, the first of which was led by President Harding's Laddie Boy and including General Pershing's horses, as well as the high bred pets of local citizens and the ordinary run of everyday animals. These parades were held during Be Kind to Animals Week. At such times school children are encouraged to compete in a poster contest. The best posters are selected and then sent to the national poster contest which is held under the auspices of the American Humane association of Albany, New York.

There are a number of cities which have associations similar to the Humane Education society and rest farms and hospitals for animals. Near Boston there is a rest farm for horses. Here work horses are given a two weeks annual vacation. In New York state the Horse Ride society has a shelter for small animals. This is a tribute to animals who served in the World War. Horses are given a vacation there, and the owners are loaned horses to take their places during this period. This is considered not only a boon to the animals but also to the small owner—that is the man who has perhaps one horse and a truck which he uses for moving purposes. In many cases if anything happened to the horse the man would be without means of support because he would not be in a position to purchase another horse.

In New York City there is an organization which is an exchange or clearing house for friendless animals. This organization takes in homeless dogs and cats. If a person is looking for a pet he may apply to it and he will be given one upon the assurance that he will give it a good home. He must, however, sign an agreement to the effect that in the event that he for any reason does not wish to keep the animal he will return it to the society.

This organization also has a farm on Long Island where it cares for dogs, cats, and a few horses. It has been functioning for twenty years and it estimates that in that time it has cared for 100,000 animals. Also it has found homes for 75 per cent of the dogs and 50 per cent of the cats which it has cared for. Some time ago a wealthy woman left this organization a legacy of $800,000.

These are only a few of the things that are being done to better the lot of unwanted animals. The ambition of the Washington Humane Education society is to make it a model. Every year there are thousands of visitors to the National capital, a large percentage of whom are animal lovers and interested in seeing a place which is operated for the sole purpose of giving friendless animals an opportunity of spending their last days in peace. Recently some people from California went out to visit the farm and were so interested that they are now making preparations to start a similar one in their state.

Getting Skinnier Every Day

Hollows in Cheeks and Neck Growing Deeper Every Week

Something Must Be Done and Done Right Now—Quick

Tens of thousands of thin, run-down men—yes, and women too—are getting discouraged—are giving up all hope of ever being able to take on flesh and look healthy and strong.

All such people can stop worrying and start to smile and enjoy life right now for McCoy's Cod Liver Oil Compound Tablets which any druggist will tell you all about, is putting flesh on hosts of skinny folks every day.

One woman, tired, weak and discouraged, put on 15 pounds in five weeks and now feels fine.

We all know that Cod Liver Oil is full of vitalizing flesh producing vitamines, but many people can't take it because of its horrible smell and fishy taste and because it often upsets the stomach.

McCoy's Cod Liver Oil Compound Tablets are as easy to take as candy and if any thin person don't gain at least 5 pounds in 30 days your druggist is authorized to give you your money back—and only 60 cents for 60 tablets. Ask Mathews Med. store or any druggist.

But be sure to get McCoy's, the original and genuine, and bear in mind that for thin, sickly kids they are wonderful—a very sickly child—age 9—gained 12 pounds in 7 months.

MAY IMPROVE CLARK AVENUE

Will be Part of Work on Inter-county Highway.

With the state highway department appropriating $15,000 per mile for the improvement of "The Narrows," a part of Intercounty highway No. 7, in Jefferson county, and extending up to the Jefferson-Columbiana county lines at Wellsville, Jefferson county is now ready to share in the cost of this improvement, which is to be undertaken this year.

The improvement of this part of No. 7 means that Clark avenue will have to be improved by the city of Wellsville and the county commissioners, while "The Narrows" is being graded and given a temporary top surface.

Clark avenue, Wellsville, is a part of I. C. H. No. 7, likewise the Wellsville-East Liverpool road, and the improvement of the Clark avenue section will come under the direction of the county commissioners.

Improvement of this part of the road in Jefferson county will result in all river road traffic being routed over the new section, and will eliminate travel on the present paved road between East Liverpool and Chester, crossing the Ohio river at New Cumberland and thence to Steubenville over the new road through Toronto.

It has also been pointed out by the state highway department that the improvement of "The Narrows" will open the closest gap between the National pike at Bridgeport and the Lincoln and also the Cox highways, and over an improved highway. Additional traffic will be thrown into both Columbiana and Jefferson counties as a result of the improvement.

While the Clark avenue improvement has developed since the new county road program was first designed, this improvement will of necessity have to fall in line with all of the other proposed roads. Both state and federal aid will be sought on the Clark avenue resurfacing, and with county funds available as a result of the passage of the proposed bond issue, a through road between East Liverpool and Steubenville is assured within a year or probably during the next nine months.

The northern part of the county will also feel the benefit of this improvement in Jefferson county, and will ultimately result in a new line of heavy traffic through Wellsville over No. 7, which at this time is closed to direct inter-city traffic communication.

Commissioners of Jefferson county have been informed by the state highway department that funds for the improvement of "The Narrows" is now available, and Jefferson county will, it is said, immediately proceed with the suggestion of the Columbus department.

Plan Entertainment Course.

The Irondale schools are promoting an entertainment course of four numbers. The Leakes Orchestral Entertainers, a musical number, will open the course on Saturday evening, Oct. 31. If the advance sale of tickets and the attendance at the first number warrant it, three other numbers will be given at dates which will be announced later. The other three numbers are:

The McCords, musicians and actors.
Smiley Brothers Jubilee Quintette.

Kills Catarrh Germ In Three Minutes

Chronic catarrh, no matter how bad, and cases of bronchial asthma now yield instantly to the amazing discovery of a French scientist. This drugless method called Lavex kills the germ in three minutes, yet is positively harmless to the most delicate tissues. Your head and lungs are cleared like magic. Sufferers are relieved in a single night.

To prove it and to introduce Lavex to a million sufferers in one month, I offer to send a treatment free and postpaid, to any one who will write for it. No obligation. No cost. If it cures you, you can repay the favor by telling your friends—if not, the loss is mine. No matter what you have tried, just send me your name and address for this generous free treatment and prove that you can be rid of catarrh.

WILL REBUILD BRICK PLANT

Loss in Summitville Fire Estimated at $60,000.

Steps toward the reconstruction of the Summit Brick plant, at Summitville, partially destroyed Tuesday by fire, will be taken immediately following insurance adjustment, according to announcement by officials of the company.

The power plant, the main manufacturing building and the Shale building were totally destroyed by flames, with a loss of approximately $60,000.

The fire, it is said, started in the engine room and is believed to have been caused by spontaneous combustion.

Fanned by a strong wind the flames defied the efforts of company employes.

The Summit plant is owned and operated by F. H. Johnson and H. P. Lynn. New machinery which was installed in the plant about a year ago was ruined by the flames.

LOCAL GIRL WEDS IN ZANESVILLE

Announcement has been made of the marriage of Miss Hilda Rushton to Celestine A. Farrell, which was solemnized recently in the St. James Episcopal church at Zanesville, Rev. Duncan Weeks performed the ceremony. The ring service was used. The principals were attended by Mr. and Mrs. Frank Bowers, of Zanesville, and the ceremony was witnessed by members of the immediate families.

The bride was charmingly gowned in blue velvet with hat to match.

Mrs. Farrell is the daughter of Mr. and Mrs. J. R. Rushton, of Wellsville. She has resided in Zanesville for the past four years, being employed as a nurse at the Bethesda hospital, where she graduated in 1924.

The bridegroom is a nephew of Mrs. H. E. Bailey, of Zanesville. He is employed at the Zulandt drug store.

The young couple are at home to their friends at 977 Greenwood avenue,, Zanesville.

PAYMENT OF FEE MAY BE DELAYED

The payment of a bill of $500, submitted recently to the city by Attorney Charles Boyd for services rendered to the municipality in two cases, may be temporarily delayed as a result of the city's shortage of funds.

Attorney Boyd's fee is for services for the city in the traction company fare fight and the Davidson case. The latter went through the appeals court and to the state supreme court. In the fare case, Attorney Boyd and Ingram spent approximately two weeks in Washington before the supreme court before the issue was finally decided.

Up until the present time, only Attorney Boyd's actual expenses in the two cases, amounting to $241.51, including hotel bills, railroad fare and other incidentals, have been paid.

MRS. McLAUGHLIN CLUB HOSTESS

Mrs. C. A. McLaughlin entertained members of the Jolly Matrons club last evening at her home in Fourteenth street, the affair taking the form of a Hallowe'en party.

Decorations and appointments were in keeping with the spirit of the occasion.

The chief costume prize was awarded to Mrs. John Riley. Awards for high honors in five hundred were made to Mrs. James E. O'Grady and Mrs. W. C. McConnell.

At the close of the evening, Mrs. McLaughlin served luncheon, assisted by Mrs. Oliver Herrington.

The next meeting of the club will be held in two weeks at the home of Mrs. Gerald Crumbley in Fourteenth street.

SOCIETY

Dinner Party Held At R. W. Harker Home In Newell Heights

Autumn leaves and fall flowers, with Hallowe'en novelties attractively adorned the home of Mr. and Mrs. Robert W. Harker of Newell Heights last evening, when a group of friends were entertained at a 7 o'clock dinner. Lighted candles were used on the large table, at which 12 guests were seated, while three small tables were decorated with flowers. After the dinner, progressive bridge was the principal diversion of the social hours. The high scorers, Miss Maud McKinney and Frank M. Gardner, were awarded trophies. A guest prize was given.

Birthday Anniversary Observed.

Miss Vera Hargreaves celebrated her eighteenth birthday recently with a masquerade party. The home was decorated with Hallowe'en novelties. Music, games and dancing were the features. Prizes were awarded for the best costumes to Mrs. Marcella Miller and Miss Velva Buck. Radio music and banjo playing by George Miller furnished the music for the dancing.

Refreshments were served by the hostess, places being arranged for Mesdames Marcella Miller, Mabel Moyte, Mary Hargreaves, Caroline Ashbaugher; Misses Mildred Buck, Blanch Hargreaves, Roxie McCauley, Velva Buck, Bessie Hargreaves, Edna Wolfe, Vera Hargreaves, Dorothy Jones and Grace Welsh; Messrs. John Eddy, George Miller, William Moyte, Allen Hargreaves, Oliver Ashbaugher, Victor Ludington, Frederick Hartzell, Elmo Miller, David Kelly, Edward Simms, William Smith, Earl Haney, Edwin Smith, Charles Clemenson, Homer Devitt, Clark McCoy and Orrin Powell.

The out-of-town guest was Elmo Miller of Parkersburg, W. Va.

Ladies of Elks to Entertain.

Ladies of the Elks will give a card party Tuesday afternoon at the B. P. O. E. temple, West Fifth street, with Mrs. Roy Welsh as hostess, assisted by Mrs. Charles Davis and Mrs. Walter Seederly. At 6 o'clock a dinner will be served, with the husbands and families as guests.

Walker-Bayle Wedding.

Simplicity marked the wedding of Miss Carrie L. Walker of Damascus and Russell M. Bayle of Wilkinsburg, Pa., which took place at 4 o'clock today at the home of the bride's parents, Mr. and Mrs. E. E. Walker, of Damascus. Rev. W. Stanley Smith of Willoughby, former pastor of the Methodist Episcopal church of Damascus, performed the ceremony in the presence of 50 friends and relatives.

The bride's gown was of white georgette over satin, while her veil was of embroidered tulle, with a bandeau of pearls and orange blossoms. Her bouquet was of bride's roses and lilies of the valley.

To the strains of the bridal chorus from Lohengrin the wedding party assembled before an improvised altar in the living room, which was decorated in palms, ferns, autumn leaves, and tall standards of chrysanthemums.

Miss Mabel Walker, the bride's sister, served as bridesmaid, while Clarence Bayle was his brother's best man. Junior Walker, the bride's nephew, was ring bearer, and Arthene Bye was flower girl.

A reception and dinner followed the ceremony. Out-of-town guests were in attendance from Akron, Cleveland, Lorain, Pittsburgh, Youngstown, Tyrone, Alliance, Canton, Salem and East Liverpool.

Mr. and Mrs. Bayle left for a honeymoon trip to Cleveland and other points and will be at home after Nov. 1, at 511 Shelbourne avenue, Wilkinsburg, Pa.

D. F. Nellis Surprised.

Honoring the birthday anniversary of Daniel F. Nellis, a group of friends surprised him last evening at his home in West Sixth street. Mr. Nellis has been in the lumber business here for 35 years. The evening was spent informally, after which luncheon was served. The principal speaker was J. M. Finley, Chester lumber dealer. George H. Thompson of Cleveland, was an out-of-town guest.

The honor guest was the recipient of many gifts. The home was attractively decorated in autum colors and leaves.

Half the world is half asleep

Can success in life be undermined by constipation? Indeed it can. The poisons of this disease tire you out, wear you down, make you listless and make you lose interest in things in general. Ambition is most often prompted by a thoroughly healthy body. Kellogg's ALL-BRAN brings permanent relief from constipation.

"Shoulders that droop and feet that drag"

THERE are men and women who seem to be eternally tired. They go about things in a listless sort of way. They try, but they can't seem to make the grade. Perhaps they do not realize that it is constipation which is sapping their energy.

There is a sure relief from this disease. It is Kellogg's ALL-BRAN.

Kellogg's ALL-BRAN goes completely through the system without changing its fiber. It sweeps the intestine clean, purifies it, absorbs and carries moisture through it, urges it to act exactly as nature intended. Unlike habit-forming pills and drugs, it is never necessary to increase the amount of Kellogg's ALL-BRAN which you first find effective.

Let Kellogg's ALL-BRAN regain your health and keep you feeling fit. Eat two tablespoonfuls daily—in chronic cases, with every meal. If eaten regularly, it is guaranteed to bring permanent relief or your grocer returns the purchase price. Eat your two tablespoonfuls with milk or cream, sprinkle it over other cereals, cook it with hot cereals, put it in soups and try it in the recipes given on every package.

Be sure you get Kellogg's ALL-BRAN—for only ALL-BRAN brings sure results. All grocers sell it. Leading hotels and restaurants serve it.

Indians' Prayer Breaks Drought and Saves Crops

Phoenix, Ariz.—The rattlesnakes of the Hopi Indians evidently carried the prayer of the red men for rain to the spider woman of the underworld, who the Indians believe has control over the rain clouds, for heavy rains fell, breaking the long-extended drought which threatened the crops and live stock ranges of central and southern Arizona.

The Hopi Indians recently staged their annual colorful and weird snake dance at their pueblo at Walpi, near Winslow, offering up their prayers for rain by liberating hundreds of rattlesnakes, which were supposed to carry the rain prayers to the snake mother and thence to the spider woman of the underworld. The dance is one of the most fantastic of American Indian dances—the Indians wrap and wind the snakes about their bodies and even take the reptiles in their mouths during the dance with utter abandon as to the danger of the poisonous fangs.

YOUR HEALTH

Kill Every Rat to Banish Dread "Pneumonic Plague"

By ROYAL S. COPELAND, M. D.
United States Senator from New York,
Former Commissioner of Health, New York City

DR. COPELAND

ONE of the great medical writers said: "Wherever plague exists an organized staff, an intelligent policy and a long purse are needed."

After the World War I was determined that the epidemic diseases raging in Europe should not enter America through the city of New York. One of my undertakings was to have systematic examinations made of the rat family, especially those to be found along the harbor line. This was done to make sure that no bubonic infected rats should be permitted to roam at large. To carry out my programme it was necessary to spend a great deal of money. Even now, it is probable the popular belief was that we were merely striving to kill off the rats and were spending much cash doing it. As a matter of fact, our men strove to cover every area of the city in order to catch rats which might be examined to see if they had bubonic plague.

Months before a community suffers from the plague, the rat population suffers and dies. An unusual death rate among rodents must give rise to the suspicion of epidemic disease in the rat family.

In health matters it is wise to be several jumps ahead of disease. To protect against the plague, or the "black death," as it is called, requires intelligence, organization and a long purse. But every dollar spent to prevent sickness and death is money well spent.

As I write there are sensational newspaper reports of many deaths in California from pneumonic plague. This is only a specialized form of the plague, but it is a very serious type of the disease.

The pneumonic plague strikes the victim without warning. High fever, pain in the chest, difficult breathing and severe cough are the early symptoms. The sputum is bloody. Blackness of the face is quickly noticed.

Sometimes there are intestinal disturbances with diarrhoea. This may mislead and give the impression that the case is one of typhoid fever.

The heart fails, the pulse is weak and the prostration is profound. Very few persons recover from the disease.

The rat is merely the vehicle. The real offender is the flea. When the rat host dies the fleas leave the cold body and jump on to the nearest animal. If this is a rat, all right, but if it is a man, the bite of the flea gives him the infection, and soon he is down with the plague.

The time will come when houses and other buildings, especially along the water front, will be given substantial foundations and made ratproof. The harborage of rats should be destroyed, and by cleanliness and orderliness the breeding places will disappear.

Science is at work to perfect a serum to control the disease and a vaccine to inoculate against it.

Answers to Health Questions

D. F. M. Q.—What causes a pain in the back between the shoulder when stooping or leaning?

A.—This is probably due to neuritis. For full particulars, send a stamped, self-addressed envelope and restate your question.

• • •

A CONSTANT READER. Q.—My 13-months-old baby has four teeth, is never sick and weighs about 20 pounds, but he perspires very freely when sleeping and seems very restless. Is this a sign of rickets?

A.—Your baby is a very good weight for his age and is apparently very healthy. You may have too many oedclothes over him at night. This would cause symptoms such as you describe. Be sure that there is plenty of air in the sleeping room and avoid too heavy covering. Also make sure that the baby is not constipated. No, this is not an indication of rickets.

• • •

MISS B. Q.—What can I use to massage the neck to fill out hollows?

A.—Try using cocoa butter. It may help you.

• • •

M. W. G. Q.—What can be done for a red nose?

A.—Kindly send a self-addressed, stamped envelope for full particulars and restate your question.

• • •

M. K. Q.—How can I remove or make less noticeable two moles on my face?

A.—Moles may be made less noticeable by the use of the electric needle, but this should be done by a competent person thoroughly skilled in this particular kind of work.

• • •

MISS H. M. Q.—What would you advise for inflamed eyes?

A.—Try bathing the eyes several times a day with a warm solution of boracic acid and at night apply 1 per cent yellow oxide of mercury ointment. If the trouble persists, see an eye specialist for the further treatment advisable.

• • •

B. C. C. Q.—What would you suggest for cold feet, which also seem to go to sleep frequently? What would cause knots on the cords under my knees?

A.—This is probably due to poor circulation. For further particulars on this subject, kindly send a self-addressed, stamped envelope and repeat your question. Your further symptoms are probably due to overexertion. Try resting for a time or keep off the feet as much as possible and see whether you do not benefit.

• • •

Dr. Copeland will answer for readers of this paper questions on medicinal, hygiene and sanitation subjects that are of general interest. Where the subject of a letter is such that it cannot be published in this column, Dr Copeland will when the question is a proper one write you personally if a self-addressed stamped envelope is enclosed. ODD TREE BRINGS BOY NICE NEST EGG

Gets $6,000 for Early Reddening Apple Limb.

Mullica Hill, N. J.—Through a quirk in the process of the evolution of an apple tree, an eight-year-old boy here has on deposit for him in the bank $6,000—a sum that has been set aside to give him a college education.

A biological sport is the term horticulturists and agriculturists apply to the chance production that gave the boy the money. "Peculiar," said neighbors around here, casting a passing look at the valuable apple tree.

Recently the biological sport, or natural phenomenon, came in for its share of acclaim, when fruit growers, farmers, agriculturists and horticulturists from many states journeyed to the farm of Lewis Mood, several miles outside of Mullica Hill.

Almost 1,000 persons gathered in the 50-acre orchard to look at the phenomenon that appeared on Mood's farm. A graceful, low-sweeping apple tree, with its limbs heavy with the burden of green fruit. In appearance like any other apple tree.

At first there seems little difference between this tree and hundreds of trees in the orchard, except that it is confined in a wire cage. Closer observation reveals a splash of red among leaves and the green apples that hang from the bough.

Then it is seen that one of the limbs has apples already red, while all of the other apples on the tree are green.

For that one limb, on which the apples color three weeks in advance of all the other apples on the tree, a western nursery firm four years ago paid Mood the sum of $6,000. Now with grafting to other trees the firm will be able to supply thousands of fruit growers with small trees of the early coloring fruit.

Eleven years ago Mood found red apples on one limb of a tree bearing fruit still green. He called in neighbors. They thought nothing of it, but he realized the commercial importance of the development. Apples that developed a rich, red color before they had ripened could be picked at once, kept through the winter and sold at a higher price in the market.

He got in touch with the nurserymen from whom he had purchased the tree. They came East to see the phenomenon, and four years ago purchased the limb for $6,000. This sum Mood immediately put aside for the education of his son, Lewis, Jr.

New Law Makes Briton

LONDON, Oct. 20.—Sir Lewis Dibdin, a well-known English legal authority, has been appointed to a position which virtually makes him the fairy godfather of countless young people all over Britain. By a new la wshortly coming into force, Sir Lewis has the power to give consent to the marriage of lovers under the age of 21 whose parents refuse their sanction.

If minors consider that consent to their marriage is witheld on grounds that cannot be upheld reasonably and justly, they have but to appeal to Sir Lewis, and if he thinks their appeal is justified, he has power to over-ride the objection, and give his consent for the marriage.

—DR. CALDWELL

If Past Forty, Adopt a Regulating Laxative

Most men and women past forty must give to the bowels some occasional help, else they suffer from constipation. One might as well refuse to aid weak eyes with glasses as to neglect a gentle aid to weak bowels.

Is your present laxative, in whatever form, promoting regularity for weeks and often for months—or must you "purge" and "physic" every day or two to avoid sick headache, dizziness, biliousness, colds, or sour, gassy stomach?

One dose of Dr. Caldwell's Syrup Pepsin will establish natural, healthy bowel movement for weeks at a time, even for those chronically constipated. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement but, best of all, it is often months before another dose is necessary. Besides, it is absolutely harmless and pleasant to take.

Buy a large 60-cent bottle at any store that sells medicine and just see for yourself.

Girl Scales Peak but, Oh, the Price

Yosemite National Park, Cal.—Miss Tecla Van Austin, of San Francisco, went forth this summer with one ambition; one slightly worn hiker's pick; one new climber's suit, and she returned with one record all her own; one pair of knickers, seatless; one pair of arms, skinned, and an oversupply of satisfaction.

Her ambition was to climb Grizzly peak. She did that. She wore out all her stockings, sundry other items of apparel and one guide. The guide gave up and returned, but Miss Austin went on until she had planted a dusty heel on the summit of the peak. After that she slid down the incline and completed the damage to her outfit.

She was the second woman to make the climb, but returning from the summit, she stepped in a baby avalanche and shattered all speed records for descent to the base of the peak.

D. C. WILLS DIES AT HOSPITAL IN CLEVELAND

Heart Collapse Claims Head of Federal Reserve District.

BANKING EXPERT

Operation Revealed an Abdominal Abscess and Peritonitis.

CLEVELAND, Oct. 22.—D. C. Wills, chairman of the board of the fourth federal reserve district, died at 8 o'clock today at Grace hospital following an operation.

Wills suffered a heart collapse, physicians said.

He was taken to the hospital last Friday, where an operation was performed. Yesterday afternoon plans were made for a blood transfusion operation, his son volunteering, but his condition was so critical that the idea was given up.

Throughout the night his condition became increasingly critical.

Widely Known Banker.

Wills had been ill for some time prior to going to the hospital. His physicians diagnosed his ailment as intestinal influenza. The operation revealed an abdominal abscess, complicated by peritonitis.

One of the most widely known bankers in the middle west, Wills had been connected with the federal reserve system since its inception during the first term of President Wilson. In the closing days of the Wilson administration he was named as director of the system, but when President Harding was inaugurated in March, 1921, the nomination was withdrawn and Wills returned to his duties as head of the federal reserve bank with headquarters here.

Under his leadership the bank has played a large part in the financial affairs of the district, embracing some of the richest industrial territory in the United States.

He was born at Allegheny, Pa., August 11, 1872. He began his banking career in his early teens when he became a messenger at the Mechanics National bank of Pittsburgh. He remained with that bank until 1902, when he went to the Mellon National bank as auditor, and in 1904 was appointed cashier of the Diamond National bank, another Pittsburgh institution. In 1907 he was elected president of the Citizens' National bank at Bellevue, Pa., and he was holding that position when named chairman of the board of the newly formed Federal Reserve bank of the fourth district.

Wills was married. Four children survive.

Three-mill School Levy Will be Topic At C. of C. Conference

Members of the board of directors of the Chamber of Commerce will meet with the school board members in the chamber's room in the Little building Friday evening to discuss the proposed three-mill school levy which will be submitted at the election on Tuesday, November 3.

The school board has launched a campaign to seek support of the levy, which it is declared, is merely a renewal of the tax which has been in effect for the last five years.

The present levy is 8.71 mills. Should the electors fail to approve the extra millage, the levy will be cut to 5.71 and the schools revenue from taxation reduced approximately 35 per cent. This would mean a closing of schools at the end of the sixth or the seventh month of the term, the board contends.

Elmer Firestone, 61, Dies in California; Ship Body to Ohio

Body of Elmer Firestone, 61, and brother of Harvey Firestone, millionaire tire manufacturer, of Akron, who died in his home in Los Angeles, Cal., Wednesday, will be taken to his former home in Columbiana for burial.

Mr. Firestone was formerly the San Francisco manager of the firm of which his brother is head and in which he was a large stockholder.

LOS ANGELES, Cal., Oct. 22.—Solemn requiem high mass for Elmer E. Firestone, brother of Harvey Firestone, tire manufacturer, was celebrated here today. The body will be sent tonight to Columbiana, Ohio, Firestone's birthplace, for interment.

LABORER KILLED BY LOCOMOTIVE

CINCINNATI, Oct. 22.—Fulton Killbrow, 35, a section gang laborer, was killed instantly today when he stepped in front of a Big Four locomotive east of Troutman station. Killbrow had lived in a railroad camp car at the foot of Clyde street, Riverside.

TODAY

(Continued from Page One)

Lloyd George says our prohibition laws are not the work of cranks, and are making America "the most prosperous country under the sun, not because they have not the drink."

We have some drinks, a pretty bad kind unfortunately. But no longer in big cities does the number of saloons equal the number of policemen and school teachers. Once in New York there were 8,000 school teachers and 8,000 open saloons. Now there are about twice as many school teachers, and not one legally open saloon. That's an improvement.

Many not in favor of drunkenness, but of real temperance, believe with Thomas Jefferson that light beer for workmen, light wine for other classes, ice water for those that prefer it, would be the right plan. Meanwhile we are piling up wealth and trying an interesting experiment.

real or imaginary differences that exist.

President Lewis subsequently named Cline, C. C. Ashbaugh and Walter B. Hill as members of a committee to investigate the possibility of athletic reconciliation between the Blue and White and the Orange and Black.

Congressman's Address.

The modern method of governmental expenditures was explained by Congressman Murphy who pointed to the budget law as the cause of immense savings in the nation's expenses within the last few years.

Explains Budget System.

Referring to the budget system of government operation, Mr. Murphy explained that the methods in use now which were created through the house of representatives and not by any executive suggestion might well be studied by municipal, county and state authorities.

"Your high taxes,' he pointed out, "are in your city, your county, your state. Don't find fault with the nation."

The budget system, Mr. Murphy said, had enabled the government since 1921 to cut the national debt by $6,000,000, decrease income tax rates twice, with another straight cut of 25 per cent, and gives every prospect of another slash by the next congress.

The budget measure, he said, after being worked out by congress, was vetoed by a former president, but during the administration of President Harding, was approved and put into effect. And then the ancient methods of appropriating funds for governmental expenses were superseded by a business-like methodical system that aimed at the curtailment of every cent of unnecessary expense in any department. Since 1921, he said, the cost of operation has been cut squarely in two as a result of the budget.

"But," he said, "we can't lower the taxes many people complain of, because they are local."

He referred to Martin Madden of Chicago, chairman of the appropriations committee, as one of the most powerful men in government circles. Madden, he explained, holds the purse strings of the country and his word is law on governmental expenditures.

Denounces Mind-poisoning

Mr. Murphy said there are three branches of government, but that only the legislative branch belongs to "you." From this the speaker launched into a history of the work done by congress, saying that "Congress has been misrepresented by propaganda. They have tried to poison the minds of people, making them believe that there is a want of cooperation between congress and the president." Mr. Murphy roundly denounced such reports and claimed that only by the harmony that exists between the legislative and executive branches of the government could such great work be done as has been done. He saved his strongest denunciations, however, for what he termed to be an effort to make people believe that congress is composed of "weaklings." Making the denial concrete, Mr. Murphy said "I want you to know that I am no weakling. I am as good as any man here, morally, in business or any other way."

weeks. A small tuition fee will be charged.

Aproximately $2,500 worth of equipment has been installed in the basement of the Central school building where class rooms have been established. Cost of equipping the class room was advanced by manufacturers in the East Liverpool district interested in the establishment of the course—the only one of its kind in the state outside the ceramics school at Ohio State university.

Salary of the instructor for the first year will be paid by the state. After that it will be borne jointly by the state and local educational authorities.

All persons who are interested in the proposed course are urged to enroll Monday evening. Ceramic engineers employed in the research departments of local plants will co-operate with the school authorities in establishing the course.

Boys Soap Street Car Tracks; Mayor Warns Pranksters

Youthful pranksters, prematurely celebrating Hallowe'en, caused difficulties on the Grandview street car line in the Maplewood district last night.

The street car tracks were soaped for more than 300 feet on a steep grade. When the car hit the soaped section, its wheels turned but it was unable to move until the tracks were sanded.

Mayor Brown today warned against early celebration of Hallowe'en. Many complaints have been received by the police during the last week or ten days of depredations alleged to have been committed by children. Police have been instructed to arrest offenders.

POLICE RAID HOME ON Y. & O.

Louis Noble Charged With Possession of Liquor.

Louis Noble, residing near Stop 54 on the Y. & O. railroad, was arrested by Turnkey William Cline and Special Officer Walter Torrence at his home late last night, charged with the illegal possession of intoxicating liquor.

Two gallons of moonshine whiskey, a large quanfity of mash and copper still are alleged to have been found in the house. The liquor and still were brought to the city hall in Turnkey Cline's private automobile.

Upon arraignment before Mayor Brown, Noble was found guilty and fined $500 and costs. He was committed to jail when he said he was unable to pay his fine.

Thomas Beaver, who was arrested when police raided a Mulberry street pool room last Saturday afternoon, has been released from custody. Beaver paid one half of his $500 fine, Mayor Brown said.

Armistice Day

(Continued from Page One)

requested to display the flag on standards in front of their stores.

Here is the special bulletin sent members of the Merchants' division of the chamber:

"The mercantile establishments in practically all of the larger cities of Ohio are arranging to adopt the two-minutes-of-silence' plans in the observance of Armistice day. In other words, instead of closing for a part of the day, the stores will, promptly at 11 o'clock, suspend all operations for exactly two minutes.

"The advertising committee of the Retail Merchants' division of the Chamber of Commerce has gone into this matter and urges all members of the divlion to follow this plan. It can be made very effective if all clerks are advised that they must suspend activities with their customers at exactly 11 o'clock and stand at attention for two minutes.

"This year Armistice day falls on Wednesday in what should be one of the busiest retail selling weeks of the year. A complete interruption of business for even half a day would be exceedingly expensive to merchant and the shorter plan outlined above is really more impressive.

"The committee also requests that all merchants properly display the American flag in their standards in front of their stores and decorate their places of business in a fitting manner."

The bulletin is signed by W. O. Bloor, M. J. Newman and H. B. Barth, members of the advertising committee of the division.

There will be no public demonstration in observance of the day by local veteran organizations, although the Sons of Italy are planning a street parade, band concerts and a fireworks display at night. The merchants have promised to release ex service men in their employ for the day or a part of the day in event of a parade or other celebration.

cording to complaints made to the department of commerce.

Although there are far too many stations on the air several hundred applications for new broadcasting permits are now in the hands of Chief Radio Inspector W. D. Terrell. A temporary halt in issuances of licenses has been called until congress has a chance to lay down a schedule of requirements for the broadcasters.

Officials feel that it will be necessary to eliminate many of the stations now on the air or force them to remain silent at certain periods.

Canada, it was learned today, will be represented at the conference here next month. It was expected the Canadian government would extend its cooperative arrangement with the United State to prevent inter-nation interference. Already Canada has agreed to limitation of code broadcasting on Canadian ships near American shores.

100 Persons Shaken When Pennsy Train And Engine Crash

CLEVELAND, Oct. 22.—Nearly 100 passengers were badly shaken up, but otherwise uninjured today when a Pennsylvania passenger train, Cleveland bound, collided with a switch engine one mile north of Bedford.

The vision of the engineers was obscured by a dense fog. Officials here said it was only the quick and accurate work of the train crew in applying emergency brakes that prevented a serious accident.

Windows in the passenger train were broken by the force of the impact. The switch engine was badly damaged. Members of both trains escaped except for slight bruises.

Moonshine-Crazed Man Hacks Wife to Death, Kills Self

MARION, Mass., Oct. 22—As their four little children slept peacefully in an adjoining room, Albert Bourgeault, 45, crazed with moonshine liquor, early today hacked his wife to death with an ax and then ended his own life by severing the juglar vein with a razor.

Mrs. Johnson is survived by her husband and one daughter, Gorgea Giethlen, of Atlantic City, N. J.

Moyer-Wasby Suit

(Continued from Page One)

Attorney R. G. Thompson, representing Mrs. Wasby, and Attorney George E. Davidson, counsel for Moyer Brothers.

The injunction case had its beginning in common pleas court at Lisbon early last May when Moyer Brothers were granted a temporary restraining order. The plaintiffs charged that their lease on the site did not expire for several years and that a one-story building would be insufficient to meet their needs. Later the temporary injunction was dissolved by the county court.

Counsel for Moyer Brothers carried the case to the court of appeals, which referred it back to the common pleas court for a hearing and a ruling. The hearing in the common pleas court resulted in a victory for Mrs. Wasby. The case was again carried to the court of appeals and was slated for a hearing in November.

Work on the new structure is to be rushed in an effort to have it under roof before cold weather, if possible.

Charles Floto, 78, Wellsville, Dies In Mercy Hospital

Charles Floto, 78 years old, of Wellsville, died this morning in the Mercy hospital, Pittsburgh, following a short illness of pneumonia.

He had been a resident of Wellsville for nearly 40 years. Although born in Germany, he spent the greater part of his life in this country. His wife died a year and a half ago. For the last two or three months he has been residing with a daughter, Mrs. Charles Miller, of Pittsburgh.

He was a pensioner of the American Sheet and Tin Plate plant here, and a former employe of the Stevenson Foundry company.

The following children survive: Carl, Mrs. William Rosenberg, John and Albert, of Wellsville; Mrs. Charles Miller, Pittsburgh; William, of Glassport, Pa.; two brothers, Henry, of Wheeling, and A. L. Floto, of Pittsburgh; and two sisters, Mrs. J. H. Bush, of Philadelphia, and Mrs. Fred Layman, of Steubenville. In addition, 15 grandchildren are living.

The body will be removed to the D. N. MacLean funeral home in Wellsville this evening and later taken to the home of a son, John Floto, 926 Main street, where it may be viewed by friends tomorrow evening. Funeral arrangements have not been completed.

Power and Asbury Classes Will Give Banquet Tonight

A banquet for members of the Power and Asbury classes of the First Methodist Episcopal Sunday school will be held in the social rooms of the church at 6:30 o'clock tonight. Arrangements are being made to entertain approximately 150 men.

The dinner, to be served by the ladies of the church, will be followed by a program of sports, including competitive games of volley ball and other athletic events, in the church gymnasium.

The Power class is taught by Charles R. Boyce, while Mark Brownlow is teacher of the Asbury class.

Woman is Stabbed To Death; Husband Is Found Dying

NEW YORK, Oct. 22.—Stabbed in the back, Mrs. Rose Franschino, 46, was found slain in the cellar of a tenement on East 107 street today.

On the floor above her husband, Frank Franschino, 63, was found dying from half a dozen wounds in the chest.

REPORTS FROM STOCK MARKET

NEW YORK, Oct. 22.—The oil stocks led a brisk and active advance in the early trading on the stock market today. Pan-American supplanted Marland as the leader of the independent oil group, and moved up 2 points to 71½ in the first half-hour. Independent Oil and Gas gained 3 points in the same period, while about a score of the well known oil shares rose a point or less in active trading.

The move in copper stocks gained considerable momentum, a direct response to the firmer trend of the copper metal market and the influence of heavy buying orders for the red metal from home and abroad. American Smelting sold near its record high price; Calumet and Arizona, Cerro De Pasco, Magma, Anaconda and other copper stocks featured a strong and active market, with prices up a point or more. The market surged and boiled in the first hour as buying orders flowed in from every direction, and sales in this period aggregated 637,600 shares.

United States Steel returned to position of leadership in the industrial list, and advanced to around 126¾, against its previous closing price of 125⅝. Estimates of the corporation's earnings for the third quarter are very favorable, notwithstanding that the mills were not as active as in the preceding quarter, but price changes in that period were almost invariably upward.

With the exception of Hudson, which moved up 4 points to 99, the motors were featureless and generally inactive.

The utility, mercantile and specialty stocks moved upward in brisk trading. United States Distributing jumped 5 points to 40.

Rails were inactive but firm.

Call money renewals 4½ per cent.

years. It requires attendance at some Ohio college or university.

"Third—The essays are limited to 500 words and must be in the hands of the judges not later than January 1, 1926. The winner will be announced on Arbor day of 1926, and the formal award will be made at the state convention of the Ohio Federation of Women's Clubs in the spring of 1926.

"Fourth—There will be five state judges selected with the approval of the Ohio Federation of Women's Clubs. The award will be made absolutely on merit, and irrespective of race, religion or social station.

"Fifth — These essays are to deal with some phase of the subject of forest conservation including either the conservation of our existing supply or the reforestation of denuded lands, or both. It is permissible to make the subject apply to Ohio but it is preferred that the subject be approached first from a national standpoint.

"Sixth—The overwhelming consideration in the judgment of these essays will be the thought that is put into them more than the literary style. It is the thought that is most desired.

"Seventh—A limited amount of useful and informative literature will be furnished to each writer direct from the office of Mrs. W. W. Milar, state chairman of conservation for the Ohio Federation of Women's Clubs. There will also be furnished a list of books, magazines and pamphlets recommended for supplemental reading if the writer desires to consult them."

Route Ohio Over Dam Property

COCO-COD

for health

TO pure cod liver oil, which doctors prescribe generally, have been blended the essential vitamins — A B C and D — derived from vegetables, eggs, yeast and rice! This then is mixed with chocolate, America's favorite.

And the result is cod liver oil, made easy to take—Coco-Cod, vitalizing and body-building! It's the new vitamin concentrate—a tonic young and old alike find effective. And it is recommended particularly in the treatment of anaemia, nervous disorders, undernourishment, rickets, general run-down and convalescent conditions. It promotes endurance —and powers of resistance. It feeds the system with strength and energy. It puts people in the "pep" class— as Charles Evans of 204 Thornhill Street, Xenia, Ohio, so aptly expresses it:

"Coco-Cod put me back in the "pep" class after I had been feeling overworked, tired and nervous for some time."

So if you, too, have a lackadaisical sort of a feeling—tired, over-worked and nervous—renew your energy and virility—

Begin to-day to use Coco-Cod for health

Sold by all good druggists

ATTENTION, PHYSICIANS!

Physicians everywhere are prescribing Coco-Cod where the occasion calls for Cod Liver Oil.

If you would like to test, examine or analyze Coco-Cod, write us on your letter-head and we shall gladly send you a bottle free of charge.

PIMPLY? WELL, DON'T BE

People Notice It. Drive Them Off With Dr. Edwards' Olive Tablets.

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful; substitute for calomel there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 15c and 30c.

SERIES OF ROAD MEETS PLANNED

Program as Proposed by Commissioners to be Discussed.

A series of meetings, at which time the road program for 1926 as proposed by the county commissioners will be discussed have been scheduled to be held next week, but the exact dates and names of speakers have not been selected. This detail, however, will be closed before the week end.

At a meting of Butler grange tonight, Commissioner Conrad Berg and L. H. Johnson, clerk to the board will speak and will explain in detail the proposed program and also the financing of the projects through the proposed $950,000 bond issue.

Knox township will have a road meeting in the Grange hall Friday night.

Meetings that will be scheduled to be held next week include No. 9 school, St. Clair township, Summitville, Centralized school, Fairfield township; Willow Grove Grange hall, Hanoverton and Wayne township.

A meeting was held at Midway Grange Wednesday night at which time Commissioner Berg explained the financing of the new road program, after which a meeting of farmers was held at Salem which was attended by Mr. Berg and Mr. Johnson.

Oil Lease Transferred.

The record has been made showing that H. H. Hyland, Jr., has transferred a number of oil and gas leases he held in Fairfield township as being transferred to the Big Seven Oil and Gas company. These include the leases held on the farms of Martha E. McBurney, Charles E. Miller, Charles E. Eckert and H. L. McBurney.

Hyland has also taken a lease on a 10-acre farm in Fairfield township owned by Minnie O. Lower.

Feel Splendid! Nicest Laxative, "Cascarets" 10c

Don't stay headachy, dizzy, bilious, constipated, sick!

One or two pleasant candy-like "Cascarets" taken any time will mildly stimulate your liver and start you bowels. Then you will both look and feel clean, sweet and refreshed. Your head will be clear, stomach sweet, tongue pink and your skin rosy.

Because "Carcarets" never gripe or sicken, it has become the largest selling laxative in the world.

How do you feel at 5 o'clock?

"ANOTHER day's work done! Now, for a regular dinner—and a good time with the wife and kiddies! Guess we'll see a movie, go for a walk in the park or take a long ride. Bet my wife has a fine juicy steak and potatoes—good cold buttermilk and hot rolls—and pie. Oh, Boy! makes my mouth water just to think of it."

Is that the way you feel at 5 P. M.? Or, are you just too played out for any good when your day's work is over?

If quitting time isn't really beginning time for you, then it's a sure sign that your entire system is starving for healthy, rich, red blood. And this is just as sure a sign that you need S. S. S. You've simply got to build up your blood.

For 100 years S. S. S. has been proving that a run-down system, rheumatism, loss of weight, loss of appetite, sleeplessness and nervousness, just as skin eruptions—boils, pimples, pale complexion and a lowered vitality, are all the result of blood weak in red cells.

S.S.S.

Once let S. S. S. get to work and the joy of living will come back. 5 P. M. will have a different meaning to you. Get S. S. S. today. All druggists sell it. The larger size is more economical.

FARMERS REPORT PETTY ROBBERIES

Numerous robberies have been reported to Sheriff George Wright during the last few days by farmers. In one instance 15 bushels of potatoes were dug out of the field on a farm in St. Clair township, and from an orchard in Salem township 25 bushels of apples were taken. From a farm in Hanover township a barrel of new cider was taken and from another farm corn lying in the field after being shocked was stolen.

In several of these thefts clues have been obtained by Sheriff Wright and Deputy Sheriff Lawrence Kindsvatter.

14 NEW JURORS ARE SUMMONED

Fourteen names have been drawn from the jury wheel, and those summoned have been ordered to report for duty at 9:30 o'clock next Monday morning. Those who have been drawn are:

East Liverpool — Karl W. Gero, Charles L. Skinnell, John W. Golden, Shelton O. Sowards, John R. Stoddard.

Salem—J. T. Smith, Lee Chamberlain, Claudie Campbell.

Wellsville—A. G. Boyd, James Orr, Sr.

Salineville—John McIntosh, Ira Rice.

Clarkson—John M. Gaston.

Beloit R. D.—Margaret A. McDaniel.

Grange Took No Action.

Instead of Clarkson grange recently endorsing the proposed $950,000 bond issue for good roads as was announced, it was a community meeting held in the Grange hall following the Grange meeting that gave unanimous endorsement to the program. It is announced that Grange meetings never give endorsement to any project.

Case Closed.

In the case of Getrude Patterson of West township against Anne Patterson, a judgment on the verdict has been rendered in common pleas court No. 1 by James G. Moore. This judgment found that the paper writing was not the last valid will and testament of Percy L. Patterson, deceased, and the costs in the action have been placed against the plaintiff. Patterson committed suicide last year and there has been a court contest over the beneficiary of a life insurance policy. The judgment closes the case.

Case Settled.

The case filed in common pleas court on appeal of Charles Burris against the Modern Transit company, wherein judgment on a claim for $35 was sought on account of an automobile accident, has been settled out of court. The action was first tried in a justice of the peace court at East Liverpool, and was then appealed by the defendant to common pleas, after judgment of the lower court was rendered in favor of the plaintiff.

Leave to File Answer.

Leave has been given the Big Seven Oil company to file its answer October 26 in the case now pending in common pleas court of the First National bank of East Palestine against Robert A. Pow and others. Foreclosure is asked in the original petition.

Judgment Taken.

Judgment for $1,331.78 has been taken in common pleas court in the case of E. R. Aldridge against W. W. and Elizabeth I. Long. A decree for the foreclosure of a mortgage was handed down by the court and the sale of the premises ordered. The original action was based on a claim for $1,200, but with added interest the judgment shows an increase.

Quit Getting Up Nights

A Healthy Bladder Acts During the Day

C. N. Shuman, Republic Ohio, says: "Before taking Lithiated Buchu (Keller Formula) had to get up six or seven times each night. Now I do not get up at all. You may use my name if it would benefit anyone with bladder trouble." Be careful not to take drugs that check the action of the bladder. You may have to continue its use. Lithiated Buchu (Keller Formula) increases the action during the day. It cleanses the bladder as epsom salts do the bowels driving out foreign matter, neutralizing excess acids, thereby relieving the irritation which causes "Getting Up Nights." The tablets cost 2c each at all drug stores or Keller Laboratory, Mechanicsburg, Ohio. Locally at J. D. Holloway, Druggist.

Guilford, State Park Site, Laid Out for Building in 1835

The intent of the state of Ohio to establish a state park at Guilford has recalled to the mind of the older residents of that part of Hanover township the time when the town of Guilford was "laid out."

It was the projection of the Sandy and Beaver canal in 1835 that the eastern section of Hanover township began to feel elated over the prospects of a thriving community being established in the northeastern part of the township.

The receipt of the first work of the intent to construct a canal through that part of the township caused Dr. George McCook, J. G. Willyard and Jacob Schreiber to purchase from John Menzer the northeast part of section 12, Hanover township. Menzer, who was an early settler in the township, had made a clearing and had built for himself and his family a log cabin.

After Menzer had sold his land, the purchasers laid out the little town of Guilford and advertised far and wide the advantages that were to be gained by owning a lot in Guilford, and of what benefits were to arise from the construction of the canal.

Then an auction sale of lots was proclaimed.

John Hanna and Samuel Fugat then acquired land in the southeast part of section 12 and likewise laid out a plan of lots.

The day of the sale of lots arrived, and it is now recalled that upwards of 3,000 people traveled to the new town site from all parts of eastern Ohio, Pennsylvania, the then Virginia and from other states. Excitement run high. Although the land had not been cleared — native timber still standing, there was no letup in the demand for lots. They sold fast and at a sellers market, the prices being considered high in those early days.

The construction of the canal was then in progress. The chief engineer was named Gill and it was decided by the land owners to name the community "Guilliford" in honor of the engineer in charge.

It is now recalled that the lots put up at auction sold up to $250, but after the canal project proved to be a "flivver" the same lots were sold to others for as low as 50 cents and $1 each. As early as 1836 "Guilliford" had a population of around 500. Stores and taverns were opened. Caleb Hawley opened the first store. James Graham opened the second. Samuel Boots, a farmer, sold his land, moved to "Guilliford," bought land and opened the largest tavern and for two years he is reported to have done an immense business, as the town was then located on the "state road."

The town was incorporated in 1836 and Thomas Brandon was elected the first mayor. Taverns were opened thickly. Travel through "Guilliford" was heavy. Owners did a big business, so old residents assert.

And now, after Guilford has lain dormant for many years it is to again come to life, and all because the state park is proposed and is assured of early construction.

It has been estimated that $15,000 will be required to repair the bridge and build a new concrete waste way. The plan shows the new concrete waste way to be 64 by 84 feet with four 24-inch outlet pipes extending under a 10-inch concrete slab and emptying into the same outlet as the water that flows over the waste way. Five spawning pools on the south of the dam will be fed by fresh water.

Sebring

The Baracca class of the Methodist church met recently at the home of Miss Elizabeth Barclay, East Virginia avenue. During the program a solo was given by Joan Speakman. Mrs. Speakman gave a reading. JUST how to make motherhood a joy is one of the most important things in the world for you to know, right now, mother-to-be! Learn the great truth: use the simple method of an eminent physician who dedicated his life's work to this *great accomplishment* for your benefit!

"I was in labor only 25 minutes with my last child, but suffered agonies with three previous children," writes an enthusiastic mother who used Mother's Friend. *Great has been the praise of Mother's Friend for over three generations!*

Mother's Friend possesses the qualities to *penetrate* beyond the skin and soothe the network of ligaments across the abdomen, hips and back and lubricate the skin, nerves and muscles as month follows month. Finally, it makes motherhood a joy! Mother's Friend is safe—it contains no harmful drugs. Right now, from this day on, and right up to the day of childbirth Mother's Friend should be used!

Mother! Insist on Mother's Friend—the same as used by our mothers and grandmothers—don't wait—start using tonight—and meanwhile write Bradfield Regulator Co., Dept. 24, Atlanta, Ga., for *free* valuable booklet "Motherhood and the Coming Baby" (sent in plain envelope). It tells how Mother's Friend can help you during expectancy and at childbirth. This booklet also tells you many other things you want to know. "Mother's Friend" is sold by all druggists—*everywhere*.

AILMENTS OF YOUNG GIRLS

Relieved by Lydia E. Pinkham's Vegetable Compound School Teacher's Experience

Evanston, Wyoming.—"A few years ago I had troubles every month such as girls often have, and would suffer awfully every time. I was teaching school and it made it hard for me as I had to go to bed for two or three days. One day my mother suggested that I take Lydia E. Pinkham's Vegetable Compound, which I did, and it did wonders for me. In the course of a year I married and after my first baby was born I got up too soon and it caused a displacement. This troubled me so that I could hardly walk or do my housework. I knew what the Vegetable Compound did for me before so I took it ngain. It strengthened me and now I have five little kiddies. The eldest is six, the baby is five months old and I have twin boys three years old and a boy of five years. I do all my own housework, washing and ironing, and I never felt better in my life. I owe my health to your wonderful medicine and I recommend it to all my friends."—Mrs. VERBENA CARPENTER, 127 2nd Avenue, Evanston, Wyoming.

RESULT OF RIGHT EGG MASH

Lady Globe of the Globe Experimental yards had produced 276 eggs in 307 days when this picture was taken. She is of good strain but received no better care than any poultry owner can give. Her's is an extraordinary record. This egg record shows how well Globe Egg Mash and Globe Scratch fulfill the requirements for high egg production.

Feed your hens Globe Egg Mash for maximum egg production. It produces more high priced winter eggs because it contains all the nutrients necessary for maximum egg production.

There is real economy in the use of Globe Egg Mash and Globe Poultry Scratch not only because of the extra number of better flavored eggs but also because of the longer laying period of the hens.

For Catarrh and Colds

To relieve catarrh or check a head cold, melt a little Vicks in a spoon and inhale the vapors of Camphor, Menthol, Eucalyptus, Thyme and Turpentine. Also put a little in each nostril and snuff well back up the head.

Another way is to heat a tin cup put in a teaspoonful of Vicks and inhale the vapors that way. As fast as the vapors lose their strength, throw out the melted Vicks and add fresh.

Millions of mothers find Vicks the ideal remedy for croup and children's colds because it not only brings quick relief but avoids dosing delicate little stomachs with so much medicine.

KEEP YORKTON LIBERTY SHRINE

Historians Plan Golf Course and Memorials on Washington's Battlefield.

Washington.—To restore and preserve the battlefield of Yorktown, where Cornwallis surrendered to Washington, as an international shrine of liberty is the purpose of a movement directed by three Yorktown organizations, the Historical society, the Forum and the Country club.

The movement has received the support of notables, including President Coolidge and his royal highness the duke of York, the latter having accepted the honorary presidency of the Yorktown forum. Included in the list are cabinet members, senators, representatives, Vice President Dawes, General Pershing and other high military officials, governors, ambassadors and other diplomats, Stanley Baldwin, the prime minister of England; Field Marshal Haig, Sir Auckland Geddes, Sir Esme Howard, Lady Nancy Astor, Lord Bing of Vimy, the marshals of France and the descendants of Lafayette, Rochambeau and DeGrasse, who served at Yorktown with Washington.

Yorktown possesses a vital interest to Americans. General Pershing, in a foreword to a book, "The Glory of Yorktown," which is being circulated by the promoters, says that the fundamental proposition of the sovereignty of the people was made secure by the American revolution, and the struggle for national freedom, won at Yorktown, inaugurated a universal movement for national independence which spread over the western hemisphere and resulted in the establishment of twenty independent states in Latin America.

"This epochal movement," says General Pershing, "later spread to Europe and even to Asia, terminating the age-long struggle between democracy and autocracy, and bringing a new concept of popular government to the old nations of the world. Yorktown was one of the decisive battles of the world, and marked a turning in human history, the effects of which have become worldwide."

Dates Back Three Centuries.

Yorktown was patented in 1621 and the town of York was laid out in 1691. It is situated in the historic peninsula of Virginia. Near by is Jamestown, where the first English settlement on the western hemisphere was made, in 1607, and not far distant is the site of the famous Indian village of Powhatan. Close at hand, too, is Williamsburg, seat of William and Mary college, which was founded in 1693, and but a few miles away are Fortress Monroe, guarding the entrance to Chesapeake bay, and Newport News, Hampton and Norfolk. Within a short radius are the birthplaces of seven presidents of the United States—Washington, Jefferson, Madison, Monroe, Harrison, Tyler and Wilson.

Every school child knows of the important place Yorktown and its siege occupy in the history of the Revolutionary war, but not all know the spot that marked events in three other wars. There was important military action there during the war of 1812, when the British captured Yorktown on their way to Washington; during the Civil war the Confederates under General Magruder and General Johnson occupied the old Cornwallis fortifications when the Union under McClellan marched up the peninsula to attack them, and during the recent World war Yorktown was an American naval base.

The Yorktown Historical society has established headquarters in Yorktown to receive visitors, distribute explanatory literature and deliver lectures on the battlefield and the historic facts.

World Assembly Proposed.

It is planned to expand the Yorktown forum into a world assembly and international center comparable with The Hague, Brussels and Geneva. A classical temple is to be erected to house the forum and there will be closely connected units interpreting in symbol historical eras and epochs in the development of democracy. A perpetual endowment is to be provided.

The forum is affiliated with the Marshall-Wythe-Monroe school of government, citizenship and international relations of the College of William and Mary, and until the forum buildings are completed its sessions will be held either in the customs house at Yorktown, the oldest customs house in the United States, or in the National Memorial auditorium on the college campus.

The function of the Country club is to maintain the battlefield of Yorktown and to provide housing accommodations and recreational facilities for visitors. A temporary clubhouse has been erected and an 18-hole golf course completed. In constructing the golf course, the underbrush that concealed the redoubts, entrenchments and parallels of the famous battlefield has been cleared away and it is possible for visitors to inspect them for the first time since shortly after the Revolutionary period.

History of the Battle.

Yorktown, for all its military importance, by the way, was not a bloody battle ground, the allied American and French losses being only about 300 killed, wounded and missing, and the British losses about 550. Washington, when he took over the command from Lafayette, had a force far superior to that of Lord Cornwallis. He had approximately 9,000 Americans; there were 7,000 French under Rochambeau, and in addition, there was the French fleet of Count de Grasse, numbering 28 ships of the line with nearly 4,000 infantry on board. The siege was opened on October 9 and eight days later Cornwallis proposed to surrender.

October 19 Major General O'Hara led out the whole British army from the trenches into the open field, where, in the presence of allied ranks of France and America, 7,247 English and Hessian soldiers laid down their arms, delivered their standards and became prisoners of war.

The second siege of Yorktown, during the Civil war, likewise found McClellan in command of the Union army with a greatly superior force numbering 112,392 men as compared with not to exceed 50,000 Confederates. McClellan delayed his assault, however, and the Confederates evacuated Yorktown and fell back to Williamsburg on the way to Richmond.

Facilities Alone Make Possible

this Sedan of fine quality—at the lowest price ever placed on a Sedan by Studebaker

THERE was a time when the automobile buyer seeking greatest value for his dollar was justified in considering a car of second-grade quality, which was reasonably satisfactory from the standpoint of transportation alone.

But with the advent of Studebaker's One-Profit manufacturing policy, cars of the finest quality, such as the Standard Six Sedan illustrated below, are now only slightly higher in price than those of second grade.

This small difference in price is practically nothing in comparison to the vast difference in materials and workmanship—plus increased pride of ownership and the extra service that a Studebaker gives.

Under this One-Profit system we build in our own plants *all* bodies, engines, clutches, steering gears, differentials, springs, gear sets, axles, gray iron castings and drop forgings. Thus we eliminate extra profits and overhead that all other manufacturers (except Ford) must pay to outside parts and body makers—and what we save goes to the buyers of Studebaker cars.

And because we have facilities for manufacturing all vital parts on this One-Profit basis, we are able to design, engineer and build every Studebaker car as a complete harmonious unit. Being Unit-Built, the Studebaker functions as a unit—with all the advantages of unit over assembled construction.

The result is years longer life—scores of thousands of miles of excess transportation—greater riding comfort—minimum repair costs—and, finally, higher resale value.

A UNIT-BUILT CAR

Value Stabilized by "No-Yearly-Models"

THE fine Studebaker Standard Six Sedan illustrated below is upholstered in genuine wool cloth. Carpets are wool. Windows are real plate glass. Four wide doors.

Equipment includes an 8-day clock, gasoline gauge, coincidental lock to ignition and steering gear, automatic windshield cleaner, ash receiver, rear-vision mirror, stop light, dome light, safety lighting control on steering wheel, and full-size balloon tires.

This Sedan has many superiorities—hidden as well as obvious. Body pillars are of fine northern white ash, cross-members of hard maple. We pay a premium for the best steels.

Slam the door and the sound says "quality." Swing on the door. Run one wheel up on the curb and note how the doors still open and close—how the motor still runs smoothly. Sit on the firm, heavy fenders. Try the steering gear. See how easily it handles the full-size balloon tires. Test the comfort of the deep, wide seats.

Run the engine—the most powerful in any car of its size and weight, according to the ratings of the N. A. C. C. and the Society of Automotive Engineers. This is Studebaker's lowest priced Sedan. Make comparisons—then realize why no car at a comparable price has more than superficial resemblance.

Come in and let us demonstrate this sturdy One-Profit car.

MANY ATTENDING CHURCH MEETS

Hancock county is largely represented at the annual meeting of the Synod of West Virginia and Synodical Missionary society of the Presbyterian church at Wellsburg. The latter opened its session yesterday while the former body convened Tuesday night.

Dr. C. E. Erdman, moderator of the general assembly, is among the principal speakers at both conventions.

CARSON FUNERAL SERVICES HELD

Funeral services for S. D. Carson, 59 years old, paymaster at the Homer Laughlin China company plant, were held this afternoon in the home in Jefferson street. Rev. E. E. Lashley, pastor of the First Presbyterian church was in charge.

MANY REFUSED MEDICINE COURSE

Fully 700 applicants were refused entrance to West Virginia university's school of medicine this year, according to Dean J. N. Simpson. For the first year's work 106 are enrolled, and 55 are taking the second year's work.

Dean Simpson is of the opinion that a four-year medical course at the university is more urgent now than ever before. A hospital building is the chief need at this time, he says.

Four new assistants are employed in the medical school. Francis Murphy, who came from Chicago, is an instructor in anatomy; Carl Helson, in the Physiology department; Robert Clark, in bacetriology, and G. Chenoweth, in chemistry.

Soccer Games Scheduled.

Homer Laughlin China soccer team is scheduled to meet New Brighton at the latter place Saturday afternoon. The following week the Mahoning Valleys of Youngstown will be the attraction on Newell field. This will be the first game of the elmination contests.

Dance Plans Arranged.

Plans for the masquerade party and dance to be held Friday under the auspices of the employes of the Homer Laughlin China company were completed at a meeting of the committee held this week. The affair will be held in the Eagles' hall, East Liverpool.

Many at Lodge Meeting.

Large number of local members of the Odd Fellows lodge attended the open meeting last evening in East Liverpool, which was addressed by two high officials of the order. Lodge members were in attendance from all sections of the district.

Egypt Clears Sphinx Of Sand From Desert; New Tomb Discovered

CAIRO—The antiquities department of the Egyptian government has commenced the proposed refurbishing of the Sphinx, hte famous great solid-rock monument to the Egyptian sun god at Giza. In recent years the Sphinx has become covered with tons of sand blown from the adjacent deserts, and the authorities first task will be to clear this accumulation away.

The back of the Sphinx is said to be cracking, and the back will be strengthened as the sand is cleared. A new tomb was discovered during the work of clearing the sand, but the sarcophagus had been rifled.

Glad He Picked This Good Stomach Remedy

Puts Stomach in Fine Condition—Ends Dizzy Spells, Catarrh and Makes You Sleep Well.

Injudicious eating causes acute indigestion, gas, acidity, heaviness and sour stomach—sometimes the distended stomach causes that dreadful feeling of near suffocation.

Isn't it worth something to know of a remedy that will stop this distress in a few minutes—quicker than anything else you can think of.

This is no common stomach remedy for it took years of time to combine Pepsin with Menthol and the other effective agents that make Dare's Mentha Pepsin so good that the worst cases of indigestion and gastritis and other chronic stomach ailments are speedily overcome and the most badly deranged stomachs are made clean, strong and healthy.

Mr. Calvin Dilks of Alloway, N. J., a man of few words, knows this for he writes: "I entirely rid myself of an old catarrhal condition of the stomach with Dare's Mentha Pepsin."

No matter what your stomach trouble is get a bottle today at Jesse D. Holloway's or any druggist anywhere, with the distinct understanding that if it doesn't do you the world of good your money will be returned.

Allison Surrenders Franchise In American Basketball League

FAILURE OF FINANCIAL PLANS HITS PROPOSED PRO QUINTET FOR CITY

Local Cage Promoter Notifies President Joe Carr of His Inability to Obtain Playing Floor, Only Obstacle in the Way of the Ceramic City Entry; Franchise Will be Disposed of in Larger City.

East Liverpool's dream of a commanding place in the national basketball world, through affiliation with the proposed American Basketball league, has vanished into thin air.

Frank Allison, former Ceramic City professional court star, who attempted to promote the organization of another East Liverpool team, has given up his franchise in the American league because of inability, it is said, to finance the construction of a playing floor.

East Liverpool is definitely out of it. Allison has notified Joe Carr, of Columbus, president of the circuit, of his difficulties, and his inability to retain the franchise, and, as a result, East Liverpool's berth will go to one of the other cities seeking places in the loop.

Allison actually succeeded, after days of strenuous effort, in getting a franchise in the league. He had a team practically organized, and the city was placed on the league schedule before he realized that it would be almost impossible to get a floor.

"The financial backing that I figured on failed to hold up its end," Allison explained today.

Allison went after options on various sites in the business district and at one time contemplated the remodeling of a Dresden avenue structure.

TORONTO-STUB ELEVENS MERGE

Will Play Only Teams of National Pro League.

STEUBENVILLE, Oct. 22. Weekly losses sustained by both the Steubenville Pros and the Toronto Tigers have brought about the merging of the two slevens into a single professional team.

The team will be composed of the pick of the Steubenville and Toronto players and only teams in the National Professional league will be played, with games alternating at Kilgus Field, Toronto, and Northend Field, Steubenville. The first game, Sunday, is scheduled for Steubenville, and the Dayton Triangles will probably be the attraction.

It is planned to bring Dayton, Canton Bulldogs, Pottsville, Philadelphia Yellow Jackets, Akron and other league clubs to the north end an Toronto fields. At the close of the season the winner of the league race will be met on either the local or Kilgus Field. The game will take the place of the annual Steubenville-Toronto series.

Officials for all games will be named by pro league officials.

There will be 17 men on the squad, the players to be selected from the roster of the two teams. "Bill" Edgar, "Red" Siedelson, Sol Butler, Nick Colonna, Mundy, Genario, Romey and Comer of the Toronto team are to be retained and Fuccy, Pierre Hill, Frankhouser, McSwiggen and several others of the local club are to be on the squad.

The team will compare with any of the league clubs as it is, but the manageeent promises that one or two other big backfield stars are to be added next week.

Both teams have lost money this year. It was impossible to operate, each attraction taking fans from the other, and the result is a loss every week.

Signs Himself to Pilot Team

When the Chicago Cubs signed Joe McCarthy, successful manager of the Louisville American Association team, to pilot the Chicago outfit Owner William Knebelkamp of the Louisville team decided to boss his own team. So he'll play dual role of manager-owner next year.

HUDKINS LICKS JERSEY CHAMP

Outclasses Ballerino In 10-round Battle.

LOS ANGELES, Oct. 22.—Ace Hudkins, Nebraska lightweight, was listening today to the praises from all sides, following his 10-round victory here last night over Mike Ballerino, world's 130-pound champion.

Hudkins pasted the New Jersey champion fearfully and took every round of the encounter except the third, which was even. Ballerino's title was not at stake.

The champion weighed 130 and Hudkins 135.

The Nebraskan fought an almost perfect fight and boxed better than he has in any of his sensatinoal California bouts.

Hudkins had the champion on the floor twice, using a right cross in the seventh and tenth rounds to floor Ballerino for long counts.

So out-classed was the easterner that his showing was voted as miserable, although the fans gave him a hand for his gameness in absorbing plenty of punishment in every round.

The Nebraska star had Ballerino out on his feet most of the ninth and tenth rounds after hectic sessiosn in the seventh and eighth cantos. Hudkins was never seriously bothered by Ballerino's punches and after the sixth could have coasted into a win.

The bout was one of the fastest on record in Los Angeles with both boys swinging a volley of gloves every round.

Hudkins was given an ovation by 10,000 fans as he left the ring.

The Nebraskan has been tentatively carded in a bout with Mushy Callahan, Los Angeles; Tommy O'Brien, New York, and Sid Terris, New York lightweight star, in Los Angeles in the near future. Hudkins was said today to have demanded $15,000 for meeting Callahan and $10,000 each for his matches with O'Brien and Terris.

VIC HANSON NOMINATED FOR ALL-AMERICA TEAM

Syracuse Thinks it Has Certain Mythical Eleven Place Winner in Star End and Also Entertains Hopes of Finishing Season Without a Defeat; Departure of "Chick" Meehan Fails to Handicap New Yorkers.

This is the fourth of a series of articles by Davis J. Walsh on some of the leading football teams of the east and middle west.

By Davis J. Walsh.

SYRACUSE, N. Y., Oct. 22.—Up on the hill, which is local idiom for Syracuse University, they haven't had a man on the All-American team since 1919. Up on the hill they haven't finished a football season undefeated since the Mississippi river ran east and west. Up on the hill they think that it is more than possible that both of these annual futilities may be achieved.

With Vic Hanson playing end, they think it is far from a futility that Syracuse will be represented on the All-American team of 1925. With a real offensive in operation for the first time in a generation, Syracuse thinks it may have the only football team in Orange history to survive a season without defeat.

Hanson cannot miss, according to the local diagnosticians. Weighing 170 pounds, with the speed of a fawn and the instinct of a born football player, he seemed to be the ideal All-American end. They called him offside out in Indiana last week because the referee couldn't conceive of a man being so far beyond the play without beating the ball.

Hugo Bezdek, who is understood to have seen an occasional end in his time, says the young man is as good as anything he ever has seen.

Syracuse Has Attack.

In other words, the young man either is good or he has fooled a lot of important people.

As for the Syracuse football team, it has fooled plenty of wise money to date. It was thought that the departure of "Chick" Meehan and the consequent arrival of Reynolds would mean what is technically known as a bad rally for Syracuse football. The contrary has been the case.

For the first time in history, Syracuse has won two games in the first five minutes of play, it having been the custom here to arrive at the given point by degrees and with great circumspection. In brief, Syracuse has an attack.

"We beat Indiana by two touchdowns; Michigan beat them some 60 points," Reynolds pointed out. "Yet you cannot compare the two results. Michigan gained only three first downs through the line. They simply forward passed the Indiana combination to death. When we met them, they had acquired an adequate defense against the pass.

"From my remarks, you may have gained the impression that I think we have a terrible football team. You are quite right. We have a good football team."

Reserves Look Good.

Mr. Reynolds is not so far wrong, at that. In the first place, he has Hanson, who does everything an end should do and several things a tackle misses. He lost two fine tackles in Starobin and Waldorf, but his reply was to produce Bayley and Lee, the former something of a veteran, the latter something of a pleasant surprise. Taylor, Van Lengen, Archoska and Richtmeyer have proved adequate second string material.

So have Mendell, Rourke and Mooney at the wings.

Siggs, 1924 letter man, is one of the guards. Levy is the other, or at least will be when he gets back into the game, which will be soon if not immediately. Levy is supposed to be the best forward in the local squad.

The centers are Friedman, regular, and Wittman, alternate, veterans bith. The quarterback is Captain Foley, the best ball runner in the outfit, with Cooke in reserve, which is often. Carr, Clarke, Hansen, Meister, Flanagan and Mann are the halfbacks, with Barbuti at fullback.

That is the personnel of the team that has won all of its games to date. It still has to take on Penn State, Columbia and Colgate. Can it go on and do what no other Syracuse team has been able to accomplish? Can an irresistible force destroy an immovable body? You answer one question by asking another.

OHIO-IOWA TOP BIG TEN CARD

Clash Brings Together Unbeaten Title Aspirants.

By Jack Cejnar.

COLUMBUS, Oct. 22. — Like the well known frogs in the milk can six Big Ten conference elevens will next Saturday churn up matters with each other in an effort to determine which will keep from being submerged when the 1925 kicking is done. Four others will get exercise outside the cream of the conference.

This week's games will have considerable bearing on the title race. Such unbeaten contenders as Iowa, Purdue and Ohio State may be eliminated.

Saturday will present the following conference card:

Iowa vs. Ohio State at Columbus.

Michigan vs. Illinois at Urbana.

Purdue vs. Wisconsin at Madison.

Outside the conference two other teams will engage in inter-sectional contests. One will entertain Notre Dame, and the fourth will have a practice game in preparation for a conference tussle next week as follows:

Chicago vs. University of Pennsylvania at Philadelphia.

Northwestern vs. Tulane at Chicago.

Minnesota vs. Notre Dame at Minneapolis.

Indiana vs. Miami at Bloomington.

The outstanding conference game, expected to be quite as spectacular as the interesting Illinois-Michigan contest, will be the struggle at Columbus between Iowa and Ohio State. This battle will bring together two of the most powerful, unbeaten championship aspirants, one of them the conqueror of Illinois.

In the other conference game of importance, Illinois, with the meteoric "Red" Grange, will try to stage a comeback after losing two of its three starts this season, by stopping and perchance downing Michigan. It was against the Wolverines last year that Red Grange sprang into undying gridiron fame and the Wheaton flash is all primed to repeat Saturday.

Wisconsin, decisively beaten last week by Michigan, will play Purdue, regarded as a weak sister. It will be Purdue's first conference game.

By a strange coincidence, the meeting Saturday of Iowa and Ohio State will pit Hawkeye stars against Hawkeye stars. In the Buckeye lineup will be two young Iowans upon whom the spotlight of the football game has been playing—Elmer Marek, halfback, and Leo Uridil, tackle, both of whom hail from Cedar Rapids, Iowa.

Marek, who since early in the season, has been proclaimed the outstanding 1925 Ohio State star, will oppose Nick Kutsch, the Hawkeye ace, and leading scorer in the Big Ten conference.

Buckeye fans are looking forward with greatest interest to comparing Marek and Kutsch as they will measure Marek and Grange here on Nov. 21.

Victories Saturday for Iowa and Michigan would muddle up the conference race, as the Hawkeyes and Wolverines do not meet. If both win their remaining games, they will be tied for the title.

If Ohio State comes out the winner Saturday, the conference title may depend on the Ohio State-Michigan game in Ann Arbor, Nov. 14.

GOLDSTEIN MEETS CHUCK HELLMAN

SAN FRANCISCO, Oct. 22. — Abe Goldstein of New York, former bantamweight champion of the world, squares off here tonight with "Chuck" Hellman, of Portland, for a ten round main event at the State Armory on Mission street.

Goldstein lost his title recently to Eddie "Cannon Ball" Martin, the Brooklyn Italian. In Hellman, Goldstein is believed by those in the know to be tackling a fairly tough customer. Hellman has fought many of the best fighters in his class on the coast.

OHIO PREPARES FOR WESLEYAN

ATHENS, O., Oct. 22—A four-hour practice session was held by Coach Don Peden today in preparing the Ohio University eleven for its Homecoming Day contest here Saturday with Ohio Wesleyan. Much of the time was spent in scrimmage, during which the freshmen team assumed the offensive, using the Wesleyan style of attack.

The Ohio team probably will have its full strength this week for the first time since the opening contest with Rio Grande. Several men are ailing, but all are expected to be in shape to enter the fray against the Methodists. Gamber, fullback, has been out for three weeks due to an injury to his knee. He still limps but the injury appears to be mending daily. Wise, Gardner and Duncan are the others who are not in best condition, but all are being counted on to take their places in the lineup.

China's first passenger bus was an American car placed in operation in Peking eight years ago; today the city has 70 active lines.

HARD LUCK HITS WOOSTER SQUAD

WOOSTER, O., Oct. 22.—Old Man Hard Luck seems still on the trail of Coach L. C. Boles and his Wooster football team. With this week's game here at Mount Union, as hard a home battle as is on the schedule, Boles will be without the services of his star dropkicker, "Pete" Blough, the flashy halfback. He was the only one injured in Wooster's 7 to 6 victory over Reserve last week.

Siskowic is still being kept out of scrimmage but will be ready by the end of the week. However there is no telling how long he will be able to stand the rough work. Weihe, halfback injured in the opening game with Ashland, is still nursing his injuries and will not be ready for the Mount game.

This will be the ninth game between Wooster and Mount Union since Boles took charge of football here. Last year the game ended in a scoreless tie and all of the other games were Wooster victories.

This season Mount's showing to date is more impressive than Wooster's and fear is expressed here that Wooster will have to show more football than has been the case to date to keep the slate clean.

MUST SCORE MORE THAN ONCE TO WIN

MORGANTOWN, W. Va., Oct. 22.—Members of the West Virginia eleven which is to meet the veteran West Virginia Wesleyan college team in the stadium here Saturday afternoon at 2:30 o'clock are convinced that they will have to score more than one touchdown to beat the Methodists. They will go into the game feeling that it will take more than secen points to win, and from the opening kickoff to the final blast of the whistle the Mountaineer objective will be the score as many points as possible to offset registering likely to be done by the husky crowd of athletes from Buckhannon.

BEAT GENEVA, IS BISONS' SLOGAN

BETHANY, W. Va., Oct. 22.—"Beat Geneva" is the slogan that has been broadcasted from the Bethany college football headquarters, and with that determination the Bisons will enter Saturday's battle, which will give the Bison football machine a real test. Placarded all over the little college town, painted on the sidewalks and written on the walls of the building is this slogan, and it has also been written upon the minds and hearts of the Bethany students and alumni body who will witness the contest. "Beat Geneva" is the Bison battle cry.

Built for Rough Roads
Better BUICK Closed Cars

Extra sturdiness is an outstanding feature of Buick motor cars. Buick closed cars demonstrate this most strikingly in cross-country travel.

Town or country, good roads or bad, it's all the same to a Buick. You can go anywhere any car can go and do it much easier because of the famous, 75 horsepower, Buick Valve-in-Head engine.

You can travel long distances in more comfort because of the deep, wide, luxurious seats, the extra head and leg room, and full cantilever rear springs. And Buick's ball bearing, worm and nut steering mechanism removes all driving strain. This is the most efficient and most expensive steering gear so far perfected.

Better Buick closed models are now on display. Your attention is particularly directed to the 4-door and 2-door Fisher Body Sedans at "Coach" prices!

Striking Facts About London Contained in Book on Statistics

LONDON, Oct. 20.—Striking facts about London and its inhabitants are contained in a book on London statistics issued by the London County Council.

It is revealed that a life is born every three minutes of every twenty-four hours in the county of London, but of the babies more than 10,000 die each year before they are twelve months old.

Other interesting facts shown are: Marriages in London exceed 39,000 in a year. Of the bridegrooms, 500 are widowers. Most London men marry between the ages of twenty-five and thirty, while most London girls marry before they are twenty-five. There are 5,593 dringing saloons in London, or one for every eight hundred inhabitants. The length of London streets is 2,210 miles.

St. Paul Feather Wins.

OAKLAND, Cal., Oct. 22.—Stewart McLean, St. Paul featherweight, technically knocked out Mike Siegel of Oakland in the seventh round of their scheduled ten round bout here last night. Siegel was on the floor at the end, his seconds tossing up the sponge to save him further punishment although he was attempting to rise. The fight was fast throughout.

The Story Of A Girl Who Dared

By Elsie Dee Morris

CHAPTER 75.

Comfortable in a great leather chair in the library, but bored and yawning, Amoura Ainsley tried to get interested in a new novel by Michael McArlen.

Her mother came in, drawing on her gloves.

"Amoura, dear, I wish you would drive me down town," she said. "James took your father to the office and hasn't returned, so I suppose Reginald has him running errands. Your father is very annoying in that respect some times. It never occurs to him that we might have something for James to do."

Glad to have something to do, Amoura skipped out for her wraps.

These two had been drawn together in the last few days. Mrs. J. Reginald Ainsley was rediscovering her child, and Amoura was rediscovering her mother.

"I want to go down to wherever it is that Tillie, the laundress, lives." Mrs. Stone placed a filled basket in the car. "It's in Stone street, and I suppose somebody down there can show us the house."

Amoura looked askance at her mother.

"She's sick, her little girl says. Tillie sent up Monday to ask if I would let her have five dollars. I sent her ten, poor thing. She works herself nearly to death. Della says she supports a worthless husband and five or six children over the wash-tub."

They found Tillie's wretched dwelling with no great difficulty. Shopmen in Stone street, awed by the big machine and the initials it bore, supplied the necessary directions eagerly. Most everybody in Stone street knew Sam Craigley, who got drunk every Saturday night on bootleg whisky and beat up his wife, Tillie. Sam hadn't worked for years and the only money he ever got on Saturday was what he wheedled or took by force, from his wife, but he celebrated Saturday night with all the gusto of a toiler easing up after six days of labor in the steel mill.

An acrid odor of cloth seared by the iron; of dirty water allowed to stand in little puddles in the sideyard; of grease and coffee grounds; of unattended children; greeted their sensitive nostrils when Amoura and her mother ventured into Tillie's house in the face of a troop of wide-eyed kids. A woman worn out by toil, prematurely gray, teeth gone, eyes milky, was lying in a rickety bed amid sheets and blankets that were, however, noticeably clean.

Mrs. J. Reginald Ainsley, stately matron, took off her coat and gloves, bathed her laundress; threw open the windows and aired the house; fed the children; induced a neighbor woman to come in and clean the bedroom. Amoura, marveling at her mother's energy, helped clumsily.

"Now, Tillie, if there's anything you need, don't hesitate to call on me. And don't try to work any more for at least a week. You need the rest."

Tillie, with all the gratitude she could summon, looked up at Mrs. Ainsley, thanked her, confused.

"You were simply splendid, mother," Amoura enthused, after they had left the house, and were driving away, the subject of the stares of the neighborhood.

Mrs. J. Reginald Ainsley's visage did not indicate her feelings. She's a human being, and we treat our horses and dogs better," she said, simply.

"Mother, it's a disgrace to Westland that there are people living in such a wretched state right at the backdoors of Main street."

"There are poor everywhere, Amoura," her mother said, sagely.

"Yes, I know, but even poor people do not have to live like animals in a burrow. The sight of Tillie's house made me ill. Such people could be taught cleanliness, and ——." Her face brightened. "O, I know what I want to do, mother!"

The intensity of her exclamation caused Mrs. Ainsley to stare at her.

"I've been trying to decide what to do. I'm going to stay here in Westland and help these people. I can teach them how ——."

"There ARE charitable organizations, Amoura. The Associated Charities, the Welfare League ——."

"Yes, CHARITY. Charity doesn't do these people any good. They need to be taught to help themselves." An evangelical glow was in her eyes. She speeded up the car, anxious to get home and think over her project.

Della greeted her with a special delivery letter. It was from Tommy Loughley.

ARMISTICE DAY OBSERVANCE PLANNED

TODAY

Z. G. Simmons Explains It.

Russia Is Thinking.

No Saloons, Much Gold.

By ARTHUR BRISBANE

(The opinions expressed in this column are strictly those of Mr. Brisbane and not necessarily in consonance with the policies of The Review-Tribune).

(Copyright, 1925, by the Star Co.)

Another "2,000,000 share day" in Wall Street. Somebody decided to sell and somebody was ready to buy 2,078,500 shares of stock. Those with their noses to the financial grandstone, which is the ticker, are disturbed and puzzled. A fly crawling over a big battleship painting doesn't see the battle. He is too close.

If men whose business is finance could stand back from the ticker and look over the country, they wouldn't be worried about what they call a "frenzied boom."

Z. G. Simmons, who sells goods to hundreds of thousands of American families every year and knows conditions, said yesterday:

"None of us realize what it means to this country that the average man is earning twice what he earned a little while ago, $5 or $6 a day for a 'handy man;' all the way up to $20 a day for skilled mechanics. The people are spending, but they are not extravagant. Look at the billions pouring into life insurance and savings banks."

Don't gamble, proceed carefully in everything; but don't sell the United States, or stocks representing its real value short.

Mention Russia and respectable high finance shudders. Utter that dread word "Bolshevism;" the same high power pulls the bed covers up over its head. Yet somebody in Russia seems to be thinking along constructive lines. Soviet agents are buying $25,000 worth of high grade rams in the United States, to improve the grade of Russian sheep.

The soviet government is spending $35,000,000 improving the national telephone system, even installing automatic systems in Moscow and Rostov. It took us a long while to get to the automatic telephone.

Development of telephones is the test of civilization, of which one great task is to bring the human race closer together.

Russian women also show intelligence fighting an attempt to reduce the marriage age for girls below 16, declaring that a girl at 16 is "only a baby.' She is more than that but it is foolish to let her marry younger than 16. The right law would be no marriage under 20.

The mother gives to the child health, strength, plus moral character, and many other good qualities She should wait until strength and health are fully developed.

A man contributes to the child character and intelligence, if he has any. He should wait until both are fully developed, say until 30 among the mentally poorer sort, 50—as Plato suggested—among the really intelligent.

TWO MINUTES OF SILENCE AT TRUCE HOUR ON NOVEMBER 11

Churches, Schools and Business Houses Arrange Programs.

HOMAGE TO DEAD

Factory Whistles and Church Bells Will Give Signal.

A two-minute period of silence in memory of those who made the supreme sacrifice during the World War, will be observed in the downtown stores and the public and parochial schools at 11 o'clock Wednesday morning, November 11, Armistice day.

This is the proposal made by the Retail Merchants' division of the Chamber of Commerce in a bulletin issued to the membership today. In this manner, it is pointed out, the day will be observed in a more appropriate manner than it would be if the stores were closed for the day or a part of the day.

Uniform Decorations.

Superintendent of Schools C. S. McVay has endorsed the plan for the observance in the public schools, while the same program will be followed in the parochial school. For five minutes preceding 11 o'clock, the teachers will be asked to discuss the meaning of Armistice day.

Church bells will ring and factory whistles and fire department sirens will be blown during the period of homage to the dead. A committee from the merchants' division has been named to seek the co-operation of the factory owners and church pastors.

Merchants' Bulletin.

The downtown district will be decorated in the national colors during the day. The merchants have been

Sebring Merchant Is Asphyxiated by Gas From Stove

James Connors, 66, formerly a pottery worker, proprietor of a small confectionery and pop-corn establishment which adjoins the Sebring hotel, at Sebring, is dead today, a victim of asphyxiation by gas escaping from a small heating stove.

Connors' body was found on a small cot behind the counter of his establishment by Scott Robertson, a personal friend.

Klan Establishes Its Headquarters In Washington, D. C.

WASHINGTON, Oct. 22.—Grand headquarters for the Ku Klux Klan have been finally established in the capital, a few blocks from the White House, it was learned today.

The klan has leased the upper floors of the reconverted mansion at Seventeenth and I streets, formerly occupied by the late Senator Frank B. Brandagee, of Connecticut, who committed suicide there.

The leasing of the building for a long term of years was taken as indicating the abandonment of the Klan plan to construct an imposing national home in the capital.

KIWANIS URGES PEACE IN HIGH GRID DISPUTE

Club Names Committee to Act in Intercity Rupture.

MURPHY SPEAKS

Congressman is Guest of Honor at Noon Luncheon.

Congressman Frank B. Murphy of Steubenville was honor guest at today's luncheon meeting of the Kiwanis club in Larkins annex, delivering an address on the operation of the governments budget system which he pointed out, has saved millions of dollars for the country's taxpayers.

President George Lewis was in charge of the meeting. The attendance prize, a pair of gloves given by Frank Swaney, was won by Charles Pilgrim.

Steps were taken by the club to open negotiations for the resumption of athletic relations between East Liverpool and Wellsville high schools, which were severed almost three years ago prior to the annual Thanksgiving day grid classic.

In response to a suggestion by President Lewis, C. C. Cline, who was president of the City Industrial baseball league during the last season, and an euthusiastic sports devotee, asserted that in his opinion there must be some way to bring the two schools together and to iron out the

MOTOR TOURIST IS FOUND DEAD

ST. CLAIRSVILLE, O., Oct. 22.—Alonzo W. Loomis, 62, of Ithaca, Mich., was found dead in a tourist camp on the National road near here today. The body was found by his wife, Mrs. Malina Loomis. The couple was en route from Florida to their Michigan home. Mr. Loomis died from apoplexy while sleeping in his car during the night, according to a physician.

Irene Castle McLaughlin Resting.

CHICAGO, Oct. 22.—Mrs. Irene Castle McLaughlin, who has been confined to a hospital here since Tuesday morning, will not have to undergo an operation, it was stated today. The former dancer, through her nurse, stated she was merely confined to the hospital for a complete rest.

SCHOOL PUPILS TO COMPETE IN ESSAY CONTEST ON FORESTRY

Congressman Davey Offers $4,000 Scholarship as Prize.

PLAN OUTLINED

Mrs. W. F. Lones is Named Chairman in County.

High school students in East Liverpool, Wellsville, Salem, Lisbon, East Palestine and other county towns today were invited to participate in the essay-writing contest, dealing with the subject of forest conservation, winner of which will be awarded a $4,000 scholarship in some Ohio college or university.

Mrs. W. F. Lones, 411 Tenth street, Wellsville, has been named county chairman of the contest, which is to be conducted by the Ohio Federation of Women's clubs. Mrs. Lones, who is a member of the East Liverpool Federation of Women's Clubs, will receive the contestants' essays and forward them to the judges.

The scholarship is being offered by Congressman Martin L. Davey, of Kent. The essay will deal with some phase of the forest conservation movement, including either the conservation of the existing supply or the reforestation of denuded lands, or both.

Purpose of Campaign.

According to instructions which have been received by Mrs. Lones, the contest is open to any high school student, who is enrolled this year, or who graduated last year. The scholarship will be paid at the rate of $1,000 per year for four years at some Ohio institution.

"The whole purpose of the donor, Congressman Davey, and the Ohio Federation of Women's Clubs in offering the scholarship,' says a statement outlining the campaign, "is to stimulate the thoughtful interest of the people of Ohio in this subject of fundamental and far-reaching importance. Ohio has been so backward and so negligent in the matter of conserving and building up her forest wealth and in permitting the terrible effects of forest devestation that we must give immediate and serious conservation to its bearing on our forest prosperity and security and banpiness."

Rules for Contest.

Rules, information and suggestions concerning the contest are as follows:

"First—This contest is open to any regular high school student in Ohio, including senior classes that graduated in the spring of 1925 and freshman classes of the fall of 1925.

"Second—The award will be $4,000 representing $1,000 per year for four

MOYER-WASBY SUIT SETTLED

Begin Rebuilding of Fire-Swept Fifth Street Structure.

Rebuilding of the Mrs. May Wasby business block, East Fifth street, destroyed by fire February 22, last, was started by the Potters' Lumber company today, after settlement of the injunction proceedings filed by Moyer Brothers, former occupants, to halt the erection of a one-story structure on the site.

The new building will be brick in construction, but will not be fireproof, such as the neighboring Milligan and Thompson structures, also in course of construction. Two of three firms are said to be seeking a lease of the building.

Under the terms of the pact between Moyer Brothers and Mrs. Wasby the former has agreed to withdraw the injunction action now in the court of appeals. A cash settlement was made by which the dry goods firm surrendered all claims to their lease.

The agreement was made between

Taxi Drivers do As They Are Told In Bath, England

BATH, England, Oct. 22.—Bath taxi drivers do as they are told.

Miss Knowles hired a taxi to drive her home. She said the fare was excessive, but paid all but four cents of the sum the driver demanded.

"Sue for the rest," said Miss Knowles as she left the driver. He did. He won, despite the fact that Miss Knowles told the court that she had changed her mind and sent the driver four cents' worth of stamps.

ELKS OUTLINE PLANS TO SAVE 'OLD IRONSIDES'

Appeal for Funds Will be Made in Schools.

SPEAKERS NAMED

Seek Pennies to Recondition Famous Frigate.

The East Liverpool lodge No. 358, B. P. O. Elks, will launch a campaign among the public and parochial school children here next week to raise funds to recondition the frigate Constitution, familiarly known as "Old Ironsides." Exalted Ruler Ralph C. Benedum announced today.

Speakers representing the lodge will visit the various school buildings Monday to outline plans for the canvass, while contributions ranging from 1 to 10 cents will be sought on Friday, October 23.

A picture of "Old Ironsides" will be furnished each school room, while each contributor will be given a lapel button on which is a painting of the historic ship.

Prizes for Essay Written.

Frank Campbell, W. H. Robinson and Rev. W. H. Clark will be in charge of arrangements for the East Liverpool campaign.

Collections will be made by the teachers, who, in turn, will report the funds to the school principals.

The Constitution now lies at the Charlestown navy yard, at Boston, in bad condition. Congress authorized the rebuilding of the ship and directed the secretary of the navy to solicit funds to defray the cost. Mr. Wilbur decided to appeal for the money to the school children.

President Coolidge has shown his interest in the campaign by naming the topics of essays to be written by grammar school and college students of the United States, for which prizes will be awarded in the form of bronze, silver and gold medals.

Congress has placed a limitation of $500,000 on the amount to be raised.

MASONS HONOR LUTHER BURBANK

WASHINGTON, Oct. 22.—Luther Burbank, of Santa Rosa, Cal., famous naturalist, has been awarded the 33rd degree of Scottish Rite Free Masonry, it was announced today by the supreme council, southern jurisdiction, in session here.

Burbank's award was for "beneficent labors in behalf of humanity."

ATHENS SOLDIERS PUSH INTO BULGARIA; TOWN OF PETRICH SHELLED

Sofia Dispatches, Quoting Semi-official Statements, Charge That Hellenes Have Attacked Border Sentinels, Killing Five, and Have Occupied Three Posts in Neighboring Territory.

INVADERS PLAN TO SEIZE CITY TO ENFORCE INDEMNITY DEMANDS

Hostilities are Launched in Keeping With Ultimatum Against Bulgarian Aggressions and Call for Apology for Alleged Enemy Attack Upon Greek Outposts Along Frontier.

By HARRY R. FLORY.

LONDON, Oct. 22.—Greek troops have begun war operations against Bulgaria, according to dispatches from Sofia today quoting semi-official statements.

The semi-official Sofia statement charges that a detachment of Greeks supported by artillery, has advanced into Bulgarian territory and shelled the Bulgarian town of Petrich.

The statement further charges that the Greeks have attacked Bulgarian sentinels, killing five, and occupying three Bulgarian posts.

Petrich, which Sofia claims has been shelled, is understood to have been scheduled for occupation by the Greeks. It has long been a center of Macedonian activities.

According to word from Athens, the Bulgars today continued to occupy part of the Greek line in the region of Demirhissar.

Cross Border at Dawn.

ATHENS, Oct. 22.—Greek troops crossed the Bulgarian border at dawn, carrying out the Greek decision to occupy the Bulgarian town of Petrich, it was announced here today.

The government announces that the occupation of Petrich has been decided upon in order to prevent further Bulgarian aggressions and to insure the complete fulfillment of the Greek demands for 2,000,000 francs indemnity and an apology for the alleged Bulgarian attack upon Greek outposts.

Another Test of League.

LONDON, Oct. 22.—That the Graeco-Bulgarian crisis will furnish another test of the League of Nations appeared certain today with reports from Sofia that the Bulgarian cabinet would protest to the league against the Greek invasion of Bulgarian territory and would ask permission to mobilize troops in defense of its borders.

As these reports were received from the Bulgarian capital, by way of Vienna, it was learned from Athens that the proposed advance and occupation of Petrich as a guarantee of payment of indemnities would be made today.

The trouble originated in the Demirhissar region, where bad blood has existed for three months because of the killing of a Greek citizen at Stanimaka. Bulgarian irregulars were reported to have fired over the border at Greek patrols and a night-long fight followed.

Illegal to Shoot Wild Geese in Ohio At Night, Warning

COLUMBUS, Oct. 22.—Warning that it is illegal to shoot wild geese and ducks in Ohio between sunset and sunrise and that vigorous prosecution will be meted out to the guilty persons was issued here today by D. O. Thompson, chief of the state fish and game division.

Thompson's warning was prompted by reports from various sections of the state that hunters shot down large numbers of wild ducks and geese Wednesday night.

Review-Tribune Ads Find Beaded Bag and Currency

The honesty of two persons, combined with the efficacy of Review-Tribune advertising, restored lost articles in two instances during the last few days.

The manager of the Holland Furnace company, 719 Dresden avenue, lost a bill-fold, containing $60, on Saturday night. It was found by Raymond Young, of Third street, a St. Aloysius parochial schcol pupil, as he was on his way to school Monday and promptly returned to the owner who paid a reward.

An employe of the Ceramic theater found a beaded bag, containing a small purse and vanity case, which was lost Monday evening. It was returned to the owner, who resides at 726 Bradshaw avenue.

Both finders read of the lost articles in the Review-Tribune classified columns, once more proving the truth of the axiom, "It pays to advertise."

BOWDLER TRIAL IS POSTPONED

Federal Case Will Not be Heard During October Term.

Trial of A. E. Bowdler, former East Liverpool attorney, and ten other business associates who were interested in the defunct Real Estate Guaranty Mortgage company and the Belmont Securities company of Wheeling, W. Va., and Bellaire, Ohio, respectively, facing federal court indictments, will not be heard during the October term of the U. S. court, now in session in Wheeling.

An important witness for the government is now at work in the west and cannot return to Wheeling to testify. This witness, it is said, audited the accounts of the two companies after the crash.

The indictments against Bowdler and Gordon D. Ulyatt, officers, and nine other business men of the Wheeling district who were either members of the board of directors or were employed by the two insolvent companies, are mostly for using the mails to defraud. Twelve indictments were returned by the federal court while charges of a similar nature are pending in the courts of Ohio, Marshall and Brooke counties, West Virginia.

A Free Booklet On Yellowstone Park For School Children

Every school child should have a copy of the Yellowstone booklet which our Washington Bureau offers for free distribution. This offering will be helpful in the study of this great national park.

Of all our national parks it is the wildest and most universal in its appeal.

It has more geysers than all the rest of the world together. It has mud volcanoes, petrified forests, a canyon unequaled for natural coloring, blue lakes and rivers filled with trout, and the greatest wild bird and animal preserve in existence.

Send today for this beautifully illustrated booklet telling all about Yellowstone. Fill out the coupon below and send two cents in stamps for return postage.

POTTERY EMPLOYES WILL ENROLL MONDAY IN SCHOOL OF CERAMICS

Board of Education Prepares to Organize Night School Classes for Adults Interested in City's Chief Industry.

Enrollment for the proposed night school in ceramics, which will be offered "employed adults' in East Liverpool this year under the direction of the board of education and the state board of vocational education, will take place in the high school building on Monday evening.

The class will be open to all persons, who are employed in the local ceramic industry during the day. Special registration cards have been printed to facilitate the enrollment. No registration fee is to be charged.

E. L. Heusch, supreviser for state board of vocational education, division of trades and industries, has been asked to be present on registration night to explain the proposed course. Prof. Kenneth Smith, ceramics teacher in the high school, who will be in charge of the class, will supervise the registration.

The ceramics classes will meet two evenings a week. The number of classes will depend entirely upon the enrollment. Each class must have not less than 15 students, although 25 students can be taken care of.

There will be two terms, each of 12

RADIO WILL BE CLASSED AS PUBLIC UTILITY IF CONGRESS HEEDS HINT

Secretary of Commerce Hoover Will Recommend Federal Regulation as Means of Better Broadcasting Service.

WASHINGTON, Oct. 22.—Radio officials will be placed in the classification of a public utility next year, if recommendations of the department of commerce are followed by the 69th congress, officials declared today.

Preparation of a new general foundation for the new radio bill is being completed by Secretary of Commerce Hoover, who will explain his program at the National Radio conference opening here November 9.

The entire radio industry, department officials said, agrees that there must be federal regulation if broadcasting is to survive with any degree of service to the public.

"Without regulation we should have complete chaos in the air," Hoover said, "and as every word by radio is an interstate performance we cannot avoid federal legislation."

So many stations are operatong on a number of important wave lengths that where the listener on a selective set formerly "pulled in" his favorite station, all he gets now is a wild uncanny wail. Some of the best broadcasting stations in the country are blotted out by this interference, ac-

ARMISTICE DAY OBSERVANCE PLANNED

TODAY

Z. G. Simmons Explains It.

Russia Is Thinking.

No Saloons, Much Gold.

By ARTHUR BRISBANE

(The opinions expressed in this column are strictly those of Mr. Brisbane and not necessarily in consonance with the policies of The Review-Tribune).

(Copyright, 1925, by the Star Co.)

Another "2,000,000 share day" in Wall Street. Somebody decided to sell and somebody was ready to buy 2,078,500 shares of stock. Those with their noses to the financial grandstone, which is the ticker, are disturbed and puzzled. A fly crawling over a big battleship painting doesn't see the battle. He is too close.

If men whose business is finance could stand back from the ticker and look over the country, they wouldn't be worried about what they call a "frenzied boom."

Z. G. Simmons, who sells goods to hundreds of thousands of American families every year and knows conditions, said yesterday:

"None of us realize what it means to this country that the average man is earning twice what he earned a little while ago, $5 or $6 a day for a 'handy man;' all the way up to $20 a day for skilled mechanics. The people are spending, but they are not extravagant. Look at the billions pouring into life insurance and savings banks."

Don't gamble, proceed carefully in everything; but don't sell the United States, or stocks representing its real value short.

Mention Russia and respectable high finance shudders. Utter that dread word "Bolshevism;" the same high power pulls the bed covers up over its head. Yet somebody in Russia seems to be thinking along constructive lines. Soviet agents are buying $25,000 worth of high grade rams in the United States, to improve the grade of Russian sheep.

The soviet government is spending $35,000,000 improving the national telephone system, even installing automatic systems in Moscow and Rostov. It took us a long while to get to the automatic telephone.

Development of telephones is the test of civilization, of which one great task is to bring the human race closer together.

Russian women also show intelligence fighting an attempt to reduce the marriage age for girls below 16, declaring that a girl at 16 is "only a baby.' She is more than that but it is foolish to let her marry younger than 16. The right law would be no marriage under 20.

The mother gives to the child health, strength, plus moral character, and many other good qualities She should wait until strength and health are fully developed.

A man contributes to the child-character and intelligence, if he has any. He should wait until both are fully developed, say until 30 among the mentally poorer sort, 50—as Plato suggested—among the really intelligent.

TWO MINUTES OF SILENCE AT TRUCE HOUR ON NOVEMBER 11

Churches, Schools and Business Houses Arrange Programs.

HOMAGE TO DEAD

Factory Whistles and Church Bells Will Give Signal.

A two-minute period of silence in memory of those who made the supreme sacrifice during the World War, will be observed in the downtown stores and the public and parochial schools at 11 o'clock Wednesday morning, November 11, Armistice day.

This is the proposal made by the Retail Merchants' division of the Chamber of Commerce in a bulletin issued to the membership today. In this manner, it is pointed out, the day will be observed in a more appropriate manner than it would be if the stores were closed for the day or a part of the day.

Uniform Decorations.

Superintendent of Schools C. S. McVay has endorsed the plan for the observance in the public schools, while the same program will be followed in the parochial school. For five minutes preceding 11 o'clock, the teachers will be asked to discuss the meaning of Armistice day.

Church bells will ring and factory whistles and fire department sirens will be blown during the period of homage to the dead. A committee from the merchants' division has been named to seek the co-operation of the factory owners and church pastors.

Merchants' Bulletin.

The downtown district will be decorated in the national colors during the day. The merchants have been

A Free Booklet On Yellowstone Park For School Children

Every school child should have a copy of the Yellowstone booklet which our Washington Bureau offers for free distribution. This offering will be helpful in the study of this great national park.

Of all our national parks it is the wildest and most universal in its appeal.

It has more geysers than all the rest of the world together. It has mud volcanoes, petrified forests, a canyon unequaled for natural coloring, blue lakes and rivers filled with trout, and the greatest wild bird and animal preserve in existence.

Send today for this beautifully illustrated booklet telling all about Yellowstone. Fill out the coupon below and send two cents in stamps for return postage.

Klan Establishes Its Headquarters In Washington, D. C.

WASHINGTON, Oct. 22.—Grand headquarters for the Ku Klux Klan have been finally established in the capital, a few blocks from the White House, it was learned today.

The klan has leased the upper floors of the reconverted mansion at Seventeenth and I streets, formerly occupied by the late Senator Frank B. Brandagee, of Connecticut, who committed suicide there.

The leasing of the building for a long term of years was taken as indicating the abandonment of the Klan plan to construct an imposing national home in the capital.

KIWANIS URGES PEACE IN HIGH GRID DISPUTE

Club Names Committee to Act in Inter-city Rupture.

MURPHY SPEAKS

Congressman is Guest of Honor at Noon Luncheon.

Congressman Frank B. Murphy of Steubenville was honor guest at today's luncheon meeting of the Kiwanis club in Larkins annex, delivering an address on the operation of the government budget system which he pointed out, has saved millions of dollars for the country's taxpayers.

President George Lewis was in charge of the meeting. The attendance prize, a pair of gloves given by Frank Swaney, was won by Charles Pilgrim.

Steps were taken by the club to open negotiations for the resumption of athletic relations between East Liverpool and Wellsville high schools, which were severed almost three years ago prior to the annual Thanksgiving day grid classic.

In response to a suggestion by President Lewis, C. C. Cline, who was president of the City Industrial baseball league during the season, and an euthusiastic sports devotee, asserted that in his opinion there must be some way to bring the two schools together and to iron out the

SCHOOL PUPILS TO COMPETE IN ESSAY CONTEST ON FORESTRY

Congressman Davey Offers $4,000 Scholarship as Prize.

PLAN OUTLINED

Mrs. W. F. Lones is Named Chairman in County.

High school students in East Liverpool, Wellsville, Salem, Lisbon, East Palestine and other county towns today were invited to participate in the essay-writing contest, dealing with the subject of forest conservation, winner of which will be awarded a $4,000 scholarship in some Ohio college or university.

Mrs. W. F. Lones, 411 Tenth street, Wellsville, has been named county chairman of the contest, which is to be conducted by the Ohio Federation of Women's clubs. Mrs. Lones, who is a member of the East Liverpool Federation of Women's Clubs, will receive the contestants' essays and forward them to the judges.

The scholarship is being offered by Congressman Martin L. Davey, of Kent. The essay will deal with some phase of the forest conservation movement, including either the conservation of the existing supply or the reforestation of denuded lands, or both.

Purpose of Campaign.

According to instructions which have been received by Mrs. Lones, the contest is open to any high school student, who is enrolled this year, or who graduated last year. The scholarship will be paid at the rate of $1,000 per year for four years at some Ohio institution.

"The whole purpose of the donor, Congressman Davey, and the Ohio Federation of Women's Clubs in offering the scholarship,' says a statement outlining the campaign, "is to stimulate the thoughtful interest of the people of Ohio in this subject of fundamental and far-reaching importance. Ohio has been so backward and so negligent in the matter of conserving and building up her forest wealth and in permitting the terrible effects of forest devestation that we must give immediate and serious conservation to its bearing on our forest prosperity and security and happiness."

Rules for Contest.

Rules, information and suggestions concerning the contest are as follows:

"First—This contest is open to any regular high school student in Ohio, including senior classes that graduated in the spring of 1925 and freshman classes of the fall of 1925.

"Second—The award will be $4,000 representing $1,000 per year for four

MOYER-WASBY SUIT SETTLED

Begin Rebuilding of Fire-Swept Fifth Street Structure.

Rebuilding of the Mrs. May Wasby business block, East Fifth street, destroyed by fire February 22, last, was started by the Potters' Lumber company today, after settlement of the injunction proceedings filed by Moyer Brothers, former occupants, to halt the erection of a one-story structure on the site.

The new building will be brick in construction, but will not be fireproof, such as the neighboring Milligan and Thompson structures, also in course of construction. Two of three firms are said to be seeking a lease of the building.

Under the terms of the pact between Moyer Brothers and Mrs. Wasby the former has agreed to withdraw the injunction action now in the court of appeals. A cash settlement was made by which the dry goods firm surrendered all claims to their lease.

The agreement was made between

ELKS OUTLINE PLANS TO SAVE 'OLD IRONSIDES'

Appeal for Funds Will be Made in Schools.

SPEAKERS NAMED

Seek Pennies to Recondition Famous Frigate.

The East Liverpool lodge No. 358, B. P. O. Elks, will launch a campaign among the public and parochial school children here next week to raise funds to recondition the frigate Constitution, familiarly known as "Old Ironsides." Exalted Ruler Ralph C. Benedum announced today.

Speakers representing the lodge will visit the various school buildings Monday to outline plans for the canvass, while contributions ranging from 1 to 10 cents will be sought on Friday, October 23.

A picture of "Old Ironsides" will be furnished each school room, while each contributor will be given a lapel button on which is a painting of the historic ship.

Prizes for Essay Written.

Frank Campbell, W. H. Robinson and Rev. W. H. Clark will be in charge of arrangements for the East Liverpool campaign.

Collections will be made by the teachers, who, in turn, will report the funds to the school principals.

The Constitution now lies at the Charlestown navy yard, at Boston, in bad condition. Congress authorized the rebuilding of the ship and directed the secretary of the navy to solicit funds to defray the cost. Mr. Wilbur decided to appeal for the money to the school children.

President Coolidge has shown his interest in the campaign by naming the topics of essays to be written by grammar school and college students of the United States, for which prizes will be awarded in the form of bronze, silver and gold medals.

Congress has placed a limitation of $500,000 on the amount to be raised.

ATHENS SOLDIERS PUSH INTO BULGARIA; TOWN OF PETRICH SHELLED

Sofia Dispatches, Quoting Semi-official Statements, Charge That Hellenes Have Attacked Border Sentinels, Killing Five, and Have Occupied Three Posts in Neighboring Territory.

INVADERS PLAN TO SEIZE CITY TO ENFORCE INDEMNITY DEMANDS

Hostilities are Launched in Keeping With Ultimatum Against Bulgarian Aggressions and Call for Apology for Alleged Enemy Attack Upon Greek Outposts Along Frontier.

By HARRY R. FLORY.

LONDON, Oct. 22.—Greek troops have begun war operations against Bulgaria, according to dispatches from Sofia today quoting semi-official statements.

The semi-official Sofia statement charges that a detachment of Greeks supported by artillery, has advanced into Bulgarian territory and shelled the Bulgarian town of Petrich.

The statement further charges that the Greeks have attacked Bulgarian sentinels, killing five, and occupying three Bulgarian posts.

Petrich, which Sofia claims has been shelled, is understood to have been scheduled for occupation by the Greeks. It has long been a center of Macedonian activities.

According to word from Athens, the Bulgars today continued to occupy part of the Greek line in the region of Demirhissar.

Cross Border at Dawn.

ATHENS, Oct. 22.—Greek troops crossed the Bulgarian border at dawn, carrying out the Greek decision to occupy the Bulgarian town of Petrich, it was announced here today.

The government announces that the occupation of Petrich has been decided upon in order to prevent further Bulgarian aggressions and to insure the complete fulfillment of the Greek demands for 2,000,000 francs indemnity and an apology for the alleged Bulgarian attack upon Greek outposts.

Another Test of League.

LONDON, Oct. 22.—That the Graeco-Bulgarian crisis will furnish another test of the League of Nations appeared certain today with reports from Sofia that the Bulgarian cabinet would protest to the league against the Greek invasion of Bulgarian territory and would ask permission to mobilize troops in defense of its borders.

As these reports were received from the Bulgarian capital, by way of Vienna, it was learned from Athens that the proposed advance and occupation of Petrich as a guarantee of payment of indemnities would be made today.

The trouble originated in the Demirhissar region, where bad blood has existed for three months because of the killing of a Greek citizen at Stanimaka. Bulgarian irregulars were reported to have fired over the border at Greek patrols and a night-long fight followed.

Illegal to Shoot Wild Geese in Ohio At Night, Warning

COLUMBUS, Oct. 22.—Warning that it is illegal to shoot wild geese and ducks in Ohio between sunset and sunrise and that vigorous prosecution will be meted out to the guilty persons was issued here today by D. O. Thompson, chief of the state fish and game division.

Thompson's warning was prompted by reports from various sections of the state that hunters shot down large numbers of wild ducks and geese Wednesday night.

Review-Tribune Ads Find Beaded Bag and Currency

The honesty of two persons, combined with the efficacy of Review-Tribune advertising, restored lost articles in two instances during the last few days.

The manager of the Holland Furnace company, 719 Dresden avenue, lost a bill-fold, containing $60, on Saturday night. It was found by Raymond Young, of Third street, a St. Aloysius parochial school pupil, as he was on his way to school Monday and promptly returned to the owner who paid a reward.

An employe of the Ceramic theater found a beaded bag, containing a small purse and vanity case, which was lost Monday evening. It was returned to the owner, who resides at 726 Bradshaw avenue.

Both finders read of the lost articles in the Review-Tribune classified columns, once more proving the truth of the axiom, "It pays to advertise."

BOWDLER TRIAL IS POSTPONED

Federal Case Will Not be Heard During October Term.

Trial of A. E. Bowdler, former East Liverpool attorney, and ten other business associates who were interested in the defunct Real Estate Guaranty Mortgage company and the Belmont Securities company of Wheeling, W. Va., and Bellaire, Ohio, respectively, facing federal court indictments, will not be heard during the October term of the U. S. court, now in session in Wheeling.

An important witness for the government is now at work in the west and cannot return to Wheeling to testify. This witness, it is said, audited the accounts of the two companies after the crash.

The indictments against Bowdler and Gordon D. Ulyatt, officers, and nine other business men of the Wheeling district who were either members of the board of directors or were employed by the two insolvent companies, are mostly for using the mails to defraud. Twelve indictments were returned by the federal court while charges of a similar nature are pending in the courts of Ohio, Marshall and Brooke counties, West Virginia.

Year 1926 Will Be Eventful, Says French Crystal Gazer

Prof. Raymond Predicts Trans-Atlantic Liner Disaster, Death of American Financier and Steadying of International Exchange.

PARIS, Oct. 21.—The year 1926 will be an eventful one, fraught with great world changes, if one can believe the annual forecast of Professor Raymond, the widely known French crystal gazer.

Professor Raymond has men followers in France, for it is claimed that he predicted the World war, America's entry into the World war, the Lusitania disaster and the death of President Wilson.

Among the professor's predictions for 1926 are these:

A terrible catastrophe to a trans-Atlantic liner on the high seas bound for the United States.

The death of an American financier.

Greater American interest in European affairs because of the personal sympathy of President Coolidge, and bankers in southern and eastern states.

Steadying international exchange.

France, the United States, Great Britain and Germany coming to an agreement which will stabalize the franc.

The professor's crystal also predicts that sugar, copper, platinum and steel will have a bull year.

Rum-Crazed Hound.

SOUTHBRIDGE, Mass.—This town turned out en masse to watch 750 gallons of confiscated liquor flood the gutters and pour into the sewers when Chief of Police Ulric Brank emptied his station of last year's collection.

Get Rid of Your

Rheumatism

Before Winter Sets in

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer that if a full pint bottle of Allenrhu, the sure conquerer of rheumatism, does not show the way to stop the agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenrhu has been tried and tested for years ,and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and piteous and where the patient was helpless.

James H. Allen, of 26 Forbes St., Rochester, N. Y., the discoverer of Allenrhu, who for many years suffered the tortures of acute rheumatism, desires all sufferers to know that he has instructed druggists to guarantee it as above in every instance.

East Liverpool Druggists are my appointed agents in your city. If you live out of town I'll gladly send you free particulars.

Toughest of Old Hang-On Coughs Go

Why send a boy to do man's work? Sweet, sugary cough syrups may help a simple cough, but when you are traveling along towards the cemetery with a stubborn tight old cough that lingers on and on with the most persistent devilishness then you need a real cough medicine—and the realest destroyer of tough old coughs is Bronchuline Emulsion.

The cough may be so tantalizing that you can't sleep nights and your days may be filled with racking torture, yet that's just the kind of a cough that Bronchuline likes to tackle and conquer.

Many times a few doses will stop the hacking and loosen things up and you can depend upon half a bottle to make a two months' cough quit cold and disappear.

Life is sweet—it will be much sweeter when you get rid of that old time cough.

Ask Cahnahan's Drug Stores and Jesse D. Holloway or any wide awake druggist for a bottle of Bronchuline Emulsion. There's no dope in it—or chloroform, and a couple of teaspoonfuls will usually end any ordinary cough.

Latest Discovery Dissolves Freckles

All Gone in Four Days—They Just Melt Away

Isn't it rather odd that one discovery made almost over night will stop the worrying of millions of freckled girls and women in just a few days?

These maids and matrons have been praying for a real freckle remover for years and right now when society more than ever demands of women a skin free from blemishes and ugly brown spots Flyte is discovered.

Flyte is a cream—easy to apply—it will not injure the most delicate skin—but it will dissolve freckles in four days and melt them completely away, leaving the skin clean, clear and soft as velvet.

And best of all Flyte is not expensive—a little goes a long way. You can get it right here at Carnahan's Drug Stores, C. G. Anderson's, J. D. Holloway's, who guarantees it to take off every freckle or money back as do all live druggists everywhere.

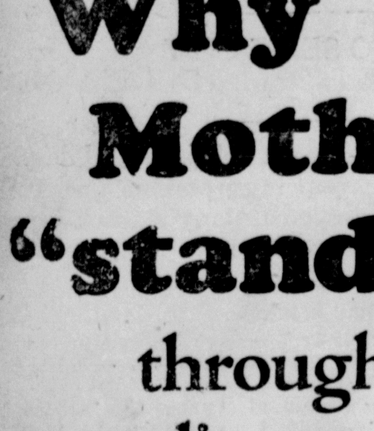
Why Mother's Oats "stands by" you through the morning ending premature fatigue



DO you feel tired, nervous, hungry, hours before lunch?

Don't jump to the conclusion of poor health. Almost 90% of the time you'll find it's premature fatigue, brought on largely by an ill-balanced breakfast ration. Thousands have "draggy" mornings for that reason.

To feel right, you must have well-balanced, complete food. You can't deceive nature into accepting breakfasts that lack even a single element toward correct food balance.

That is why Mother's Oats is so widely urged today. It is almost a perfectly balanced dish.

Contains 16% protein, food's great tissue builder; 58% carbohydrate, the great energy element; is rich in minerals, and in vitamines. Supplies the "bulk" your diet needs to make laxatives seldom necessary.

Year 1926 Will Be Eventful, Says French Crystal Gazer

Prof. Raymond Predicts Trans-Atlantic Liner Disaster, Death of American Financier and Steadying of International Exchange.

PARIS, Oct. 21.—The year 1926 will be an eventful one, fraught with great world changes, if one can believe the annual forecast of Professor Raymond, the widely known French crystal gazer.

Professor Raymond has men followers in France, for it is claimed that he predicted the World war, America's entry into the World war, the Lusitania disaster and the death of President Wilson.

Among the professor's predictions for 1926 are these:

A terrible catastrophe to a trans-Atlantic liner on the high seas bound for the United States.

The death of an American financier.

Greater American interest in European affairs because of the personal sympathy of President Coolidge, and bankers in southern and eastern states.

Steadying of international exchange.

France, the United States, Great Britain and Germany coming to an agreement which will stabalize the franc.

The professor's crystal also predicts that sugar, copper, platinum and steel will have a bull year.

Rum-Crazed Hound.

SOUTHBRIDGE, Mass.—This town turned out en masse to watch 750 gallons of confiscated liquor flood the gutters and pour into the sewers when Chief of Police Ulric Brault emptied his station of last year's collection.

A hound took an opportunity to steal a drink. He took a couple of licks, laid down on his back and howled. Next he jumped up and started off on the run. He hasn't come back yet.

Three hundred crippled girls in eight youths made 14,000,000 flowers to be sold in London streets to raise funds for disabled soldiers.

Get Rid of Your
Rheumatism
Before Winter Sets in

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer that if a full pint bottle of Allenrhu, the sure conquerer of rheumatism, does not show the way to stop the agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenrhu has been tried and tested for years ,and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and piteous and where the patient was helpless

James H. Allen, of 26 Forbes St., Rochester, N. Y., the discoverer of Allenrhu, who for many years suffered the tortures of acute rheumatism, desires all sufferers to know that he has instructed druggists to guarantee it as above in every instance.

East Liverpool Druggists are my appointed agents in your city. If you live out of town I'll gladly send you free particulars.

Toughest of Old Hang-On Coughs Go

Why send a boy to do man's work? Sweet, sugary cough syrups may help a simple cough, but when you are traveling along towards the cemetery with a stubborn tight old cough that lingers on and on with the most persistent devilishness then you need a real cough medicine—and the realest destroyer of tough old coughs is Bronchuline Emulsion.

The cough may be so tantalizing that you can't sleep nights and your days may be filled with racking torture, yet that's just the kind of a cough that Bronchuline likes to tackle and conquer.

Many times a few doses will stop the hacking and loosen things up and you can depend upon half a bottle to make a two months' cough quit cold and disappear.

Life is sweet—it will be much sweeter when you get rid of that old time cough.

Ask Cahnahan's Drug Stores and Jesse D. Holloway or any wide awake druggist for a bottle of Bronchuline Emulsion. There's no dope in it—or chloroform, and a couple of teaspoonfuls will usually end any ordinary cough.

Latest Discovery Dissolves Freckles

All Gone in Four Days—They Just Melt Away

Isn't it rather odd that one discovery made almost over night will stop the worrying of millions of freckled girls and women in just a few days?

These maids and matrons have been praying for a real freckle remover for years and right now when society more than ever demands of women a skin free from blemishes and ugly brown spots Flyte is discovered.

Flyte is a cream—easy to apply—it will not injure the most delicate skin—but it will dissolve freckles in four days and melt them completely away, leaving the skin clean, clear and soft as velvet.

And best of all Flyte is not expensive—a little goes a long way. You can get it right here at Carnahan's Drug Stores, C. G. Anderson's, J. D. Holloway's, who guarantees it to take off every freckle or money back as do all live druggists everywhere.

Why Mother's Oats "stands by" you through the morning ending premature fatigue

DO you feel tired, nervous, hungry, hours before lunch?

Don't jump to the conclusion of poor health. Almost 90% of the time you'll find it's premature fatigue, brought on largely by an ill-balanced breakfast ration. Thousands have "draggy" mornings for that reason.

To feel right, you must have well-balanced, complete food. You can't deceive nature into accepting breakfasts that lack even a single element toward correct food balance.

That is why Mother's Oats is so widely urged today. It is almost a perfectly balanced dish.

Contains 16% protein, food's great tissue builder; 58% carbohydrate, the great energy element; is rich in minerals, and in vitamines. Supplies the "bulk" your diet needs to make laxatives seldom necessary.

Few foods have its remarkable "balance." That is why it stands by you through the morning.

Coupons Good for premiums are in every Mother's Oats package. Save them.

MODERN TOWN IS BUILT ON ANTIQUITIES

Water Mains of Visby, Sweden, Reveal Relics.

"BALTIC'S PEARL"

Rude Stones From Viking Period are Dug up.

VISBY, Sweden.—Four thousand year-old records of human habitation have been uncovered this fall under this city, called "The Pearl of the Baltic.' By simply digging down below the central market square a mine of antiquities, ranging in dates from the Stone Age or about 2,000 B. C. to comparatively recent period when Sweden was one of the great Baltic powers, has been brought to light. The first clues were disclosed last year when the city put in a modern water main and now government archeologists have taken charge of the explorations.

Under the central city square five distinct layers of paving stone, laid at irregular intervals from the twelfth century to the twentieth, were cut through, and as the picks struck deeper and deeper, signs of increasing older civilizations were encountered.

Old Church Found.

Immediately below a modern merchant's warehouse, for instance, were struck the nine-feet thick foundations of a mediaeval church, and part of the church floor consisted of rude stones from the Viking period. In later times material from the crumbling walls were used, before their archeological value was realized, in the construction of a bank building.

Underneath each layer of pavings or building foundations have been recovered either coins or ornaments or tools, characteristic of the age that had gone before, and thus each period has left a date as clear to the Swedish archeologists conducting the excavation as though it had been written in a book. Under one of them layers of paving stones, for instance, was found a coin of the fifteenth century, when the Danes ruled the island on which Visby is situated, and under the ruined stone flooring of the church lay a silver ornament of the Viking age.

Evidence of habitation before the age of metals appeared in the form of bone or horn ornaments, polished bird bone beads, carved seal teeth, and harpoons of deer horn with a hole at one end for the line. Shards of pottery and bone instruments for their manufacture have also been dug up in great quantities. Skeletons of both children and grownups, buried on rough hewn blocks of lime stone instead of in the loose earth, have been identified as belonging to the Stone Age. Across the face of one skeleton lay two huge eye teeth of a wild boar, clearly attributing pugnacious qualities to the dead cave man.

In the Middle Ages Visby was the most important trading center of Northern Europe and to this day there remain impressive ruins of both churches and fortifications, erected by the well-to-do merchants. This summer the foundations of their city hall, built, according to an old Latin chronicle, in 1317, have been laid bare and the stone columns as well as some of the steps leading down to a wine shop in the basement have been uncovered.

Bootleggers, Too.

The refreshment place was kept by one of the city councillors, who, according to contemporary records, found it necessary to take legal measures to restrain his colleagues from selling wine illicitly in their shops about the market square.

When the rival tradesmen of Lubeck stormed and sacked the city of Visby in 1525, the city hall was burned and several thousand of the ornamental bricks set in the ceiling of the basement wineshop were later used for the restoration of the St. Maria church, which this Summer celebrated its 700th anniversary.

Called "the city of ruins and roses," Visby is today the best preserved centre of mediaeval antiquity in northern Europe.

Among the items listed at an auction at Leipzig were "Horse hair, long tails, short tails, cuttings, combings and manes," with a total weight of 60,000 pounds.

The annual printing bills for the Cardiff consular district of Wales total $7,300,000.

EAST LIVERPOOL — AMERICA'S POTTERY CENTER

THURSDAY, OCTOBER 22, 1925.

Doves And Bulls

The long continued bull movement in the stock market, with prices reaching a spectacular height, has puzzled many observers, including some of the professionals. It has been by no means a mere speculators' market. There developed, especially toward the middle of October, a tremendous popular demand for securities, drawing its support from the whole country and from all classes of investors.

Many reasons are given for this stock boom, proceeding as it has done without any very close relationship to current business conditions. Nearly all of them have doubtless had some influence. But it was probably no accident that the climax of the bull movement came almost exactly with the successful conclusion of the European security conference at Locarno.

It may be that the new peace spirit in Europe, typified in that conference, has really been the most powerful factor in Wall Street optimism. It might well be so, if the treaty means all that it seems to mean. American investors know that there can be no greater boost for big earning power in American industry and trade than assured peace in Europe, with the promise that would give of increased prosperity and buying power abroad.

America is an empire in herself. Americans can prosper by merely working for and trading with each other, supplying nearly all of their own essentials. But America can prosper still more when the Old World quits fighting, starts working and enters the world market again with cash in her pocket.

More Gold

With the finding of the "lost main reef" in the Transvaal gold field, a big increase in gold production is expected. Half the world's gold production comes from there already. Now another great source of supply is tapped, far down in the earth, but capable of being worked.

This factor alone, it is suggested, will have a bearing on the payment of war debts. And not only Great Britain's, but those of all the other debtors. For more gold anywhere means cheaper gold everywhere.

Other gold mines are likely to be discovered, with production continuing to increase. The metal used as a standard of value, which as economic history shows has been getting steadily cheaper for centuries, will doubtless continue depreciating.

Thus, even if the United States had its war loans repaid dollar for dollar, it would probably get back a good deal less than it lent. Which is nothing to worry much about, but a matter of interest nevertheless.

It might be worth while to consider this possibility in figuring out all funding plans contemplating payments over a long period of years. Also in long-term leases.

It is also just as well for financiers to keep in the back of their minds the possibility, however remote it may be, of gold being manufactured some time in paying quantities from base metals.

Sooner or later, in the history of mankind, a time may come when the fable of Midas and his gold shall come true on a big scale.

Sunshine In Winter

At the recent electrical show in New York there was exhibited a light bulb that would put a coat of tan on your skin, and do it quicker than sunshine. Moreover, the doctors say, its rays will do the person they shine on exactly as much good as the actual sunshine.

The bulb has been scientifically developed to produce the invisible ultra-violet rays by which the beneficent effects of sunlight are accomplished. Those rays are said to shine deep into the body, vitalizing the blood and stimulating the organs and glands. They are responsible for the "sunshine cure" of rickety and tuberculous children. They operate as a powerful and wholesome stimulent.

Now it won't matter so much whether the sun shines or not. That wonderful bulb, the doctors say, can bring sunlight into any home, any climate, and season. When it is put on the market and made available for ordinary folk, it should prove a godsend, esperially in dull northern regions which have little sunshine in the winter months. It should be good not only for children and invalids, but for everybody.

When an artificial sunbath can be obtained in one's bedroom, whenever desired, giving in a few minutes the equivalent of an hour or two of direct exposure to summer sunlight, our winters should become immensely more healthful.

NEW YORK DAYBYDAY

By O. O. McINTYRE

NEW YORK, Oct. 22.—There is another side of the New York debutante not included in the popular picture—chiffon, gold flasks and buck teeth. It is not all lolling on the Pal Beach sands for Sunday papers. A shop girl really has more leisure.

The hot-house flora of the Smart Push must be up early and their day runs far into night and that is why, so often, they are trundled off babling to sanitariums. The cardinal social sin is not to be seen. To miss a breakfast or lunch may start tongues wagging.

The slightest slip may loose those "don't belong" rumors. And so they are gœrs to the death. It is only through secretaries they know what is in store for them from day to day. To their credit it must be said they give largely of their time to society charity fetes.

During the season some attend four or five social affairs in an evening, sometimes a morning musical and two luncheons nad several afternoon teas have preceded. We immortalize almost everything in Manhattan from Steve Brodie to Civic Virtue.

Some day there should arise on one of Manhattan's lofty minarets a memorial to the Four Hundred—some symbol to the worship of Mammon and Speed. No lives are pitched to such racing tempo. The European spas are filled with those who have dropped out of the race.

At the age of the matronly and healthy years they are faded flowers hanging to broken stems. Ghosts of dear dead frivolties. They cannot remain in the furious whirl and be no part of it so they filter off to quiet resorts—making rounds of cures.

They are comforted by faithful maids, silken spaniels and dreams of the past. Given family and wealth, society has always and will ever be a game of intrigue. And like all paths of glory it leads to the conventional place.

My contact with the Four Hundred is, of course, casual. It consists of craning my neck now and then to peep at a debutante bride walking under the sidewalk awning to a church. Or from society press agents who send me rosy mimeographed copy which is mostly abstract piffle and tossed overboard with the less polite letters from creditors. It is no doubt a gay and exciting life but most of us would rather sit on the sidewalk and with it evovle and effloresce.

Now and then one runs across those spurous Kentucky Colonels but they are not so numerous as they used to be. They wear the wide black hat, long coat, boiled shirt, white lawn tie and goatee of their real prototype. They have mastered the drawl and the abolity to horn-in conversation. Their field of operation is the crowded hotel lobby. Their craft is slight—a small loan here and there apparently satisfying them.

There are all sorts of incongruities around New York. The other evening I saw a man tailored to fashion come out of a half completed building. He was so well dressed it was noticeable After the theater I saw him resting in a chair in a doorway. He was smoking a cigar in what appeared to be a gaundy holder. The next evening he was there at dusk lighting red warning lanterns about the various building impedimenta on the streets and I leapend he was the nightwatchman. Now there is no reason why the nightwatchman should not be a fashion plate. His work is mostly light and cleanly. Yet they conform so much to type that one of this kind was startling.

Only one night club is demanding formal dress of its patrons. The proprietor declares it will not change the rule if it has to close up which will more than likely be its fate. The proprietor is a former disb washer.

HASKIN'S LETTER

Caring for Friendless Animals.

WASHINGTON, Oct. 22.—Not so long ago the last fire horse in Washington was retired from service and was taken over by the engineer corps of the army. He just missed the opportunity of spending the rest of his life in leasure at the rest farm of the Humane Education Society for Friendless Animals.

This farm comprises some eighty acres and is about twenty miles from Washington in Montgomery county, Maryland. It is maintained, as its name would indicate, for the purpose of giving a haven to friendless animals and those whose days of usefulness have passed. In a way it corresponds to the various homes for those unfortunate humans who have grown old and fned no place in the rush and bustle of the economic world.

At the present time this rest farm is sheltering between 140 and 150 dogs, 40 or 50 cats, seven horses and two cows. It may be well imagined that rare discretion was shown when its site was selected. One of the officers of the society says that at the time the purchase of a tract of land for the farm was first considered some one suggested a locaation where the population was somewhat numerous. That officer was taken to look over the site and immediately exclaimed, "We wouldn't last here one night!" It is to be feared that even the most ardent of animal lovers would not be inclined to take kindly to the barking and yowling of a hundred or more dogs and cats.

The staff of the farm consists of a caretaker and one or two men to look after the animals. The dog kennels have been declared by many experts to be among the finest in the country. Before they were built a member of the society visited many places where the highest type kennels were and when those at the farm of the Washington organization were built it was endeavored to incorporate in them the best features of all that had been inspected. Each dog has his private stall and own runway.

The cats have a house of their own above which is erected the sign of the black cat. They also have their private yard, which is roofed over to protect them from rain and snow.

Food Carefully Selected.

The food for these animals is prepared with special reference to the appetites and tastes of each class. For instance, the cats have salmon and prepared cat food. The dogs have meat, corn bread and dog biscuits, while the cows and horses have their regular grain, hay and forage. It is stated that the cost of feeding these animals amounts to something over $200 a month.

During the summer months the farm has many requests to board family pets. However, just now there are no facilities for this and all such requests must be refused. It is believed that if the society could raise the amount of money necessary to build additional kennels the boarding of animals during the summer would be a profitable business. Indeed, one officer is of the opinion that if someone could be found who would be willing to contribute the initial cost, the farm could be made self-supporting by boarding pets. It would seem to be advantageous to the owners as well, since the persons operating the farm are animal lovers and not merely interested commercially. One might therefore be sure that his dog or his cat would get the best of care and as far as possible the personal attention to which he has been accustomed.

The secretary of the Humane Education society who is so enthusiastic about going into the business of boarding pets says somewhat humorously that it would probably pay some wealthy animal lover to contribute the necessary funds and thus put the society on a basis that would do away with its necessity of continuously soliciting contributions.

While there are many societies interested in the welfare of dumb animals the Humane Education society feels that it is unique in that it never kills any animals. They are cared for until they die from natural causes. If a dog or cat becomes ill it is given home attention and if it fails to respond to this then it is taken to a veterinarian.

Kindness to Animals.

In addition to conducting this rest farm for animals the society conducts educational campaigns for the purpose of teaching the public to be kind to animals. It does this by distributing literature in the public schools by providing speakers to give talks to the school children and by various other mediums. It has held two animal parades, the first of which was led by President Harding's Laddie Boy and including General Pershing's horses, as well as the high bred pets of local citizens and the ordinary run of everyday animals. These parades were held during Be Kind to Animals Week. At such times school children are encouraged to compete in a poster contest. The best posters are selected and then sent to the national poster contest which is held under the auspices of the American Humane association of Albany, New York.

There are a number of cities which have associations similar to the Humane Education society and rest farms and hospitals for animals. Near Boston there is a rest farm for horses. Here work horses are given a two weeks annual vacation. In New York state the Horse Ride society has a shelter for small animals. This is a tribute to animals who served in the World War. Horses are given a vacation there, and the owners are loaned horses to take their places during this period. This is considered not only a boon to the animals but also to the small owner—that is the man who has perhaps one horse and a truck which he uses for moving purposes. In many cases if anything happened to the horse the man would be without means of support because he would not be in a position to purchase another horse.

In New York City there is an organization which is an exchange or clearing house for friendless animals. This organization takes in homeless dogs and cats. If a person is looking for a pet he may apply to it and he will be given one upon the assurance that he will give it a good home. He must, however, sign an agreement to the effect that in the event that he for any reason does not wish to keep the animal he will return it to the society. This organization also has a farm on Long Island where it cares for dogs, cats, and a few horses. It has been functioning for twenty years and it estimates that in that time it has cared for 100,000 animals. Also it has found homes for 75 per cent of the dogs and 50 per cent of the cats which it has cared for. Some time ago a wealthy woman left this organization a legacy of $800,000.

These are only a few of the things that are being done to better the lot of unwanted animals. The ambition of the Washington Humane Education society is to make it a model. Every year there are thousands of visitors to the National capital, a large percentage of whom are animal lovers and interested in seeing a place which is operated for the sole purpose of giving friendless animals an opportunity of spending their last days in peace. Recently some people from California went out to visit the farm and were so interested that they are now making preparations to start a similar one in their state.

Something Must Be Done and Done Right Now—Quick

Tens of thousands of thin, run-down men—yes, and women too—are getting discouraged—are giving up all hope of ever being able to take on flesh and look healthy and strong.

All such people can stop worrying and start to smile and enjoy life right now for McCoy's Cod Liver Oil Compound Tablets which any druggist will tell you all about, is putting flesh on hosts of skinny folks every day.

One woman, tired, weak and discouraged, put on 15 pounds in five weeks and now feels fine.

We all know that Cod Liver Oil is full of vitalizing flesh producing vitamines, but many people can't take it because of its horrible smell and fishy taste and because it often upsets the stomach.

McCoy's Cod Liver Oil Compound Tablets are as easy to take as candy and if any thin person don't gain at least 5 pounds in 30 days your druggist is authorized to give you your money back—and only 60 cents for 60 tablets. Ask Mathews Med. store or any druggist.

But be sure to get McCoy's, the original and genuine, and bear in mind that for thin, sickly kids they are wonderful—a very sickly child—age 9—gained 12 pounds in 7 months.

One of the officers of the society says that at the time the purchase of a tract of land for the farm was first considered some one suggested a locaation where the population was somewhat numerous. That officer was taken to look over the site and immediately exclaimed, "We wouldn't last here one night!" It is to be feared that even the most ardent of animal lovers would not be inclined to take kindly to the barking and yowling of a hundred or more dogs and cats.

The staff of the farm consists of a caretaker and one or two men to look after the animals. The dog kennels have been declared by many experts to be among the finest in the country. Before they were built a member of the society visited many places where the highest type kennels were and when those at the farm of the Washington organization were built it was endeavored to incorporate in them the best features of all that had been inspected. Each dog has his private stall and own runway.

The cats have a house of their own above which is erected the sign of the black cat. They also have their private yard, which is roofed over to protect them from rain and snow.

Food Carefully Selected.

The food for these animals is prepared with special reference to the appetites and tastes of each class. For instance, the cats have salmon and prepared cat food. The dogs have meat, corn bread and dog biscuits, while the cows and horses have their regular grain, hay and forage. It is stated that the cost of feeding these animals amounts to something over $200 a month.

During the summer months the farm has many requests to board family pets. However, just now there are no facilities for this and all such requests must be refused. It is believed that if the society could raise the amount of money necessary to build additional kennels the boarding of animals during the summer would be a profitable business. Indeed, one officer is of the opinion that if someone could be found who would be willing to contribute the initial cost, the farm could be made self-supporting by boarding pets. It would seem to be advantageous to the owners as well, since the persons operating the farm are animal lovers and not merely interested commercially. One might therefore be sure that his dog or his cat would get the best of care and as far as possible the personal attention to which he has been accustomed.

The secretary of the Humane Education society who is so enthusiastic about going into the business of boarding pets says somewhat humorously that it would probably pay some wealthy animal lover to contribute the necessary funds and thus put the society on a basis that would do away with its necessity of continuously soliciting contributions.

While there are many societies interested in the welfare of dumb animals the Humane Education society feels that it is unique in that it never kills any animals. They are cared for until they die from natural causes. If a dog or cat becomes ill it is given home attention and if it fails to respond to this then it is taken to a veterinarian.

Kindness to Animals.

In addition to conducting this rest farm for animals the society conducts educational campaigns for the purpose of teaching the public to be kind to animals. It does this by distributing literature in the public schools by providing speakers to give talks to the school children and by various other mediums. It has held two animal parades, the first of which was led by President Harding's Laddie Boy and including General Pershing's horses, as well as the high bred pets of local citizens and the ordinary run of everyday animals. These parades were held during Be Kind to Animals Week. At such times school children are encouraged to compete in a poster contest. The best posters are selected and then sent to the national poster contest which is held under the auspices of the American Humane association of Albany, New York.

There are a number of cities which have associations similar to the Humane Education society and rest farms and hospitals for animals. Near Boston there is a rest farm for horses. Here work horses are given a two weeks annual vacation. In New York state the Horse Ride society has a shelter for small animals. This is a tribute to animals who served in the World War. Horses are given a vacation there, and the owners are loaned horses to take their places during this period. This is considered not only a boon to the animals but also to the small owner—that is the man who has perhaps one horse and a truck which he uses for moving purposes. In many cases if anything happened to the horse the man would be without means of support because he would not be in a position to purchase another horse.

In New York City there is an organization which is an exchange or clearing house for friendless animals. This organization takes in homeless dogs and cats. If a person is looking for a pet he may apply to it and he will be given one upon the assurance that he will give it a good home. He must, however, sign an agreement to the effect that in the event that he for any reason does not wish to keep the animal he will return it to the society.

This organization also has a farm on Long Island where it cares for dogs, cats, and a few horses. It has been functioning for twenty years and it estimates that in that time it has cared for 100,000 animals. Also it has found homes for 75 per cent of the dogs and 50 per cent of the cats which it has cared for. Some time ago a wealthy woman left this organization a legacy of $800,000.

These are only a few of the things that are being done to better the lot of unwanted animals. The ambition of the Washington Humane Education society is to make it a model. Every year there are thousands of visitors to the National capital, a large percentage of whom are animal lovers and interested in seeing a place which is operated for the sole purpose of giving friendless animals an opportunity of spending their last days in peace. Recently some people from California went out to visit the farm and were so interested that they are now making preparations to start a similar one in their state.

Getting Skinnier Every Day

Hollows in Cheeks and Neck Growing Deeper Every Week

Something Must Be Done and Done Right Now—Quick

Tens of thousands of thin, run-down men—yes, and women too—are getting discouraged—are giving up all hope of ever being able to take on flesh and look healthy and strong.

All such people can stop worrying and start to smile and enjoy life right now for McCoy's Cod Liver Oil Compound Tablets which any druggist will tell you all about, is putting flesh on hosts of skinny folks every day.

One woman, tired, weak and discouraged, put on 15 pounds in five weeks and now feels fine.

We all know that Cod Liver Oil is full of vitalizing flesh producing vitamines, but many people can't take it because of its horrible smell and fishy taste and because it often upsets the stomach.

McCoy's Cod Liver Oil Compound Tablets are as easy to take as candy and if any thin person don't gain at least 5 pounds in 30 days your druggist is authorized to give you your money back—and only 60 cents for 60 tablets. Ask Mathews Med. store or any druggist.

But be sure to get McCoy's, the original and genuine, and bear in mind that for thin, sickly kids they are wonderful—a very sickly child—age 9—gained 12 pounds in 7 months.

Constipation —the penalty of civilization

THE Vikings of old could indulge in huge feasts of heavy foods without dread of constipation. Strenuous physical activity was their safeguard.

Conditions are changed today. Intestines clog, and half-measures such as overnight cathartics, when they work at all, often interrupt sleep or embarrass a person in the daytime.

How different with Pluto Water! It acts in 30 minutes to two hours. It flushes away all the disease-breeding accumulations quickly, harmlessly, without griping—leaves you feeling a new person.

Remember, *time counts* when you need a physic—appendicitis or pneumonia may develop from delay. Put your trust in quick-acting Pluto. Prescribed by physicians, sold by druggists and bottled at French Lick Springs, Indiana.

MAY IMPROVE CLARK AVENUE

Will be Part of Work on Inter-county Highway.

With the state highway department appropriating $15,000 per mile for the improvement of "The Narrows," a part of Intercounty highway No. 7, in Jefferson county, and extending up to the Jefferson-Columbiana county lines at Wellsville, Jefferson county is now ready to share in the cost of this improvement, which is to be undertaken this year.

The improvement of this part of No. 7 means that Clark avenue will have to be improved by the city of Wellsville and the county commissioners, while "The Narrows" is being graded and given a temporary top surface.

Clark avenue, Wellsville, is a part of I. C. H. No. 7, likewise the Wellsville-East Liverpool road, and the improvement of the Clark avenue section will come under the direction of the county commissioners.

Improvement of this part of the road in Jefferson county will result in all river road traffic being routed over the new section, and will eliminate travel on the present paved road between East Liverpool and Chester, crossing the Ohio river at New Cumberland and thence to Steubenville over the new road through Toronto.

It has also been pointed out by the state highway department that the improvement of "The Narrows" will open the closest gap between the National pike at Bridgeport and the Lincoln and also the Cox highways, and over an improved highway. Additional traffic will be thrown into both Columbiana and Jefferson counties as a result of the improvement.

While the Clark avenue improvement has developed since the new county road program was first designed, this improvement will of necessity have to fall in line with all of the other proposed roads. Both state and federal aid will be sought on the Clark avenue resurfacing, and with county funds available as a result of the passage of the proposed bond issue, a through road between East Liverpool and Steubenville is assured within a year or probably during the next nine months.

The northern part of the county will also feel the benefit of this improvement in Jefferson county, and will ultimately result in a new line of heavy traffic through Wellsville over No. 7, which at this time is closed to direct inter-city traffic communication.

Commissioners of Jefferson county have been informed by the state highway department that funds for the improvement of "The Narrows' is now available, and Jefferson county will, it is said, immediately proceed with the suggestion of the Columbus department.

Plan Entertainment Course.

The Irondale schools are promoting an entertainment course of four numbers. The Leakes Orchestral Entertainers, a musical number, will open the course on Saturday evening, Oct. 31. WILL REBUILD BRICK PLANT

Loss in Summitville Fire Estimated at $60,000.

Steps toward the reconstruction of the Summit Brick plant, at Summitville, partially destroyed Tuesday by fire, will be taken immediately following insurance adjustment, according to announcement by officials of the company.

The power plant, the main manufacturing building and the Shale building were totally destroyed by flames, with a loss of approximately $60,000.

The fire, it is said, started in the engine room and is believed to have been caused by spontaneous combustion.

Fanned by a strong wind the flames defied the efforts of company employes.

The Summit plant is owned and operated by F. H. Johnson and H. P. Lynn. New machinery which was installed in the plant about a year ago was ruined by the flames.

LOCAL GIRL WEDS IN ZANESVILLE

Announcement has been made of the marriage of Miss Hilda Rushton to Celestine A. Farrell, which was solemnized recently in the St. James Episcopal church at Zanesville, Rev. Duncan Weeks performed the ceremony. The ring service was used. The principals were attended by Mr. and Mrs. Frank Bowers, of Zanesville, and the ceremony was witnessed by members of the immediate families.

The bride was charmingly gowned in blue velvet with hat to match.

Mrs. Farrell is the daughter of Mr. and Mrs. J. R. Rushton, of Wellsville. She has resided in Zanesville for the past four years, being employed as a nurse at the Bethesda hospital, where she graduated in 1924.

The bridegroom is a nephew of Mrs. H. E. Bailey, of Zanesville. He is employed at the Zulandt drug store.

The young couple are at home to their friends at 977 Greenwood avenue,, Zanesville.

PAYMENT OF FEE MAY BE DELAYED

The payment of a bill of $500, submitted recently to the city by Attorney Charles Boyd for services rendered to the municipality in two cases, may be temporarily delayed as a result of the city's shortage of funds.

Attorney Boyd's fee is for services for the city in the traction company fare fight and the Davidson case. The latter went through the appeals court and to the state supreme court. In the fare case, Attorney Boyd and Ingram spent approximately two weeks in Washington before the supreme court before the issue was finally decided.

Up until the present time, only Attorney Boyd's actual expenses in the two cases, amounting to $241.51, including hotel bills, railroad fare and other incidentals, have been paid.

Dinner Party Held At R. W. Harker Home In Newell Heights

Autumn leaves and fall flowers, with Hallowe'en novelties attractively adorned the home of Mr. and Mrs. Robert W. Harker of Newell Heights last evening, when a group of friends were entertained at a 7 o'clock dinner. Lighted candles were used on the large table, at which 12 guests were seated, while three small tables were decorated with flowers. After the dinner, progressive bridge was the principal diversion of the social hours. The high scorers, Miss Maud McKinney and Frank M. Gardner, were awarded trophies. A guest prize was given.

Birthday Anniversary Observed.

Miss Vera Hargreaves celebrated her eighteenth birthday recently with a masquerade party. The home was decorated with Hallowe'en novelties. Music, games and dancing were the features. Prizes were awarded for the best costumes to Mrs. Marcella Miller and Miss Velva Buck. Radio music and banjo playing by George Miller furnished the music for the dancing.

Refreshments were served by the hostess, places being arranged for Mesdames Marcella Miller, Mabel Hoyte, Mary Hargreaves, Caroline Ashbaugher; Misses Mildred Buck, Blanch Hargreaves, Roxie McCauley, Velva Buck, Bessie Hargreaves, Edna Wolfe, Vera Hargreaves, Dorothy Jones and Grace Welsh; Messrs. John Eddy, George Miller, William Hoyte, Allen Hargreaves, Oliver Ashbaugher, Victor Ludington, Frederick Hartzell, Elmo Miller, David Kelly, Edward Simms, William Smith, Earl Haney, Edwin Smith, Charles Clemenson, Homer Devitt, Clark McCoy and Orrin Powell.

The out-of-town guest was Elmo Miller of Parkersburg, W. Va.

Ladies of Elks to Entertain.

Ladies of the Elks will give a card party Tuesday afternoon at the B. P. O. E. temple, West Fifth street, with Mrs. Roy Welsh as hostess, assisted by Mrs. Charles Davis and Mrs. Walter Seederly. At 6 o'clock a dinner will be served, with the husbands and families as guests.

Walker-Bayle Wedding.

Simplicity marked the wedding of Miss Carrie L. Walker of Damascus and Russell M. Bayle of Wilkinsburg, Pa., which took place at 4 o'clock today at the home of the bride's parents, Mr. and Mrs. E. E. Walker, of Damascus. Rev. W. Stanley Smith of Willoughby, former pastor of the Methodist Episcopal church of Damascus, performed the ceremony in the presence of 50 friends and relatives.

The bride's gown was of white georgette over satin, while her veil was of embroidered tulle, with a bandeau of pearls and orange blossoms. Her bouquet was of bride's roses and lilies of the valley.

To the strains of the bridal chorus from Lohengrin the wedding party assembled before an improvised altar in the living room, which was decorated in palms, ferns, autumn leaves, and tall standards of chrysanthemums.

Miss Mabel Walker, the bride's sister, served as bridesmaid, while Clarence Bayle was his brother's best man. Junior Walker, the bride's nephew, was ring bearer, and Arthene Bye was flower girl.

A reception and dinner followed the ceremony. Out-of-town guests were in attendance from Akron, Cleveland, Lorain, Pittsburgh, Youngstown, Tyrone, Alliance, Canton, Salem and East Liverpool.

Mr. and Mrs. Bayle left for a honeymoon trip to Cleveland and other points and will be at home after Nov. 1, at 511 Shelbourne avenue, Wilkinsburg, Pa.

D. F. Nellis Surprised.

Honoring the birthday anniversary of Daniel F. Nellis, a group of friends surprised him last evening at his home in West Sixth street. Mr. Nellis has been in the lumber business here for 35 years. The evening was spent informally, after which luncheon was served. The principal speaker was J. M. Finley, Chester lumber dealer, George H. Thompson of Cleveland, was an out-of-town guest.

The honor guest was the recipient of many gifts. The home was attractively decorated in autum colors and leaves.

Session of Dames of Malta.

Dames of Malta will meet Friday evening at 7:30 o'clock in the Ceramic cafeteria hall.

Half the world is half asleep

Can success in life be undermined by constipation? Indeed it can. The poisons of this disease tire you out, wear you down, make you listless and make you lose interest in things in general. Ambition is most often prompted by a thoroughly healthy body. Kellogg's ALL-BRAN brings permanent relief from constipation.

"Shoulders that droop and feet that drag"

THERE are men and women who seem to be eternally tired. They go about things in a listless sort of way. They try, but they can't seem to make the grade. Perhaps they do not realize that it is constipation which is sapping their energy.

There is a sure relief from this disease. It is Kellogg's ALL-BRAN.

Kellogg's ALL-BRAN goes completely through the system without changing its fiber. It sweeps the intestine clean, purifies it, absorbs and carries moisture through it, urges it to act exactly as nature intended. Unlike habit-forming pills and drugs, it is never necessary to increase the amount of Kellogg's ALL-BRAN which you first find effective.

Let Kellogg's ALL-BRAN regain your health and keep you feeling fit. Eat two tablespoonfuls daily—in chronic cases, with every meal. If eaten regularly, it is guaranteed to bring permanent relief or your grocer returns the purchase price. Eat your two tablespoonfuls with milk or cream, sprinkle it over other cereals, cook it with hot cereals, put it in soups and try it in the recipes given on every package.

Be sure you get Kellogg's ALL-BRAN—for only ALL-BRAN brings sure results. All grocers sell it. Leading hotels and restaurants serve it.

Indians' Prayer Breaks Drought and Saves Crops

Phoenix, Ariz.—The rattlesnakes of the Hopi Indians evidently carried the prayer of the red men for rain to the spider woman of the underworld, who the Indians believe has control over the rain clouds, for heavy rains fell, breaking the long-extended drought which threatened the crops and live stock ranges of central and southern Arizona.

The Hopi Indians recently staged their annual colorful and weird snake dance at their pueblo at Waipi, near Winslow, offering up their prayers for rain by liberating hundreds of rattlesnakes, which were supposed to carry the rain prayers to the snake mother and thence to the spider woman of the underworld. The dance is one of the most fantastic of American Indian dances—the Indians wrap and wind the snakes about their bodies and even take the reptiles in their mouths during the dance with utter abandon as to the danger of the poisonous fangs.

YOUR HEALTH

Kill Every Rat to Banish Dread "Pneumonic Plague"

By ROYAL S. COPELAND, M. D.
United States Senator from New York,
Former Commissioner of Health, New York City

DR. COPELAND

ONE of the great medical writers said: "Wherever plague exists an organized staff, an intelligent policy and a long purse are needed."

After the World War I was determined that the epidemic diseases raging in Europe should not enter America through the city of New York. One of my undertakings was to have systematic examinations made of the rat family, especially those to be found along the harbor line. This was done to make sure that no bubonic infected rats should be permitted to roam at large. To carry out my programme it was necessary to spend a great deal of money. Even now, it is probable the popular belief was that we were merely striving to kill off the rats and were spending much cash doing it. As a matter of fact, our men strove to cover every area of the city in order to catch rats which might be examined to see if they had bubonic plague.

Months before a community suffers from the plague, the rat population suffers and dies. An unusual death rate among rodents must give rise to the suspicion of epidemic disease in the rat family.

In health matters it is wise to be several jumps ahead of disease. To protect against the plague, or the "black death," as it is called, requires intelligence, organization and a long purse. But every dollar spent to prevent sickness and death is money well spent.

As I write there are sensational newspaper reports of many deaths in California from pneumonic plague. This is only a specialized form of the plague, but it is a very serious type of the disease.

The pneumonic plague strikes the victim without warning. High fever, pain in the chest, difficult breathing and severe cough are the early symptoms. The sputum is bloody. Blackness of the face is quickly noticed.

Sometimes there are intestinal disturbances with diarrhoea. This may mislead and give the impression that the case is one of typhoid fever.

The heart fails, the pulse is weak and the prostration is profound. Very few persons recover from the disease.

The rat is merely the vehicle. The real offender is the flea. When the rat host dies the fleas leave the cold body and jump on to the nearest animal. If this is a rat, all right, but if it is a man, the bite of the flea gives him the infection, and soon he is down with the plague.

The time will come when houses and other buildings, especially along the water front, will be given substantial foundations and made ratproof. The harborage of rats should be destroyed, and by cleanliness and orderliness the breeding places will disappear.

Science is at work to perfect a serum to control the disease and a vaccine to inoculate against it.

Answers to Health Questions

D. F. M. Q.—What causes a pain in the back between the shoulder when stooping or leaning?

A.—This is probably due to neuritis. For full particulars, send a stamped, self-addressed envelope and restate your question.

• • •

A CONSTANT READER. Q.—My 13-months-old baby has four teeth, is never sick and weighs about 20 pounds, but he perspires very freely when sleeping and seems very restless. Is this a sign of rickets?

A.—Your baby is a very good weight for his age and is apparently very healthy. You may have too many bedclothes over him at night. This would cause symptoms such as you describe. Be sure that there is plenty of air in the sleeping room and avoid too heavy covering. Also make sure that the baby is not constipated. No, this is not an indication of rickets.

• • •

MISS B. Q.—What can I use to massage the neck to fill out hollows?

A.—Try using cocoa butter. It may help you.

M. W. G. Q.—What can be done for a red nose?

A.—Kindly send a self-addressed, stamped envelope for full particulars and restate your question.

• • •

M. K. Q.—How can I remove or make less noticeable two moles on my face?

A.—Moles may be made less noticeable by the use of the electric needle, but this should be done by a competent person thoroughly skilled in this particular kind of work.

• • •

MISS H. M. Q.—What would you advise for inflamed eyes?

A.—Try bathing the eyes several times a day with a warm solution of boracic acid and at night apply 1 per cent yellow oxide of mercury ointment. If the trouble persists, see an eye specialist for the further treatment advisable.

• • •

B. C. C. Q.—What would you suggest for cold feet, which also seem to go to sleep frequently? What would cause knots on the cords under my knees?

A.—This is probably due to poor circulation. For further particulars on this subject, kindly send a self-addressed, stamped envelope and repeat your question. Your further symptoms are probably due to overexertion. Try resting for a time or keep off the feet as much as possible and see whether you do not benefit.

ODD TREE BRINGS BOY NICE NEST EGG

Gets $6,000 for Early Reddening Apple Limb.

Mullica Hill, N. J.—Through a quirk in the process of the evolution of an apple tree, an eight-year-old boy here has on deposit for him in the bank $6,000—a sum that has been set aside to give him a college education.

A biological sport is the term horticulturists and agriculturists apply to the chance production that gave the boy the money. "Peculiar," said neighbors around here, casting a passing look at the valuable apple tree.

Recently the biological sport, or natural phenomenon, came in for its share of acclaim, when fruit growers, farmers, agriculturists and horticulturists from many states journeyed to the farm of Lewis Mood, several miles outside of Mullica Hill.

Almost 1,000 persons gathered in the 50-acre orchard to look at the phenomenon that appeared on Mood's farm. A graceful, low-sweeping apple tree, with its limbs heavy with the burden of green fruit. In appearance like any other apple tree.

At first there seems little difference between this tree and hundreds of trees in the orchard, except that it is confined in a wire cage. Closer observation reveals a splash of red among leaves and the green apples that hang from the bough.

Then it is seen that one of the limbs has apples already red, while all of the other apples on the tree are green.

For that one limb, on which the apples color three weeks in advance of all the other apples on the tree, a western nursery firm four years ago paid Mood the sum of $6,000. Now with grafting to other trees the firm will be able to supply thousands of fruit growers with small trees of the early coloring fruit.

Eleven years ago Mood found red apples on one limb of a tree bearing fruit still green. He called in neighbors. They thought nothing of it, but he realized the commercial importance of the development. Apples that developed a rich, red color before they had ripened could be picked at once, kept through the winter and sold at a higher price in the market.

He got in touch with the nurserymen from whom he had purchased the tree. They came East to see the phenomenon, and four years ago purchased the limb for $6,000. This sum Mood immediately put aside for the education of his son, Lewis, Jr.

New Law Makes Briton

LONDON, Oct. 20.—Sir Lewis Dibdin, a well-known English legal authority, has been appointed to a position which virtually makes him the fairy godfather of countless young people all over Britain. By a new law shortly coming into force, Sir Lewis has the power to give consent to the marriage of lovers under the age of 21 whose parents refuse their sanction.

If minors consider that consent to their marriage is witheld on grounds that cannot be upheld reasonably and justly, they have but to appeal to Sir Lewis, and if he thinks their appeal is justified, he has power to over-ride the objection, and give his consent for the marriage.

DR. W. B. CALDWELL AT THE AGE OF 83

"Age is not the time for constantly whipping the bowels into activity. A lash can not be used every few days."
—DR. CALDWELL

If Past Forty, Adopt a Regulating Laxative

Most men and women past forty must give to the bowels some occasional help, else they suffer from constipation. One might as well refuse to aid weak eyes with glasses as to neglect a gentle aid to weak bowels.

Is your present laxative, in whatever form, promoting regularity for weeks and often for months—or must you "purge" and "physic" every day or two to avoid sick headache, dizziness, biliousness, colds, or sour, gassy stomach?

One dose of Dr. Caldwell's Syrup Pepsin will establish natural, healthy bowel movement for weeks at a time, even for those chronically constipated. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement but, best of all, it is often months before another dose is necessary. Besides, it is absolutely harmless and pleasant to take.

Buy a large 60-cent bottle at any store that sells medicine and just see for yourself.

Girl Scales Peak but, Oh, the Price

Yosemite National Park, Cal.—Miss Tecla Van Austin, of San Francisco, went forth this summer with one ambition; one slightly worn hiker's pick; one new climber's suit, and she returned with one record all her own; one pair of knickers, seatless; one pair of arms, skinned, and an oversupply of satisfaction.

Her ambition was to climb Grizzly peak. She did that. She wore out all her stockings, sundry other items of apparel and one guide. The guide gave up and returned, but Miss Austin went on until she had planted a dusty heel on the summit of the peak. After that she slid down the incline and completed the damage to her outfit.

She was the second woman to make the climb, but returning from the summit, she stepped in a baby avalanche and shattered all speed records for descent to the base of the peak.

Indians' Prayer Breaks Drought and Saves Crops

Phoenix, Ariz.—The rattlesnakes of the Hopi Indians evidently carried the prayer of the red men for rain to the spider woman of the underworld, who the Indians believe has control over the rain clouds, for heavy rains fell, breaking the long-extended drought which threatened the crops and live stock ranges of central and southern Arizona.

The Hopi Indians recently staged their annual colorful and weird snake dance at their pueblo at Waipi, near Winslow, offering up their prayers for rain by liberating hundreds of rattlesnakes, which were supposed to carry the rain prayers to the snake mother and thence to the spider woman of the underworld. The dance is one of the most fantastic of American Indian dances—the Indians wrap and wind the snakes about their bodies and even take the reptiles in their mouths during the dance with utter abandon as to the danger of the poisonous fangs.

Hair Secrets

Gleamy, Thick, Wavy Hair in a Moment

A delightful surprise awaits those who try this. When combing and dressing your hair, just moisten your hair brush with a little "Danderine" and brush it through your hair. The effect is startling! Your hair will appear twice as thick and heavy—sparkling with life and possessing that incomparable softness, freshness and luxuriance, and just delicately perfumed.

While beautifying the hair "Danderine" is also toning and stimulating each single hair to grow thick, heavy and strong. Hair stops falling out and dandruff disappears. Get a 35-cent bottle of "Danderine" at any drug or toilet counter and just see how healthy and youthful your hair appears after this delightful, refreshing dressing.

YOUR HEALTH

Kill Every Rat to Banish Dread "Pneumonic Plague"

By ROYAL S. COPELAND, M. D.
United States Senator from New York,
Former Commissioner of Health, New York City

DR. COPELAND

ONE of the great medical writers said: "Wherever plague exists an organized staff, an intelligent policy and a long purse are needed."

After the World War I was determined that the epidemic diseases raging in Europe should not enter America through the city of New York. One of my undertakings was to have systematic examinations made of the rat family, especially those to be found along the harbor line. This was done to make sure that no bubonic infected rats should be permitted to roam at large. To carry out my programme it was necessary to spend a great deal of money. Even now, it is probable the popular belief was that we were merely striving to kill off the rats and were spending much cash doing it. As a matter of fact, our men strove to cover every area of the city in order to catch rats which might be examined to see if they had bubonic plague.

Months before a community suffers from the plague, the rat population suffers and dies. An unusual death rate among rodents must give rise to the suspicion of epidemic disease in the rat family.

In health matters it is wise to be several jumps ahead of disease. To protect against the plague, or the "black death," as it is called, requires intelligence, organization and a long purse. But every dollar spent to prevent sickness and death is money well spent.

As I write there are sensational newspaper reports of many deaths in California from pneumonic plague. This is only a specialized form of the plague, but it is a very serious type of the disease.

The pneumonic plague strikes the victim without warning. High fever, pain in the chest, difficult breathing and severe cough are the early symptoms. The sputum is bloody. Blackness of the face is quickly noticed.

Sometimes there are intestinal disturbances with diarrhoea. This may mislead and give the impression that the case is one of typhoid fever.

The heart fails, the pulse is weak and the prostration is profound. Very few persons recover from the disease.

The rat is merely the vehicle. The real offender is the flea. When the rat host dies the fleas leave the cold body and jump on to the nearest animal. If this is a rat, all right, but if it is a man, the bite of the flea gives him the infection, and soon he is down with the plague.

The time will come when houses and other buildings, especially along the water front, will be given substantial foundations and made ratproof. The harborage of rats should be destroyed, and by cleanliness and orderliness the breeding places will disappear.

Science is at work to perfect a serum to control the disease and a vaccine to inoculate against it.

Answers to Health Questions

D. F. M. Q.—What causes a pain in the back between the shoulders when stooping or leaning?

A.—This is probably due to neuritis. For full particulars, send a stamped, self-addressed envelope and restate your question.

• • •

A CONSTANT READER. Q.—My 13-months-old baby has four teeth, is never sick and weighs about 20 pounds, but he perspires very freely when sleeping and seems very restless. Is this a sign of rickets?

A.—Your baby is a very good weight for his age and is apparently very healthy. You may have too many oedclothes over him at night. This would cause symptoms such as you describe. Be sure that there is plenty of air in the sleeping room and avoid too heavy covering. Also make sure that the baby is not constipated. No, this is not an indication of rickets.

• • •

MISS B. Q.—What can I use to massage the neck to fill out hollows?

A.—Try using cocoa butter. It may help you.

• • •

M. W. G. Q.—What can be done for a red nose?

• • •

M. K. Q.—How can I remove or make less noticeable two moles on my face?

A.—Moles may be made less noticeable by the use of the electric needle, but this should be done by a competent person thoroughly skilled in this particular kind of work.

• • •

MISS H. M. Q.—What would you advise for inflamed eyes?

A.—Try bathing the eyes several times a day with a warm solution of boracic acid and at night apply 1 per cent yellow oxide of mercury ointment. If the trouble persists, see an eye specialist for the further treatment advisable.

D. C. WILLS DIES AT HOSPITAL IN CLEVELAND

Heart Collapse Claims Head of Federal Reserve District.

BANKING EXPERT

Operation Revealed an Abdominal Abscess and Peritonitis.

CLEVELAND, Oct. 22.—D. C. Wills, chairman of the board of the fourth federal reserve district, died at 8 o'clock today at Grace hospital following an operation.

Wills suffered a heart collapse, physicians said.

He was taken to the hospital last Friday, where an operation was performed. Yesterday afternoon plans were made for a blood transfusion operation, his son volunteering, but his condition was so critical that the idea was given up.

Throughout the night his condition became increasingly critical.

Widely Known Banker.

Wills had been ill for some time prior to going to the hospital. His physicians diagnosed his ailment as intestinal influenza. The operation revealed an abdominal abscess, complicated by peritonitis.

One of the most widely known bankers in the middle west, Wills had been connected with the federal reserve system since its inception during the first term of President Wilson. In the closing days of the Wilson administration he was named as director of the system, but when President Harding was inaugurated in March, 1921, the nomination was withdrawn and Wills returned to his duties as head of the federal reserve bank with headquarters here.

Under his leadership the bank has played a large part in the financial affairs of the district, embracing some of the richest industrial territory in the United States.

He was born at Allegheny, Pa., August 11, 1872. He began his banking career in his early teens when he became a messenger at the Mechanics National bank of Pittsburgh. He remained with that bank until 1902, when he went to the Mellon National bank as auditor, and in 1904 was appointed cashier of the Diamond National bank, another Pittsburgh institution. In 1907 he was elected president of the Citizens' National bank at Bellevue, Pa., and he was holding that position when named chairman of the board of the newly formed Federal Reserve bank of the fourth district.

Wills was married. Four children survive.

Three-mill School Levy Will be Topic At C. of C. Conference

Members of the board of directors of the Chamber of Commerce will meet with the school board members in the chamber's room in the Little building Friday evening to discuss the proposed three-mill school levy which will be submitted at the election on Tuesday, November 3.

The school board has launched a campaign to seek support of the levy, which it is declared, is merely a renewal of the tax which has been in effect for the last five years.

The present levy is 8.71 mills. Should the electors fail to approve the extra millage, the levy will be cut to 5.71 and the schools revenue from taxation reduced approximately 35 per cent. This would mean a closing of schools at the end of the sixth or the seventh month of the term, the board contends.

Elmer Firestone, 61, Dies in California; Ship Body to Ohio

Body of Elmer Firestone, 61, and brother of Harvey Firestone, millionaire tire manufacturer, of Akron, who died in his home in Los Angeles, Cal., Wednesday, will be taken to his former home in Columbiana for burial.

Mr. Firestone was formerly the San Francisco manager of the firm of which his brother is head and in which he was a large stockholder.

LOS ANGELES, Cal., Oct. 22.—Solemn requiem high mass for Elmer E. Firestone, brother of Harvey Firestone, tire manufacturer, was celebrated here today. The body will be sent tonight to Columbiana, Ohio, Firestone's birthplace, for interment.

LABORER KILLED BY LOCOMOTIVE

CINCINNATI, Oct. 22.—Fulton Killbrow, 35, a section gang laborer, was killed instantly today when he stepped in front of a Big Four locomotive west of Troutman station. Killbrow had lived in a railroad camp car at the foot of Clyde street, Riverside.

TODAY

(Continued from Page One)

Lloyd George says our prohibition laws are not the work of cranks, and are making America "the most prosperous country under the sun, not because they have not the drink."

We have some drinks, a pretty bad kind unfortunately. But no longer in big cities does the number of saloons equal the number of policemen and school teachers. Once in New York there were 8,000 school teachers and 8,000 open saloons. Now there are about twice as many school teachers, and not one legally open saloon. That's an improvement.

Many not in favor of drunkenness, but of real temperance, believe with Thomas Jefferson that light beer for workmen, light wine for other classes, ice water for those that prefer it, would be the right plan. Meanwhile we are piling up wealth and trying an interesting experiment.

Congressman's Address.

The modern method of governmental expenditures was explained by Congressman Murphy who pointed to the budget law as the cause of immense savings in the nation's expenses within the last few years.

Explains Budget System.

Referring to the budget system of government operation, Mr. Murphy explained that the methods in use now which were created through the house of representatives and not by any executive suggestion might well be studied by municipal, county and state authorities.

"Your high taxes,' he pointed out, "are in your city, your county, your state. Don't find fault with the nation."

The budget system, Mr. Murphy said, had enabled the government since 1921 to cut the national debt by $6,000,000, decrease income tax rates twice, with another straight cut of 25 per cent, and gives every prospect of another slash by the next congress.

The budget measure, he said, after being worked out by congress, was vetoed by a former president, but during the administration of President Harding, was approved and put into effect. And then the ancient methods of appropriating funds for governmental expenses were superseded by a business-like methodical system that aimed at the curtailment of every cent of unnecessary expense in any department. Since 1921, he said, the cost of operation has been cut squarely in two as a result of the budget.

"But," he said, "we can't lower the taxes many people complain of, because they are local."

He referred to Martin Madden of Chicago, chairman of the appropriations committee, as one of the most powerful men in government circles. Madden, he explained, holds the purse strings of the country and his word is law on governmental expenditures.

Denounces Mind-poisoning

Mr. Murphy said there are three branches of government, but that only the legislative branch belongs to "you." From this the speaker launched into a history of the work done by congress, saying that "Congress has been misrepresented by propaganda. They have tried to poison the minds of people, making them believe that there is a want of cooperation between congress and the president." Mr. Murphy roundly denounced such reports and claimed that only by the harmony that exists between the legislative and executive branches of the government could such great work be done as has been done. He saved his strongest denunciations, however, for what he termed to be an effort to make people believe that congress is composed of "weaklings." Making the denial concrete, Mr. Murphy said "I want you to know that I am no weakling. I am as good as any man here, morally, in business or any other way."

weeks. A small tuition fee will be charged.

Aproximately $2,500 worth of equipment has been installed in the basement of the Central school building where class rooms have been established. Cost of equipping the class room was advanced by manufacturers in the East Liverpool district interested in the establishment of the course—the only one of its kind in the state outside the ceramics school at Ohio State university.

Salary of the instructor for the first year will be paid by the state. After that it will be borne jointly by the state and local educational authorities.

All persons who are interested in the proposed course are urged to enroll Monday evening. Ceramic engineers employed in the research departments of local plants will co-operate with the school authorities in establishing the course.

Boys Soap Street Car Tracks; Mayor Warns Pranksters

Youthful pranksters, prematurely celebrating Hallowe'en, caused difficulties on the Grandview street car line in the Maplewood district last night.

The street car tracks were soaped for more than 300 feet on a steep grade. When the car hit the soaped section, its wheels turned but it was unable to move until the tracks were sanded.

Mayor Brown today warned against early celebration of Hallowe'en. Many complaints have been received by the police during the last week or ten days of depredations alleged to have been committed by children. Police have been instructed to arrest offenders.

POLICE RAID HOME ON Y. & O.

Louis Noble Charged With Possession of Liquor.

Louis Noble, residing near Stop 54 on the Y. & O. railroad, was arrested by Turnkey William Cline and Special Officer Walter Torrence at his home late last night, charged with the illegal possession of intoxicating liquor.

Two gallons of moonshine whiskey, a large quantity of mash and copper still are alleged to have been found in the house. The liquor and still were brought to the city hall in Turnkey Cline's private automobile.

Upon arraignment before Mayor Brown, Noble was found guilty and fined $500 and costs. He was committed to jail when he said he was unable to pay his fine.

Thomas Beaver, who was arrested when police raided a Mulberry street pool room last Saturday afternoon, has been released from custody. Beaver paid one half of his $500 fine, Mayor Brown said.

Armistice Day

requested to display the flag on standards in front of their stores.

Here is the special bulletin sent members of the Merchants' division of the chamber:

"The mercantile establishments in practically all of the larger cities of Ohio are arranging to adopt the two-minutes-of-silence' plans in the observance of Armistice day. In other words, instead of closing for a part of the day, the stores will, promptly at 11 o'clock, suspend all operations for exactly two minutes.

"The advertising committee of the Retail Merchants' division of the Chamber of Commerce has gone into this matter and urges all members of the divlion to follow this plan. It can be made very effective if all clerks are advised that they must suspend activities with their customers at exactly 11 o'clock and stand at attention for two minutes.

"This year Armistice day falls on Wednesday in what should be one of the busiest retail selling weeks of the year. A complete interruption of business for even half a day would be exceedingly expensive to merchant and the shorter plan outlined above is really more impressive.

"The committee also requests that all merchants properly display the American flag in their standards in front of their stores and decorate their places of business in a fitting manner."

The bulletin is signed by W. O. Bloor, M. J. Newman and H. B. Barth, members of the advertising committee of the division.

There will be no public demonstration in observance of the day by local veteran organizations, although the Sons of Italy are planning a street parade, band concerts and a fireworks display at night. The merchants have promised to release ex service men in their employ for the day or a part of the day in event of a parade or other celebration.

cording to complaints made to the department of commerce.

Although there are far too many stations on the air several hundred applications for new broadcasting permits are now in the hands of Chief Radio Inspector W. D. Terrell. A temporary halt in issuances of licenses has been called until congress has a chance to lay down a schedule of requirements for the broadcasters.

Officials feel that it will be necessary to eliminate many of the stations now on the air or force them to remain silent at certain periods.

Canada, it was learned today, will be represented at the conference here next month. It was expected the Canadian government would extend its cooperative arrangement with the United State to prevent inter-nation interference. Already Canada has agreed to limitation of code broadcasting on Canadian ships near American shores.

100 Persons Shaken When Pennsy Train And Engine Crash

CLEVELAND, Oct. 22.—Nearly 100 passengers were badly shaken up, but otherwise uninjured today when a Pennsylvania passenger train, Cleveland bound, collided with a switch engine one mile north of Bedford.

The vision of the engineers was obscured by a dense fog. Officials here said it was only the quick and accurate work of the train crew in applying emergency brakes that prevented a serious accident.

Windows in the passenger train were broken by the force of the impact. The switch engine was badly damaged. Members of both trains escaped except for slight bruises.

Moonshine-Crazed Man Hacks Wife to Death, Kills Self

MARION, Mass., Oct. 22—As their four little children slept peacefully in an adjoining room, Albert Bourgeault, 45, crazed with moonshine liquor, early today hacked his wife to death with an ax and then ended his own life by severing the juglar vein with a razor.

Moyer-Wasby Suit

(Continued from Page One)

Attorney R. G. Thompson, representing Mrs. Wasby, and Attorney George E. Davidson, counsel for Moyer Brothers.

The injunction case had its beginning in common pleas court at Lisbon early last May when Moyer Brothers were granted a temporary restraining order. The plaintiffs charged that their lease on the site did not expire for several years and that a one-story building would be insufficient to meet their needs. Later the temporary injunction was dissolved by the county court.

Counsel for Moyer Brothers carried the case to the court of appeals, which referred it back to the common pleas court for a hearing and a ruling. The hearing in the common pleas court resulted in a victory for Mrs. Wasby. The case was again carried to the court of appeals and was slated for a hearing in November.

Work on the new structure is to be rushed in an effort to have it under roof before cold weather, if possible.

Charles Floto, 78, Wellsville, Dies In Mercy Hospital

Charles Floto, 78 years old, of Wellsville, died this morning in the Mercy hospital, Pittsburgh, following a short illness of pneumonia.

He had been a resident of Wellsville for nearly 40 years. Although born in Germany, he spent the greater part of his life in this country. His wife died a year and a half ago. For the last two or three months he has been residing with a daughter, Mrs. Charles Miller, of Pittsburgh.

He was a pensioner of the American Sheet and Tin Plate plant here, and a former employe of the Stevenson Foundry company.

The following children survive: Carl, Mrs. William Rosenberg, John and Albert, of Wellsville; Mrs. Charles Miller, Pittsburgh; William, of Glassport, Pa.; two brothers, Henry, of Wheeling, and A. L. Floto, of Pittsburgh; and two sisters, Mrs. J. H. Bush, of Philadelphia, and Mrs. Fred Layman, of Steubenville. In addition, 15 grandchildren are living.

The body will be removed to the D. N. MacLean funeral home in Wellsville this evening and later taken to the home of a son, John Floto, 926 Main street, where it may be viewed by friends tomorrow evening. Funeral arrangements have not been completed.

Power and Asbury Classes Will Give Banquet Tonight

A banquet for members of the Power and Asbury classes of the First Methodist Episcopal Sunday school will be held in the social rooms of the church at 6:30 o'clock tonight. Arrangements are being made to entertain approximately 150 men.

The dinner, to be served by the ladies of the church, will be followed by a program of sports, including competitive games of volley ball and other athletic events, in the church gymnasium.

The Power class is taught by Charles R. Boyce, while Mark Brownlow is teacher of the Asbury class.

Woman is Stabbed To Death; Husband Is Found Dying

NEW YORK, Oct. 22.—Stabbed in the back, Mrs. Rose Franschino, 46, was found slain in the cellar of a tenement on East 107 street today.

On the floor above her husband, Frank Franschino, 63, was found dying from half a dozen wounds in the chest.

REPORTS FROM STOCK MARKET

NEW YORK, Oct. 22.—The oil stocks led a brisk and active advance in the early trading on the stock market today. Pan-American supplanted Marland as the leader of the independent oil group, and moved up 2 points to 71½ in the first half-hour. Independent Oil and Gas gained 3 points in the same period, while about a score of the well known oil shares rose a point or less in active trading.

The move in copper stocks gained considerable momentum, a direct response to the firmer trend of the copper metal market and the influence of heavy buying orders for the red metal from home and abroad. American Smelting sold near its record high price; Calumet and Arizona, Cerro De Pasco, Magma, Anaconda and other copper stocks featured a strong and active market, with prices up a point or more. The market surged and boiled in the first hour as buying orders flowed in from every direction, and sales in this period aggregated 637,600 shares.

United States Steel returned to position of leadership in the industrial list, and advanced to around 126¾, against its previous closing price of 125⅝. Estimates of the corporation's earnings for the third quarter are very favorable, notwithstanding that the mills were not as active as in the preceding quarter, but price changes in that period were almost invariably upward.

With the exception of Hudson, which moved up 4 points to 99, the motors were featureless and generally inactive.

The utility, mercantile and specialty stocks moved upward in brisk trading. United States Distributing jumped 5 points to 40.

Rails were inactive but firm.

Call money renewals 4½ per cent.

COCO-COD

for health

TO pure cod liver oil, which doctors prescribe generally, have been blended the essential vitamins — A B C and D — derived from vegetables, eggs, yeast and rice! This then is mixed with chocolate, America's favorite.

And the result is cod liver oil, made easy to take—Coco-Cod, vitalizing and body-building! It's the new vitamin concentrate—a tonic young and old alike find effective. And it is recommended particularly in the treatment of anaemia, nervous disorders, undernourishment, rickets, general run-down and convalescent conditions. It promotes endurance—and powers of resistance. It feeds the system with strength and energy. It puts people in the "pep" class— as Charles Evans of 204 Thornhill Street, Xenia, Ohio, so aptly expresses it:

"Coco-Cod put me back in the "pep" class after I had been feeling overworked, tired and nervous for some time."

So if you, too, have a lackadaisical sort of a feeling—tired, over-worked and nervous—renew your energy and virility—

Begin to-day to use Coco-Cod for health

D. C. WILLS DIES AT HOSPITAL IN CLEVELAND

Heart Collapse Claims Head of Federal Reserve District.

BANKING EXPERT

Operation Revealed an Abdominal Abscess and Peritonitis.

CLEVELAND, Oct. 22.—D. C. Wills, chairman of the board of the fourth federal reserve district, died at 8 o'clock today at Grace hospital following an operation.

Wills suffered a heart collapse, physicians said.

He was taken to the hospital last Friday, where an operation was performed. Yesterday afternoon plans were made for a blood transfusion operation, his son volunteering, but his condition was so critical that the idea was given up.

Throughout the night his condition became increasingly critical.

Widely Known Banker.

Wills had been ill for some time prior to going to the hospital. His physicians diagnosed his ailment as intestinal influenza. The operation revealed an abdominal abscess, complicated by peritonitis.

One of the most widely known bankers in the middle west, Wills had been connected with the federal reserve system since its inception during the first term of President Wilson. In the closing days of the Wilson administration he was named as director of the system, but when President Harding was inaugurated in March, 1921, the nomination was withdrawn and Wills returned to his duties as head of the federal reserve bank with headquarters here.

Under his leadership the bank has played a large part in the financial affairs of the district, embracing some of the richest industrial territory in the United States.

He was born at Allegheny, Pa., August 11, 1872. He began his banking career in his early teens when he became a messenger at the Mechanics National bank of Pittsburgh. He remained with that bank until 1902, when he went to the Mellon National bank as auditor, and in 1904 was appointed cashier of the Diamond National bank, another Pittsburgh institution. In 1907 he was elected president of the Citizens' National bank at Bellevue, Pa., and he was holding that position when named chairman of the board of the newly formed Federal Reserve bank of the fourth district.

Wills was married. Four children survive.

Three-mill School Levy Will be Topic At C. of C. Conference

Members of the board of directors of the Chamber of Commerce will meet with the school board members in the chamber's room in the Little building Friday evening to discuss the proposed three-mill school levy which will be submitted at the election on Tuesday, November 3.

The school board has launched a campaign to seek support of the levy, which it is declared, is merely a renewal of the tax which has been in effect for the last five years.

The present levy is 8.71 mills. Should the electors fail to approve the extra millage, the levy will be cut to 5.71 and the schools revenue from taxation reduced approximately 35 per cent. This would mean a closing of schools at the end of the sixth or the seventh month of the term, the board contends.

President Lewis subsequently named Cline, C. C. Ashbaugh and Walter B. Hill as members of a committee to investigate the possibility of athletic reconciliation between the Blue and White and the Orange and Black.

Congressman's Address.

The modern method of governmental expenditures was explained by Congressman Murphy who pointed to the budget law as the cause of immense savings in the nation's expenses within the last few years.

Explains Budget System.

Referring to the budget system of government operation, Mr. Murphy explained that the methods in use now which were created through the house of representatives and not by any executive suggestion might well be studied by municipal, county and state authorities.

"Your high taxes,' he pointed out, "are in your city, your county, your state. Don't find fault with the nation."

The budget system, Mr. Murphy said, had enabled the government since 1921 to cut the national debt by $6,000,000, decrease income tax rates twice, with another straight cut of 25 per cent, and gives every prospect of another slash by the next congress.

The budget measure, he said, after being worked out by congress, was vetoed by a former president, but during the administration of President Harding, was approved and put into effect. And then the ancient methods of appropriating funds for governmental expenses were superseded by a business-like methodical system that aimed at the curtailment of every cent of unnecessary expense in any department. Since 1921, he said, the cost of operation has been cut squarely in two as a result of the budget.

"But," he said, "we can't lower the taxes many people complain of, because they are local."

He referred to Martin Madden of Chicago, chairman of the appropriations committee, as one of the most powerful men in government circles. Madden, he explained, holds the purse strings of the country and his word is law on governmental expenditures.

Denounces Mind-poisoning

Mr. Murphy said there are three branches of government, but that only the legislative branch belongs to "you." From this the speaker launched into a history of the work done by congress, saying that "Congress has been misrepresented by propaganda. They have tried to poison the minds of people, making them believe that there is a want of cooperation between congress and the president." Mr. Murphy roundly denounced such reports and claimed that only by the harmony that exists between the legislative and executive branches of the government could such great work be done as has been done. He saved his strongest denunciations, however, for what he termed to be an effort to make people believe that congress is composed of "weaklings." Making the denial concrete, Mr. Murphy said "I want you to know that I am no weakling. I am as good as any man here, morally, in business or any other way."

weeks. A small tuition fee will be charged.

Aproximately $2,500 worth of equipment has been installed in the basement of the Central school building where class rooms have been established. Cost of equipping the class room was advanced by manufacturers in the East Liverpool district interested in the establishment of the course—the only one of its kind in the state outside the ceramics school at Ohio State university.

Salary of the instructor for the first year will be paid by the state. After that it will be borne jointly by the state and local educational authorities.

All persons who are interested in the proposed course are urged to enroll Monday evening. Ceramic engineers employed in the research departments of local plants will co-operate with the school authorities in establishing the course.

Boys Soap Street Car Tracks; Mayor Warns Pranksters

Youthful pranksters, prematurely celebrating Hallowe'en, caused difficulties on the Grandview street car line in the Maplewood district last night.

The street car tracks were soaped for more than 300 feet on a steep grade. When the car hit the soaped section, its wheels turned but it was unable to move until the tracks were sanded.

Mayor Brown today warned against early celebration of Hallowe'en. Many complaints have been received by the police during the last week or ten days of depredations alleged to have been committed by children. Police have been instructed to arrest offenders.

POLICE RAID HOME ON Y. & O.

Louis Noble Charged With Possession of Liquor.

Louis Noble, residing near Stop 54 on the Y. & O. railroad, was arrested by Turnkey William Cline and Special Officer Walter Torrence at his home late last night, charged with the illegal possession of intoxicating liquor.

Two gallons of moonshine whiskey, a large quantity of mash and copper still are alleged to have been found in the house. The liquor and still were brought to the city hall in Turnkey Cline's private automobile.

Upon arraignment before Mayor Brown, Noble was found guilty and fined $500 and costs. He was committed to jail when he said he was unable to pay his fine.

Thomas Beaver, who was arrested when police raided a Mulberry street pool room last Saturday afternoon, has been released from custody. Beaver paid one half of his $500 fine, Mayor Brown said.

Armistice Day

(Continued from Page One)

requested to display the flag on standards in front of their stores.

Here is the special bulletin sent members of the Merchants' division of the chamber:

"The mercantile establishments in practically all of the larger cities of Ohio are arranging to adopt the two-minutes-of-silence' plans in the observance of Armistice day. In other words, instead of closing for a part of the day, the stores will, promptly at 11 o'clock, suspend all operations for exactly two minutes.

"The advertising committee of the Retail Merchants' division of the Chamber of Commerce has gone into this matter and urges all members of the divlion to follow this plan. It can be made very effective if all clerks are advised that they must suspend activities with their customers at exactly 11 o'clock and stand at attention for two minutes.

"This year Armistice day falls on Wednesday in what should be one of the busiest retail selling weeks of the year. A complete interruption of business for even half a day would be exceedingly expensive to merchant and the shorter plan outlined above is really more impressive.

"The committee also requests that all merchants properly display the American flag in their standards in front of their stores and decorate their places of business in a fitting manner."

The bulletin is signed by W. O. Bloor, M. J. Newman and H. B. Barth, members of the advertising committee of the division.

There will be no public demonstration in observance of the day by local veteran organizations, although the Sons of Italy are planning a street parade, band concerts and a fireworks display at night. The merchants have promised to release ex service men in their employ for the day or a part of the day in event of a parade or other celebration.

cording to complaints made to the department of commerce.

Although there are far too many stations on the air several hundred applications for new broadcasting permits are now in the hands of Chief Radio Inspector W. D. Terrell. A temporary halt in issuances of licenses has been called until congress has a chance to lay down a schedule of requirements for the broadcasters.

Officials feel that it will be necessary to eliminate many of the stations now on the air or force them to remain silent at certain periods.

Canada, it was learned today, will be represented at the conference here next month. It was expected the Canadian government would extend its cooperative arrangement with the United State to prevent inter-nation interference. Already Canada has agreed to limitation of code broadcasting on Canadian ships near American shores.

100 Persons Shaken When Pennsy Train And Engine Crash

CLEVELAND, Oct. 22.—Nearly 100 passengers were badly shaken up, but otherwise uninjured today when a Pennsylvania passenger train, Cleveland bound, collided with a switch engine one mile north of Bedford.

The vision of the engineers was obscured by a dense fog. Officials here said it was only the quick and accurate work of the train crew in applying emergency brakes that prevented a serious accident.

Windows in the passenger train were broken by the force of the impact. The switch engine was badly damaged. Members of both trains escaped except for slight bruises.

Moonshine-Crazed Man Hacks Wife to Death, Kills Self

MARION, Mass., Oct. 22—As their four little children slept peacefully in an adjoining room, Albert Bourgeault, 45, crazed with moonshine liquor, early today hacked his wife to death with an ax and then ended his own life by severing the juglar vein with a razor.

Mrs. Johnson is survived by her husband and one daughter, Gorgea Glethlen, of Atlantic City, N. J.

Moyer-Wasby Suit

(Continued from Page One)

Attorney R. G. Thompson, representing Mrs. Wasby, and Attorney George E. Davidson, counsel for Moyer Brothers.

The injunction case had its beginning in common pleas court at Lisbon early last May when Moyer Brothers were granted a temporary restraining order. The plaintiffs charged that their lease on the site did not expire for several years and that a one-story building would be insufficient to meet their needs. Later the temporary injunction was dissolved by the county court.

Counsel for Moyer Brothers carried the case to the court of appeals, which referred it back to the common pleas court for a hearing and a ruling. The hearing in the common pleas court resulted in a victory for Mrs. Wasby. The case was again carried to the court of appeals and was slated for a hearing in November.

Work on the new structure is to be rushed in an effort to have it under roof before cold weather, if possible.

Charles Floto, 78, Wellsville, Dies In Mercy Hospital

Charles Floto, 78 years old, of Wellsville, died this morning in the Mercy hospital, Pittsburgh, following a short illness of pneumonia.

He had been a resident of Wellsville for nearly 40 years. Although born in Germany, he spent the greater part of his life in this country. His wife died a year and a half ago. For the last two or three months he has been residing with a daughter, Mrs. Charles Miller, of Pittsburgh.

He was a pensioner of the American Sheet and Tin Plate plant here, and a former employe of the Stevenson Foundry company.

The following children survive: Carl, Mrs. William Rosenberg, John and Albert, of Wellsville; Mrs. Charles Miller, Pittsburgh; William, of Glassport, Pa.; two brothers, Henry, of Wheeling, and A. L. Floto, of Pittsburgh; and two sisters, Mrs. J. H. Bush, of Philadelphia, and Mrs. Fred Layman, of Steubenville. In addition, 15 grandchildren are living.

The body will be removed to the D. N. MacLean funeral home in Wellsville this evening and later taken to the home of a son, John Floto, 926 Main street, where it may be viewed by friends tomorrow evening. Funeral arrangements have not been completed.

Power and Asbury Classes Will Give Banquet Tonight

A banquet for members of the Power and Asbury classes of the First Methodist Episcopal Sunday school will be held in the social rooms of the church at 6:30 o'clock tonight. Arrangements are being made to entertain approximately 150 men.

The dinner, to be served by the ladies of the church, will be followed by a program of sports, including competitive games of volley ball and other athletic events, in the church gymnasium.

The Power class is taught by Charles R. Boyce, while Mark Brownlow is teacher of the Asbury class.

Woman is Stabbed To Death; Husband Is Found Dying

NEW YORK, Oct. 22.—Stabbed in the back, Mrs. Rose Franschino, 46, was found slain in the cellar of a tenement on East 107 street today.

On the floor above her husband, Frank Franschino, 63, was found dying from half a dozen wounds in the chest.

REPORTS FROM STOCK MARKET

NEW YORK, Oct. 22.—The oil stocks led a brisk and active advance in the early trading on the stock market today. Pan-American supplanted Marland as the leader of the independent oil group, and moved up 2 points to 71½ in the first half-hour. Independent Oil and Gas gained 3 points in the same period, while about a score of the well known oil shares rose a point or less in active trading.

The move in copper stocks gained considerable momentum, a direct response to the firmer trend of the copper metal market and the influence of heavy buying orders for the red metal from home and abroad. American Smelting sold near its record high price; Calumet and Arizona, Cerro De Pasco, Magma, Anaconda and other copper stocks featured a strong and active market, with prices up a point or more. The market surged and boiled in the first hour as buying orders flowed in from every direction, and sales in this period aggregated 637,600 shares.

United States Steel returned to position of leadership in the industrial list, and advanced to around 126¾, against its previous closing price of 125¾. Estimates of the corporation's earnings for the third quarter are very favorable, notwithstanding that the mills were not as active as in the preceding quarter, but price changes in that period were almost invariably upward.

With the exception of Hudson, which moved up 4 points to 99, the motors were featureless and generally inactive.

The utility, mercantile and specialty stocks moved upward in brisk trading. United States Distributing jumped 5 points to 40.

Rails were inactive but firm.

Call money renewals 4½ per cent.

"Third—The essays are limited to 500 words and must be in the hands of the judges not later than January 1, 1926. The winner will be announced on Arbor day of 1926, and the formal award will be made at the state convention of the Ohio Federation of Women's Clubs in the spring of 1926.

"Fourth—There will be five state judges selected with the approval of the Ohio Federation of Women's Clubs. The award will be made absolutely on merit, and irrespective of race, religion or social station.

"Fifth — These essays are to deal with some phase of the subject of forest conservation including either the conservation of our existing supply or the reforestation of denuded lands, or both. It is permissible to make the subject apply to Ohio but it is preferred that the subject be approached first from a national standpoint.

"Sixth—The overwhelming consideration in the judgment of these essays will be the thought that is put into them more than the literary style. It is the thought that is most desired.

"Seventh—A limited amount of useful and informative literature will be furnished to each writer direct from the office of Mrs. W. W. Milar, state chairman of conservation for the Ohio Federation of Women's Clubs. There will also be furnished a list of books, magazines and pamphlets recommended for supplemental reading if the writer desires to consult them."

COCO-COD

for health

TO pure cod liver oil, which doctors prescribe generally, have been blended the essential vitamins — A B C and D — derived from vegetables, eggs, yeast and rice! This then is mixed with chocolate, America's favorite.

And the result is cod liver oil, made easy to take—Coco-Cod, vitalizing and body-building! It's the new vitamin concentrate—a tonic young and old alike find effective. And it is recommended particularly in the treatment of anaemia, nervous disorders, undernourishment, rickets, general run-down and convalescent conditions. It promotes endurance—and powers of resistance. It feeds the system with strength and energy. It puts people in the "pep" class— as Charles Evans of 204 Thornhill Street, Xenia, Ohio, so aptly expresses it:

"Coco-Cod put me back in the "pep" class after I had been feeling overworked, tired and nervous for some time."

So if you, too, have a lackadaisical sort of a feeling—tired, over-worked and nervous—renew your energy and virility—

Begin to-day to use Coco-Cod for health

Sold by all good druggists

ATTENTION, PHYSICIANS!

Physicians everywhere are prescribing Coco-Cod where the occasion calls for Cod Liver Oil.

If you would like to test, examine or analyze Coco-Cod, write us on your letter-head and we shall gladly send you a bottle free of charge.

People Notice It. Drive Them Off With Dr. Edwards' Olive Tablets.

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful; substitute for calomel there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 15c and 30c.

SERIES OF ROAD MEETS PLANNED

Program as Proposed by Commissioners to be Discussed.

A series of meetings, at which time the road program for 1926 as proposed by the county commissioners will be discussed have been scheduled to be held next week, but the exact dates and names of speakers have not been selected. This detail, however, will be closed before the week end.

At a meting of Butler grange tonight, Commissioner Conrad Berg and L. H. Johnson, clerk to the board will speak and will explain in detail the proposed program and also the financing of the projects through the proposed $950,000 bond issue.

Knox township will have a road meeting in the Grange hall Friday night.

Meetings that will be scheduled to be held next week include No. 9 school, St. Clair township, Summitville, Centralized school, Fairfield township; Willow Grove Grange hall, Hanoverton and Wayne township.

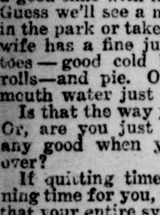
A meeting was held at Midway Grange Wednesday night at which time Commissioner Berg explained the financing of the new road program, after which a meeting of farmers was held at Salem which was attended by Mr. Berg and Mr. Johnson.

Oil Lease Transferred.

The record has been made showing that H. H. Hyland, Jr., has transferred a number of oil and gas leases he held in Fairfield township as being transferred to the Big Seven Oil and Gas company. These include the leases held on the farms of Martha E. McBurney, Charles E. Miller, Charles E. Eckert and H. L. McBurney.

Hyland has also taken a lease on a 10-acre farm in Fairfield township owned by Minnie O. Lower.

Feel Splendid! Nicest Laxative, "Cascarets" 10c



Don't stay headachy, dizzy, bilious, constipated, sick!

One or two pleasant candy-like "Cascarets" taken any time will mildly stimulate your liver and start you bowels. Then you will both look and feel clean, sweet and refreshed. Your head will be clear, stomach sweet, tongue pink and your skin rosy.

Because "Carcarets" never gripe or sicken, it has become the largest selling laxative in the world.

Directions for men, women, children on each box—any drug store.

How do you feel at 5 o'clock?

"ANOTHER day's work done! Now, for a regular dinner—and a good time with the wife and kiddies! Guess we'll see a movie, go for a walk in the park or take a long ride. Bet my wife has a fine juicy steak and potatoes—good cold buttermilk and hot rolls—and pie. Oh, Boy! makes my mouth water just to think of it."

Is that the way you feel at 5 P. M.? Or, are you just too played out for any good when your day's work is over?

If quitting time isn't really beginning time for you, then it's a sure sign that your entire system is starving for healthy, rich, red blood. And this is just as sure a sign that you need S. S. S. You've simply got to build up your blood.

For 100 years S. S. S. has been proving that a run-down system, rheumatism, loss of weight, loss of appetite, sleeplessness and nervousness, just as skin eruptions—boils, pimples, pale complexion and a lowered vitality, are all the result of blood weak in red cells.

Once let S. S. S. get to work and the joy of living will come back. 5 P. M. will have a different meaning to you. Get S. S. S. today. All druggists sell it. The larger size is more economical.

FARMERS REPORT PETTY ROBBERIES

Numerous robberies have been reported to Sheriff George Wright during the last few days by farmers. In one instance 15 bushels of potatoes were dug out of the field on a farm in St. Clair township, and from an orchard in Salem township 25 bushels of apples were taken. From a farm in Hanover township a barrel of new cider was taken and from another farm corn lying in the field after being shocked was stolen.

In several of these thefts clues have been obtained by Sheriff Wright and Deputy Sheriff Lawrence Kindsvatter.

14 NEW JURORS ARE SUMMONED

Fourteen names have been drawn from the jury wheel, and those summoned have been ordered to report for duty at 9:30 o'clock next Monday morning. Those who have been drawn are:

East Liverpool — Karl W. Gero, Charles L. Skinnell, John W. Golden, Shelton O. Sowards, John R. Stoddard.

Salem—J. T. Smith, Lee Chamberlain, Claudie Campbell.

Wellsville—A. G. Boyd, James Orr, Sr.

Salineville—John McIntosh, Ira Rice.

Clarkson—John M. Gaston.

Beloit R. D.—Margaret A. McDaniel.

Grange Took No Action.

Instead of Clarkson grange recently endorsing the proposed $950,000 bond issue for good roads as was announced, it was a community meeting held in the Grange hall following the Grange meeting that gave unanimous endorsement to the program. It is announced that Grange meetings never give endorsement to any project.

Case Closed.

In the case of Getrude Patterson of West township against Anne Patterson, a judgment on the verdict has been rendered in common pleas court No. 1 by James G. Moore. This judgment found that the paper writing was not the last valid will and testament of Percy L. Patterson, deceased, and the costs in the action have been placed against the plaintiff. Patterson committed suicide last year and there has been a court contest over the beneficiary of a life insurance policy. The judgment closes the case.

Case Settled.

The case filed in common pleas court on appeal of Charles Burris against the Modern Transit company, wherein judgment on a claim for $35 was sought on account of an automobile accident, has been settled out of court. The action was first tried in a justice of the peace court at East Liverpool, and was then appealed by the defendant to common pleas, after judgment of the lower court was rendered in favor of the plaintiff.

Leave to File Answer.

Leave has been given the Big Seven Oil company to file its answer October 26 in the case now pending in common pleas court of the First National bank of East Palestine against Robert A. Pow and others. Foreclosure is asked in the original petition.

Judgment Taken.

Judgment for $1,331.78 has been taken in common pleas court in the case of E. R. Aldridge against W. W. and Elizabeth I. Long. A decree for the foreclosure of a mortgage was handed down by the court and the sale of the premises ordered. The original action was based on a claim for $1,200, but with added interest the judgment shows an increase.

Quit Getting Up Nights

A Healthy Bladder Acts During the Day

C. N. Shuman, Republic Ohio, says: "Before taking Lithiated Buchu (Keller Formula) had to get up six or seven times each night. Now I do not get up at all. You may use my name if it would benefit anyone with bladder trouble." Be careful not to take drugs that check the action of the bladder. You may have to continue its use. Lithiated Buchu (Keller Formula) increases the action during the day. It cleanses the bladder as epsom salts do the bowels driving out foreign matter, neutralizing excess acids, thereby relieving the irritation which causes "Getting Up Nights." The tablets cost 2c each at all drug stores or Keller Laboratory, Mechanicsburg, Ohio. Locally at J. D. Holloway, Druggist.

Guilford, State Park Site, Laid Out for Building in 1835

The intent of the state of Ohio to establish a state park at Guilford has recalled to the mind of the older residents of that part of Hanover township the time when the town of Guilford was "laid out."

It was the projection of the Sandy and Beaver canal in 1835 that the eastern section of Hanover township began to feel elated over the prospects of a thriving community being established in the northeastern part of the township.

The receipt of the first work of the intent to construct a canal through that part of the township caused Dr. George McCook, J. G. Willyard and Jacob Schreiber to purchase from John Menzer the northeast part of section 12, Hanover township. Menzer, who was an early settler in the township, had made a clearing and had built for himself and his family a log cabin.

After Menzer had sold his land, the purchasers laid out the little town of Guilford and advertised far and wide the advantages that were to be gained by owning a lot in Guilford, and of what benefits were to arise from the construction of the canal.

Then an auction sale of lots was proclaimed.

John Hanna and Samuel Fugat then acquired land in the southeast part of section 12 and likewise laid out a plan of lots.

The day of the sale of lots arrived, and it is now recalled that upwards of 3,000 people traveled to the new town site from all parts of eastern Ohio, Pennsylvania, the then Virginia and from other states. Excitement run high. Although the land had not been cleared — native timber still standing, there was no letup in the demand for lots. They sold fast and at a sellers market, the prices being considered high in those early days.

The construction of the canal was then in progress. The chief engineer was named Gill and it was decided by the land owners to name the community "Guillford" in honor of the engineer in charge.

It is now recalled that the lots put up at auction sold up to $250, but after the canal project proved to be a "flivver" the same lots were sold to others for as low as 50 cents and $1 each. As early as 1836 "Guillford" had a population of around 500. Stores and taverns were opened. Caleb Hawley opened the first store. James Graham opened the second. Samuel Boots, a farmer, sold his land, moved to "Guillford," bought land and opened the largest tavern and for two years he is reported to have done an immense business, as the town was then located on the "state road."

The town was incorporated in 1836 and Thomas Brandon was elected the first mayor. Taverns were opened thickly. Travel through "Guillford" was heavy. Owners did a big business, so old residents assert.

And now, after Guilford has lain dormant for many years it is to again come to life, and all because the state park is proposed and is assured of early construction.

It has been estimated that $15,000 will be required to repair the bridge and build a new concrete waste way. The plan shows the new concrete waste way to be 64 by 84 feet with four 24-inch outlet pipes extending under a 10-inch concrete slab and emptying into the same outlet as the water that flows over the waste way. Five spawning pools on the south of the dam will be fed by fresh water.

The Joy of Motherhood

JUST how to make motherhood a joy is one of the most important things in the world for you to know, right now, mother-to-be! Learn the great truth; use the simple method of an eminent physician who dedicated his life's work to this *great accomplishment* for your benefit!

"I was in labor only 25 minutes with my last child, but suffered agonies with three previous children," writes an enthusiastic mother who used Mother's Friend. *Great has been the praise of Mother's Friend for over three generations!*

Mother's Friend possesses the qualities to *penetrate* beyond the skin and soothe the network of ligaments across the abdomen, hips and back and lubricate the skin, nerves and muscles as month follows month. Finally, it makes motherhood a joy! Mother's Friend is safe—it contains no harmful drugs. Right now, from this day on, and right up to the day of childbirth Mother's Friend should be used!

Mother! Insist on Mother's Friend—the same as used by our mothers and grandmothers—don't wait—start using tonight—and meanwhile write Bradfield Regulator Co., Dept. 34, Atlanta, Ga., for *free* valuable booklet "Motherhood and the Coming Baby" (sent in plain envelope). It tells how Mother's Friend can help you during expectancy and at childbirth. This booklet also tells you many other things you want to know. "Mother's Friend" is sold by all druggists—*everywhere.*

AILMENTS OF YOUNG GIRLS

Relieved by Lydia E. Pinkham's Vegetable Compound School Teacher's Experience

Evanston, Wyoming.—"A few years ago I had troubles every month such as girls often have, and would suffer awfully every time. I was teaching school and it made it hard for me as I had to go to bed for two or three days. One day my mother suggested that I take Lydia E. Pinkham's Vegetable Compound, which I did, and it did wonders for me.

In the course of a year I married and after my first baby was born I got up too soon and it caused a displacement. This troubled me so that I could hardly walk or do my housework. I knew what the Vegetable Compound did for me before so I took it again. It strengthened me and now I have five little kiddies. The eldest is six, the baby is five months old and I have twin boys three years old and a boy of five years. I do all my own housework, washing and ironing, and I never felt better in my life. I owe my health to your wonderful medicine and I recommend it to all my friends."—Mrs. VERBENA CARPENTER, 127 2nd Avenue, Evanston, Wyoming.

RESULT OF RIGHT EGG MASH

Lady Globe of the Globe Experimental yards had produced 276 eggs in 307 days when this picture was taken. She is of good strain but received no better care than any poultry owner can give. Her's is an extraordinary record. This egg record shows how well Globe Egg Mash and Globe Scratch fulfill the requirements for high egg production.

Feed your hens Globe Egg Mash for maximum egg production. It produces more high priced winter eggs because it contains all the nutrients necessary for maximum egg production.

There is real economy in the use of Globe Egg Mash and Globe Poultry Scratch not only because of the extra number of better flavored eggs but also because of the longer laying period of the hens.

SERIES OF ROAD MEETS PLANNED

Program as Proposed by Commissioners to be Discussed.

A series of meetings, at which time the road program for 1926 as proposed by the county commissioners will be discussed have been scheduled to be held next week, but the exact dates and names of speakers have not been selected. This detail, however, will be closed before the week end.

At a meting of Butler grange tonight, Commissioner Conrad Berg and L. H. Johnson, clerk to the board will speak and will explain in detail the proposed program and also the financing of the projects through the proposed $950,000 bond issue.

Knox township will have a road meeting in the Grange hall Friday night.

Meetings that will be scheduled to be held next week include No. 9 school, St. Clair township, Summitville, Centralized school, Fairfield township; Willow Grove Grange hall, Hanoverton and Wayne township.

A meeting was held at Midway Grange Wednesday night at which time Commissioner Berg explained the financing of the new road program, after which a meeting of farmers was held at Salem which was attended by Mr. Berg and Mr. Johnson.

Oil Lease Transferred.

The record has been made showing that H. H. Hyland, Jr., has transferred a number of oil and gas leases he held in Fairfield township as being transferred to the Big Seven Oil and Gas company. These include the leases held on the farms of Martha E. McBurney, Charles E. Miller, Charles E. Eckert and H. L. McBurney.

Hyland has also taken a lease on a 10-acre farm in Fairfield township owned by Minnie O. Lower.

Feel Splendid! Nicest Laxative, "Cascarets" 10c

Don't stay headachy, dizzy, bilious, constipated, sick!

One or two pleasant candy-like "Cascarets" taken any time will mildly stimulate your liver and start you bowels. Then you will both look and feel clean, sweet and refreshed. Your head will be clear, stomach sweet, tongue pink and your skin rosy.

Because "Carcarets" never gripe or sicken, it has become the largest selling laxative in the world.

Directions for men, women, children on each box—any drug store.

How do you feel at 5 o'clock?

"ANOTHER day's work done! Now, for a regular dinner—and a good time with the wife and kiddies! Guess we'll see a movie, go for a walk in the park or take a long ride. Bet my wife has a fine juicy steak and potatoes—good cold buttermilk and hot rolls—and pie. Oh, Boy! makes my mouth water just to think of it."

Is that the way you feel at 5 P. M.? Or, are you just too played out for any good when your day's work is over?

If quitting time isn't really beginning time for you, then it's a sure sign that your entire system is starving for healthy, rich, red blood. And this is just as sure a sign that you need S. S. S. You've simply got to build up your blood.

For 100 years S. S. S. has been proving that a run-down system, rheumatism, loss of weight, loss of appetite, sleeplessness and nervousness, just as skin eruptions—boils, pimples, pale complexion and a lowered vitality, are all the result of blood weak in red cells.

Once let S. S. S. get to work and the joy of living will come back. 5 P. M. will have a different meaning to you. Get S. S. S. today. All druggists sell it. The larger size is more economical.

FARMERS REPORT PETTY ROBBERIES

Numerous robberies have been reported to Sheriff George Wright during the last few days by farmers. In one instance 15 bushels of potatoes were dug out of the field on a farm in St. Clair township, and from an orchard in Salem township 25 bushels of apples were taken. From a farm in Hanover township a barrel of new cider was taken and from another farm corn lying in the field after being shocked was stolen.

In several of these thefts clues have been obtained by Sheriff Wright and Deputy Sheriff Lawrence Kindsvatter.

14 NEW JURORS ARE SUMMONED

Fourteen names have been drawn from the jury wheel, and those summoned have been ordered to report for duty at 9:30 o'clock next Monday morning. Those who have been drawn are:

East Liverpool — Karl W. Gero, Charles L. Skinnell, John W. Golden, Shelton O. Sowards, John R. Stoddard.

Salem—J. T. Smith, Lee Chamberlain, Claudie Campbell.

Wellsville—A. G. Boyd, James Orr, Sr.

Salineville—John McIntosh, Ira Rice.

Clarkson—John M. Gaston.

Beloit R. D.—Margaret A. McDaniel.

Grange Took No Action.

Instead of Clarkson grange recently endorsing the proposed $950,000 bond issue for good roads as was announced, it was a community meeting held in the Grange hall following the Grange meeting that gave unanimous endorsement to the program. It is announced that Grange meetings never give endorsement to any project.

Case Closed.

In the case of Getrude Patterson of West township against Anne Patterson, a judgment on the verdict has been rendered in common pleas court No. 1 by James G. Moore. This judgment found that the paper writing was not the last valid will and testament of Percy L. Patterson, deceased, and the costs in the action have been placed against the plaintiff. Patterson committed suicide last year and there has been a court contest over the beneficiary of a life insurance policy. The judgment closes the case.

Case Settled.

The case filed in common pleas court on appeal of Charles Burris against the Modern Transit company, wherein judgment on a claim for $35 was sought on account of an automobile accident, has been settled out of court. The action was first tried in a justice of the peace court at East Liverpool, and was then appealed by the defendant to common pleas, after judgment of the lower court was rendered in favor of the plaintiff.

Leave to File Answer.

Leave has been given the Big Seven Oil company to file its answer October 26 in the case now pending in common pleas court of the First National bank of East Palestine against Robert A. Pow and others. Foreclosure is asked in the original petition.

Judgment Taken.

Judgment for $1,331.78 has been taken in common pleas court in the case of E. R. Aldridge against W. W. and Elizabeth I. Long. A decree for the foreclosure of a mortgage was handed down by the court and the sale of the premises ordered. The original action was based on a claim for $1,200, but with added interest the judgment shows an increase.

Quit Getting Up Nights

A Healthy Bladder Acts During the Day

C. N. Shuman, Republic Ohio, says: "Before taking Lithiated Buchu (Keller Formula) had to get up six or seven times each night. Now I do not get up at all. You may use my name if it would benefit anyone with bladder trouble." Be careful not to take drugs that check the action of the bladder. You may have to continue its use. Lithiated Buchu (Keller Formula) increases the action during the day. It cleanses the bladder as epsom salts do the bowels driving out foreign matter, neutralizing excess acids, thereby relieving the irritation which causes "Getting Up Nights." The tablets cost 2c each at all drug stores or Keller Laboratory, Mechanicsburg, Ohio. Locally at J. D. Holloway, Druggist.

Guilford, State Park Site, Laid Out for Building in 1835

The intent of the state of Ohio to establish a state park at Guilford has recalled to the mind of the older residents of that part of Hanover township the time when the town of Guilford was "laid out."

It was the projection of the Sandy and Beaver canal in 1835 that the eastern section of Hanover township began to feel elated over the prospects of a thriving community being established in the northeastern part of the township.

The receipt of the first work of the intent to construct a canal through that part of the township caused Dr. George McCook, J. G. Willyard and Jacob Schreiber to purchase from John Menzer the northeast part of section 12, Hanover township. Menzer, who was an early settler in the township, had made a clearing and had built for himself and his family a log cabin.

After Menzer had sold his land, the purchasers laid out the little town of Guilford and advertised far and wide the advantages that were to be gained by owning a lot in Guilford, and of what benefits were to arise from the construction of the canal.

Then an auction sale of lots was proclaimed.

John Hanna and Samuel Fugat then acquired land in the southeast part of section 12 and likewise laid out a plan of lots.

The day of the sale of lots arrived, and it is now recalled that upwards of 3,000 people traveled to the new town site from all parts of eastern Ohio, Pennsylvania, the then Virginia and from other states. Excitement run high. Although the land had not been cleared — native timber still standing, there was no letup in the demand for lots. They sold fast and at a sellers market, the prices being considered high in those early days.

The construction of the canal was then in progress. The chief engineer was named Gill and it was decided by the land owners to name the community "Guilliford" in honor of the engineer in charge.

It is now recalled that the lots put up at auction sold up to $250, but after the canal project proved to be a "flivver" the same lots were sold to others for as low as 50 cents and $1 each. As early as 1836 "Guilliford" had a population of around 500. Stores and taverns were opened. Caleb Hawley opened the first store. James Graham opened the second. Samuel Boots, a farmer, sold his land, moved to "Guilliford," bought land and opened the largest tavern and for two years he is reported to have done an immense business, as the town was then located on the "state road."

The town was incorporated in 1836 and Thomas Brandon was elected the first mayor. Taverns were opened thickly. Travel through "Guilliford" was heavy. Owners did a big business, so old residents assert.

And now, after Guilford has lain dormant for many years it is to again come to life, and all because the state park is proposed and is assured of early construction.

It has been estimated that $15,000 will be required to repair the bridge and build a new concrete waste way. The plan shows the new concrete waste way to be 64 by 84 feet with four 24-inch outlet pipes extending under a 10-inch concrete slab and emptying into the same outlet as the water that flows over the waste way. Five spawning pools on the south of the dam will be fed by fresh water.

The Joy of Motherhood

JUST how to make motherhood a joy is one of the most important things in the world for you to know, right now, mother-to-be! Learn the great truth; use the simple method of an eminent physician who dedicated his life's work to this *great accomplishment* for your benefit!

"I was in labor only 25 minutes with my last child, but suffered agonies with three previous children," writes an enthusiastic mother who used Mother's Friend. *Great has been the praise of Mother's Friend for over three generations!*

Mother's Friend possesses the qualities to *penetrate* beyond the skin and soothe the network of ligaments across the abdomen, hips and back and lubricate the skin, nerves and muscles as month follows month. Finally, it makes motherhood a joy! Mother's Friend is safe—it contains no harmful drugs. Right now, from this day on, and right up to the day of childbirth Mother's Friend should be used!

Mother! Insist on Mother's Friend—the same as used by our mothers and grandmothers—don't wait—start using tonight—and meanwhile write Bradfield Regulator Co., Dept. 32, Atlanta, Ga., for *free* valuable booklet "Motherhood and the Coming Baby" (sent in plain envelope). It tells how Mother's Friend can help you during expectancy and at childbirth. This booklet also tells you many other things you want to know. "Mother's Friend" is sold by all druggists—*everywhere.*

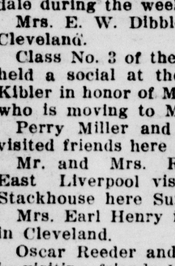
AILMENTS OF YOUNG GIRLS

Relieved by Lydia E. Pinkham's Vegetable Compound School Teacher's Experience



Evanston, Wyoming.—"A few years ago I had troubles every month such as girls often have, and would suffer awfully every time. I was teaching school and it made it hard for me as I had to go to bed for two or three days. One day my mother suggested that I take Lydia E. Pinkham's Vegetable Compound, which I did, and it did wonders for me. In the course of a year I married and after my first baby was born I got up too soon and it caused a displacement. This troubled me so that I could hardly walk or do my housework. I knew what the Vegetable Compound did for me before so I took it again. It strengthened me and now I have five little kiddies. The eldest is six, the baby is five months old and I have twin boys three years old and a boy of five years. I do all my own housework, washing and ironing, and I never felt better in my life. I owe my health to your wonderful medicine and I recommend it to all my friends."—Mrs. VERBENA CARPENTER, 127 2nd Avenue, Evanston, Wyoming.

RESULT OF RIGHT EGG MASH

Lady Globe of the Globe Experimental yards had produced 276 eggs in 307 days when this picture was taken. She is of good strain but received no better care than any poultry owner can give. Her's is an extraordinary record. This egg record shows how well Globe Egg Mash and Globe Scratch fulfill the requirements for high egg production.

Feed your hens Globe Egg Mash for maximum egg production. It produces more high priced winter eggs because it contains all the nutrients necessary for maximum egg production.

There is real economy in the use of Globe Egg Mash and Globe Poultry Scratch not only because of the extra number of better flavored eggs but also because of the longer laying period of the hens.

Inhale the Vapors

For Catarrh and Colds

To relieve catarrh or check a head cold, melt a little Vicks in a spoon and inhale the vapors of Camphor, Menthol, Eucalyptus, Thyme and Turpentine. Also put a little in each nostril and snuff well back up the head.

Another way is to heat a tin cup put in a teaspoonful of Vicks and inhale the vapors that way. As fast as the vapors lose their strength, throw out the melted Vicks and add fresh.

Millions of mothers find Vicks the ideal remedy for croup and children's colds because it not only brings quick relief but avoids dosing delicate little stomachs with so much medicine.

REPORT INCREASE IN MINE DEATHS

Another increase in the monthly total of mine fatalities, despite warnings from state officials against laxity in enforcing safety regulations, was recorded in the monthly report of R. M. Lambie, chief of the state mine department, today. A total of 52 deaths in September, 11 more than the previous month, was given. Accompanying Chief Lambie's monthly report was his announcement of the stations of the 10 trucks recently installed for work at mine explosions and fires and for service as ambulances. The trucks are stationed at Charleston, Kilsyeth, Matoaka, Welsh, Williamson, Logan, Morgantown, Fairmont, Wheeling and Elkins.

CITY OFFICIALS TO HOLD MEETING

The third annual conference of the West Virginia municipal league will be held in Morgantown in co-operation with the state university on November 23, 24 and 25, it was announced yesterday by Nat T. Frame, executive secretary of the league and director of the university's extension division.

Towns and cities of West Virginia will be invited to send their mayors, managers, engineers, solicitors and councilmen to the conference, Mr. Frame said. The tentative program provides for addresses on numerous municipal problems in the state. Conferences will be arranged for a consideration of municipal engineering, water, milk and health problems.

KEEP YORKTON LIBERTY SHRINE

Historians Plan Golf Course and Memorials on Washington's Battlefield.

Washington.—To restore and preserve the battlefield of Yorktown, where Cornwallis surrendered to Washington, as an international shrine of liberty is the purpose of a movement directed by three Yorktown organizations, the Historical society, the Forum and the Country club.

The movement has received the support of notables, including President Coolidge and his royal highness the duke of York, the latter having accepted the honorary presidency of the Yorktown forum. Included in the list are cabinet members, senators, representatives, Vice President Dawes, General Pershing and other high military officials, governors, ambassadors and other diplomats, Stanley Baldwin, the prime minister of England; Field Marshal Haig, Sir Auckland Geddes, Sir Esme Howard, Lady Nancy Astor, Lord Bing of Vimy, the marshals of France and the descendants of Lafayette, Rochambeau and DeGrasse, who served at Yorktown with Washington.

Yorktown possesses a vital interest to Americans. General Pershing, in a foreword to a book, "The Glory of Yorktown," which is being circulated by the promoters, says that the fundamental proposition of the sovereignty of the people was made secure by the American revolution, and the struggle for national freedom, won at Yorktown, inaugurated a universal movement for national independence which spread over the western hemisphere and resulted in the establishment of twenty independent states in Latin America.

"This epochal movement," says General Pershing, "later spread to Europe and even to Asia, terminating the age-long struggle between democracy and autocracy, and bringing a new concept of popular government to the old nations of the world. Yorktown was one of the decisive battles of the world, and marked a turning in human history, the effects of which have become worldwide."

Dates Back Three Centuries.

Yorktown was patented in 1621 and the town of York was laid out in 1691. It is situated in the historic peninsula of Virginia. Near by is Jamestown, where the first English settlement on the western hemisphere was made, in 1607, and not far distant is the site of the famous Indian village of Powhatan. Close at hand, too, is Williamsburg, seat of William and Mary college, which was founded in 1693, and but a few miles away are Fortress Monroe, guarding the entrance to Chesapeake bay, and Newport News, Hampton and Norfolk. Within a short radius are the birthplaces of seven presidents of the United States—Washington, Jefferson, Madison, Monroe, Harrison, Tyler and Wilson.

Every school child knows of the important place Yorktown and its siege occupy in the history of the Revolutionary war, but not all know the spot that marked events in three other wars. There was important military action there during the war of 1812, when the British captured Yorktown on their way to Washington; during the Civil war the Confederates under General Magruder and General Johnson occupied the old Cornwallis fortifications when the Union under McClellan marched up the peninsula to attack them, and during the recent World war Yorktown was an American naval base.

The Yorktown Historical society has established headquarters in Yorktown to receive visitors, distribute explanatory literature and deliver lectures on the battlefield and the historic facts.

World Assembly Proposed.

It is planned to expand the Yorktown forum into a world assembly and international center comparable with The Hague, Brussels and Geneva. A classical temple is to be erected to house the forum and there will be closely connected units interpreting in symbol historical eras and epochs in the development of democracy. A perpetual endowment is to be provided.

The forum is affiliated with the Marshall-Wythe-Monroe school of government, citizenship and international relations of the College of William and Mary, and until the forum buildings are completed its sessions will be held either in the customs house at Yorktown, the oldest customs house in the United States, or in the National Memorial auditorium on the college campus.

The function of the Country club is to maintain the battlefield of Yorktown and to provide housing accommodations and recreational facilities for visitors. A temporary clubhouse has been erected and an 18-hole golf course completed. In constructing the golf course, the underbrush that concealed the redoubts, entrenchments and parallels of the famous battlefield has been cleared away and it is possible for visitors to inspect them for the first time since shortly after the Revolutionary period.

History of the Battle.

Yorktown, for all its military importance, by the way, was not a bloody battle ground, the allied American and French losses being only about 300 killed, wounded and missing, and the British losses about 550. Washington, when he took over the command from Lafayette, had a force far superior to that of Lord Cornwallis. He had approximately 9,000 Americans; there were 7,000 French under Rochambeau, and in addition, there was the French fleet of Count de Grasse, numbering 28 ships of the line with nearly 4,000 infantry on board. The siege was opened on October 9 and eight days later Cornwallis proposed to surrender.

October 19 Major General O'Hara led out the whole British army from the trenches into the open field, where, in the presence of allied ranks of France and America, 7,247 English and Hessian soldiers laid down their arms, delivered their standards and became prisoners of war.

The second siege of Yorktown, during the Civil war, likewise found McClellan in command of the Union army with a greatly superior force numbering 112,392 men as compared with not to exceed 50,000 Confederates. McClellan delayed his assault, however, and the Confederates evacuated Yorktown and fell back to Williamsburg on the way to Richmond.

this Sedan of fine quality—at the lowest price ever placed on a Sedan by Studebaker

THERE was a time when the automobile buyer seeking greatest value for his dollar was justified in considering a car of second-grade quality, which was reasonably satisfactory from the standpoint of transportation alone.

But with the advent of Studebaker's One-Profit manufacturing policy, cars of the finest quality, such as the Standard Six Sedan illustrated below, are now only slightly higher in price than those of second grade.

This small difference in price is practically nothing in comparison to the vast difference in materials and workmanship—plus increased pride of ownership and the extra service that a Studebaker gives.

Under this One-Profit system we build in our own plants *all* bodies, engines, clutches, steering gears, differentials, springs, gear sets, axles, gray iron castings and drop forgings. Thus we eliminate extra profits and overhead that all other manufacturers (except Ford) must pay to outside parts and body makers—and what we save goes to the buyers of Studebaker cars.

And because we have facilities for manufacturing all vital parts on this One-Profit basis, we are able to design, engineer and build every Studebaker car as a complete harmonious unit. Being Unit-Built, the Studebaker functions as a unit—with all the advantages of unit over assembled construction.

The result is years longer life—scores of thousands of miles of excess transportation—greater riding comfort—minimum repair costs—and, finally, higher resale value.

A UNIT-BUILT CAR

Value Stabilized by "No-Yearly-Models"

THE fine Studebaker Standard Six Sedan illustrated below is upholstered in genuine wool cloth. Carpets are wool. Windows are real plate glass. Four wide doors.

Equipment includes an 8-day clock, gasoline gauge, coincidental lock to ignition and steering gear, automatic windshield cleaner, ash receiver, rear-vision mirror, stop light, dome light, safety lighting control on steering wheel, and full-size balloon tires.

This Sedan has many superiorities—hidden as well as obvious. Body pillars are of fine northern white ash, cross-members of hard maple. We pay a premium for the best steels.

Slam the door and the sound says "quality." Swing on the door. Run one wheel up on the curb and note how the doors still open and close—how the motor still runs smoothly. Sit on the firm, heavy fenders. Try the steering gear. See how easily it handles the full-size balloon tires. Test the comfort of the deep, wide seats.

Run the engine—the most powerful in any car of its size and weight, according to the ratings of the N. A. C. C. and the Society of Automotive Engineers. This is Studebaker's lowest priced Sedan. Make comparisons—then realize why no car at a comparable price has more than superficial resemblance.

Come in and let us demonstrate this sturdy One-Profit car.

For Catarrh and Colds

To relieve catarrh or check a head cold, melt a little Vicks in a spoon and inhale the vapors of Camphor, Menthol, Eucalyptus, Thyme and Turpentine. Also put a little in each nostril and snuff well back up the head.

Another way is to heat a tin cup put in a teaspoonful of Vicks and inhale the vapors that way. As fast as the vapors lose their strength, throw out the melted Vicks and add fresh.

Millions of mothers find Vicks the ideal remedy for croup and children's colds because it not only brings quick relief but avoids dosing delicate little stomachs with so much medicine.

Afghans Developing Modern Methods; Will Soon be Using Soap

MOSCOW — The Afghans are developing modern habits. They will soon use soap, wear clothes with buttons, and sit up late at night to read newspapers. A delegation of Afghans has just arrived in Moscow to buy equipment for a soap factory, a button factory and a candle factory to be founded in Herat.

Afghan merchants at the Nijni-Novgorod fair have just concluded a contract with the Soviet Electro & Machine trusts for the purchase of motors and printing presses for an up-to-date newspaper plant in Kabul. Amir Amanullah Khan, the energetic young sovereign of Afghanistan, is Europeanizing his country as fast as possible, and depends on Soviet Russia for most of the means.

MANY ATTENDING CHURCH MEETS

Hancock county is largely represented at the annual meeting of the Synod of West Virginia and Synodical Missionary society of the Presbyterian church at Wellsburg. The latter opened its session yesterday while the former body convened Tuesday night.

Dr. C. E. Erdman, moderator of the general assembly, is among the principal speakers at both conventions.

CARSON FUNERAL SERVICES HELD

Funeral services for S. D. Carson, 59 years old, paymaster at the Homer Laughlin China company plant, were held this afternoon in the home in Jefferson street. Rev. E. E. Lashley, pastor of the First Presbyterian church was in charge.

MANY REFUSED MEDICINE COURSE

Fully 700 applicants were refused entrance to West Virginia university's school of medicine this year, according to Dean J. N. Simpson. For the first year's work 106 are enrolled, and 55 are taking the second year's work.

Dean Simpson is of the opinion that a four-year medical course at the university is more urgent now than ever before. A hospital building is the chief need at this time, he says.

Four new assistants are employed in the medical school. Francis Murphy, who came from Chicago, is an instructor in anatomy; Carl Helson, in the Physiology department; Robert Clark, in bacetriology, and G. Chenoweth, in chemistry.

Soccer Games Scheduled.

Homer Laughlin China soccer team is scheduled to meet New Brighton at the latter place Saturday afternoon. The following week the Mahoning Valleys of Youngstown will be the attraction on Newell field. This will be the first game of the elmination contests.

Dance Plans Arranged.

Plans for the masquerade party and dance to be held Friday under the auspices of the employes of the Homer Laughlin China company were completed at a meeting of the committee held this week. The affair will be held in the Eagles' hall, East Liverpool.

Many at Lodge Meeting.

Large number of local members of the Odd Fellows lodge attended the open meeting last evening in East Liverpool, which was addressed by two high officials of the order. Lodge members were in attendance from all sections of the district.

Egypt Clears Sphinx Of Sand From Desert; New Tomb Discovered

CAIRO—The antiquities department of the Egyptian government has commenced the proposed refurbishing of the Sphinx, hte famous great solid-rock monument to the Egyptian sun god at Giza. In recent years the Sphinx has become covered with tons of sand blown from the adjacent deserts, and the authorities first task will be to clear this accumulation away.

The back of the Sphinx is said to be cracking, and the back will be strengthened as the sand is cleared. A new tomb was discovered during the work of clearing the sand, but the sarcophagus had been rifled.

Puts Stomach in Fine Condition—Ends Dizzy Spells, Catarrh and Makes You Sleep Well.

Injudicious eating causes acute indigestion, gas, acidity, heaviness and sour stomach—sometimes the distended stomach causes that dreadful feeling of near suffocation.

Isn't it worth something to know of a remedy that will stop this distress in a few minutes—quicker than anything else you can think of.

This is no common stomach remedy for it took years of time to combine Pepsin with Menthol and the other effective agents that make Dare's Mentha Pepsin so good that the worst cases of indigestion and gastritis and other chronic stomach ailments are speedily overcome and the most badly deranged stomachs are made clean, strong and healthy.

Mr. Calvin Dilks of Alloway, N. J., a man of few words, knows this for he writes: "I entirely rid myself of an old catarrhal condition of the stomach with Dare's Mentha Pepsin."

No matter what your stomach trouble is get a bottle today at Jesse D. Holloway's or any druggist anywhere, with the distinct understanding that if it doesn't do you the world of good your money will be returned.

Allison Surrenders Franchise In American Basketball League

FAILURE OF FINANCIAL PLANS HITS PROPOSED PRO QUINTET FOR CITY

Local Cage Promoter Notifies President Joe Carr of His Inability to Obtain Playing Floor, Only Obstacle in the Way of the Ceramic City Entry; Franchise Will be Disposed of in Larger City.

East Liverpool's dream of a commanding place in the national basketball world, through affiliation with the proposed American Basketball league, has vanished into thin air.

Frank Allison, former Ceramic City professional court star, who attempted to promote the organization of another East Liverpool team, has given up his franchise in the American league because of inability, it is said, to finance the construction of a playing floor.

East Liverpool is definitely out of it. Allison has notified Joe Carr, of Columbus, president of the circuit, of his difficulties, and his inability to retain the franchise, and, as a result, East Liverpool's berth will go to one of the other cities seeking places in the loop.

Allison actually succeeded, after days of strenuous effort, in getting a franchise in the league. He had a team practically organized, and the city was placed on the league schedule before he realized that it would be almost impossible to get a floor.

"The financial backing that I figured on failed to hold up its end," Allison explained today.

Allison went after options on various sites in the business district and at one time contemplated the remodeling of a Dresden avenue structure.

TORONTO-STUB ELEVENS MERGE

Will Play Only Teams of National Pro League.

STEUBENVILLE, Oct. 22.—Weekly losses sustained by both the Steubenville Pros and the Toronto Tigers have brought about the merging of the two elevens into a single professional team.

The team will be composed of the pick of the Steubenville and Toronto players and only teams in the National Professional league will be played, with games alternating at Kilgus Field, Toronto, and Northend Field, Steubenville. The first game, Sunday, is scheduled for Steubenville, and the Dayton Triangles will probably be the attraction.

It is planned to bring Dayton, Canton Bulldogs, Pottsville, Philadelphia Yellow Jackets, Akron and other league clubs to the north end an Toronto fields. At the close of the season the winner of the league race will be met on either the local or Kilgus Field. The game will take the place of the annual Steubenville-Toronto series.

Officials for all games will be named by pro league officials.

There will be 17 men on the squad, the players to be selected from the roster of the two teams. "Bill" Edgar, "Red" Siedelson, Sol Butler, Nick Colonna, Mundy, Genario, Romey and Comer of the Toronto team are to be retained and Fuccy, Pierre Hill, Frankhouser, McSwiggen and several others of the local club are to be on the squad.

The team will compare with any of the league clubs as it is, but the management promises that one or two other big backfield stars are to be added next week.

Both teams have lost money this year. It was impossible to operate, each attraction taking fans from the other, and the result is a loss every week.

Signs Himself to Pilot Team

When the Chicago Cubs signed Joe McCarthy, successful manager of the Louisville American Association team, to pilot the Chicago outfit Owner William Knebelkamp of the Louisville team decided to boss his own team. So he'll play dual role of manager-owner next year.

HUDKINS LICKS JERSEY CHAMP

Outclasses Ballerino In 10-round Battle.

LOS ANGELES, Oct. 22.—Ace Hudkins, Nebraska lightweight, was listening today to the praises from all sides, following his 10-round victory here last night over Mike Ballerino, world's 130-pound champion.

Hudkins pasted the New Jersey champion fearfully and took every round of the encounter except the third, which was even. Ballerino's title was not at stake.

The champion weighed 130 and Hudkins 135.

The Nebraskan fought an almost perfect fight and boxed better than he has in any of his sensatinoal California bouts.

Hudkins had the champion on the floor twice, using a right cross in the seventh and tenth rounds to floor Ballerino for long counts.

So out-classed was the easterner that his showing was voted as miserable, although the fans gave him a hand for his gameness in absorbing plenty of punishment in every round.

The Nebraska star had Ballerino out on his feet most of the ninth and tenth rounds after hectic sessiosn in the seventh and eighth cantos. Hudkins was never seriously bothered by Ballerino's punches and after the sixth could have coasted into a win.

The bout was one of the fastest on record in Los Angeles with both boys swinging a volley of gloves every round.

Hudkins was given an ovation by 10,000 fans as he left the ring.

The Nebraskan has been tentatively carded in a bout with Mushy Callahan, Los Angeles; Tommy O'Brien, New York, and Sid Terris, New York lightweight star, in Los Angeles in the near future. Hudkins was said today to have demanded $15,000 for meeting Callahan and $10,000 each for his matches with O'Brien and Terris.

VIC HANSON NOMINATED FOR ALL-AMERICA TEAM

Syracuse Thinks it Has Certain Mythical Eleven Place Winner in Star End and Also Entertains Hopes of Finishing Season Without a Defeat; Departure of "Chick" Meehan Fails to Handicap New Yorkers.

This is the fourth of a series of articles by Davis J. Walsh on some of the leading football teams of the east and middle west.

By Davis J. Walsh.

SYRACUSE, N. Y., Oct. 22.—Up on the hill, which is local idiom for Syracuse University, they haven't had a man on the All-American team since 1919. Up on the hill they haven't finished a football season undefeated since the Mississippi river ran east and west. Up on the hill they think that it is more than possible that both of these annual futilities may be achieved.

With Vic Hanson playing end, they think it is far from a futility that Syracuse will be represented on the All-American team of 1925. With a real offensive in operation for the first time in a generation, Syracuse thinks it may have the only football team in Orange history to survive a season without defeat.

Hanson cannot miss, according to the local diagnosticians. Weighing 170 pounds, with the speed of a fawn and the instinct of a born football player, he seemed to be the ideal All-American end. They called him offside out in Indiana last week because the referee couldn't conceive of a man being so far beyond the play without beating the ball.

Hugo Bezdek, who is understood to have seen an occasional end in his time, says the young man is as good as anything he ever has seen.

Syracuse Has Attack.

In other words, the young man either is good or he has fooled a lot of important people.

As for the Syracuse football team, it has fooled plenty of wise money to date. It was thought that the departure of "Chick" Meehan and the consequent arrival of Reynolds would mean what is technically known as a bad rally for Syracuse football. The contrary has been the case.

For the first time in history, Syracuse has won two games in the first five minutes of play, it having been the custom here to arrive at the given point by degrees and with great circumspection. In brief, Syracuse has an attack.

"We beat Indiana by two touchdowns; Michigan beat them some 60 points," Reynolds pointed out. "Yet you cannot compare the two results. Michigan gained only three first downs through the line. They simply forward passed the Indiana combination to death. When we met them, they had acquired an adequate defense against the pass.

"From my remarks, you may have gained the impression that I think we have a terrible football team. You are quite right. We have a good football team."

Reserves Look Good.

Mr. Reynolds is not so far wrong, at that. In the first place, he has Hanson, who does everything an end should do and several things a tackle misses. He lost two fine tackles in Starobin and Waldorf, but his reply was to produce Bayley and Lee, the former something of a veteran, the latter something of a pleasant surprise. Taylor, Van Lengen, Archoska and Richtmeyer have proved adequate second string material.

So have Mendell, Rourke and Mooney at the wings.

Siggs, 1924 letter man, is one of the guards. Levy is the other, or at least will be when he gets back into the game, which will be soon if not immediately. Levy is supposed to be the best forward in the local squad.

The centers are Friedman, regular, and Wittman, alternate, veterans bith. The quarterback is Captain Foley, the best ball runner in the outfit, with Cooke in reserve, which is often. Carr, Clarke, Hansen, Meister, Flanagan and Mann are the halfbacks, with Barbuti at fullback.

That is the personnel of the team that has won all of its games to date. It still has to take on Penn State, Columbia and Colgate. Can it go on and do what no other Syracuse team has been able to accomplish? Can an irresistible force destroy an immovable body? You answer one question by asking another.

OHIO-IOWA TOP BIG TEN CARD

Clash Brings Together Unbeaten Title Aspirants.

By Jack Cejnar.

COLUMBUS, Oct. 22. — Like the well known frogs in the milk can six Big Ten conference elevens will next Saturday churn up matters with each other in an effort to determine which will keep from being submerged when the 1925 kicking is done. Four others will get exercise outside the cream of the conference.

This week's games will have considerable bearing on the title race. Such unbeaten contenders as Iowa, Purdue and Ohio State may be eliminated.

Saturday will present the following conference card:

Iowa vs. Ohio State at Columbus.

Michigan vs. Illinois at Urbana.

Purdue vs. Wisconsin at Madison.

Outside the conference two other teams will engage in inter-sectional contests. One will entertain Notre Dame, and the fourth will have a practice game in preparation for a conference tussle next week as follows:

Chicago vs. University of Pennsylvania at Philadelphia.

Northwestern vs. Tulane at Chicago.

Minnesota vs. Notre Dame at Minneapolis.

Indiana vs. Miami at Bloomington.

The outstanding conference game, expected to be quite as spectacular as the interesting Illinois-Michigan contest, will be the struggle at Columbus between Iowa and Ohio State. This battle will bring together two of the most powerful, unbeaten championship aspirants, one of them the conqueror of Illinois.

In the other conference game of importance, Illinois, with the meteoric "Red" Grange, will try to stage a comeback after losing two of its three starts this season, by stopping and perchance downing Michigan. It was against the Wolverines last year that Red Grange sprang into undying gridiron fame and the Wheaton flash is all primed to repeat Saturday.

Wisconsin, decisively beaten last week by Michigan, will play Purdue, regarded as a weak sister. It will be Purdue's first conference game.

By a strange coincidence, the meeting Saturday of Iowa and Ohio State will pit Hawkeye stars against Hawkeye stars. In the Buckeye lineup will be two young Iowans upon whom the spotlight of the football game has been playing—Elmer Marek, halfback, and Leo Uridil, tackle, both of whom hail from Cedar Rapids, Iowa.

Marek, who since early in the season, has been proclaimed the outstanding 1925 Ohio State star, will oppose Nick Kutsch, the Hawkeye ace, and leading scorer in the Big Ten conference.

Buckeye fans are looking forward with greatest interest to comparing Marek and Kutsch as they will measure Marek and Grange here on Nov. 21.

Victories Saturday for Iowa and Michigan would muddle up the conference race, as the Hawkeyes and Wolverines do not meet. If both win their remaining games, they will be tied for the title.

If Ohio State comes out the winner Saturday, the conference title may depend on the Ohio State-Michigan game in Ann Arbor, Nov. 14.

GOLDSTEIN MEETS CHUCK HELLMAN

SAN FRANCISCO, Oct. 22. — Abe Goldstein of New York, former bantamweight champion of the world, squares off here tonight with "Chuck" Hellman, of Portland, for a ten round main event at the State Armory on Mission street.

Goldstein lost his title recently to Eddie "Cannon Ball" Martin, the Brooklyn Italian. In Hellman, Goldstein is believed by those in the know to be tackling a fairly tough customer. Hellman has fought many of the best fighters in his class on the coast.

OHIO PREPARES FOR WESLEYAN

ATHENS, O., Oct. 22—A four-hour practice session was held by Coach Don Peden today in preparing the Ohio University eleven for its Homecoming Day contest here Saturday with Ohio Wesleyan. Much of the time was spent in scrimmage, during which the freshmen team assumed the offensive, using the Wesleyan style of attack.

The Ohio team probably will have its full strength this week for the first time since the opening contest with Rio Grande. Several men are ailing, but all are expected to be in shape to enter the fray against the Methodists. Gamber, fullback, has been out for three weeks due to an injury to his knee. He still limps but the injury appears to be mending daily. Wise, Gardner and Duncan are the others who are not in best condition, but all are being counted on to take their places in the lineup.

China's first passenger bus was an American car placed in operation in Peking eight years ago; today the city has 70 active lines.

HARD LUCK HITS WOOSTER SQUAD

WOOSTER, O., Oct. 22.—Old Man Hard Luck seems still on the trail of Coach L. C. Boles and his Wooster football team. With this week's game here at Mount Union, as hard a home battle as is on the schedule, Boles will be without the services of his star dropkicker, "Pete" Blough, the flashy halfback. He was the only one injured in Wooster's 7 to 6 victory over Reserve last week.

Siskowic is still being kept out of scrimmage but will be ready by the end of the week. However there is no telling how long he will be able to stand the rough work. Weihe, halfback injured in the opening game with Ashland, is still nursing his injuries and will not be ready for the Mount game.

This will be the ninth game between Wooster and Mount Union since Boles took charge of football here. Last year the game ended in a scoreless tie and all of the other games were Wooster victories.

This season Mount's showing to date is more impressive than Wooster's and fear is expressed here that Wooster will have to show more football than has been the case to date to keep the slate clean.

MUST SCORE MORE THAN ONCE TO WIN

MORGANTOWN, W. Va., Oct. 22.—Members of the West Virginia eleven which is to meet the veteran West Virginia Wesleyan college team in the stadium here Saturday afternoon at 2:30 o'clock are convinced that they will have to score more than one touchdown to beat the Methodists. They will go into the game feeling that it will take more than secen points to win, and from the opening kickoff to the final blast of the whistle the Mountaineer objective will be the score as many points as possible to offset registering likely to be done by the husky crowd of athletes from Buckhannon.

BEAT GENEVA, IS BISONS' SLOGAN

BETHANY, W. Va., Oct. 22.—"Beat Geneva" is the slogan that has been broadcasted from the Bethany college football headquarters, and with that determination the Bisons will enter Saturday's battle, which will give the Bison football machine a real test. Placarded all over the little college town, painted on the sidewalks and written on the walls of the building is this slogan, and it has also been written upon the minds and hearts of the Bethany students and alumni body who will witness the contest. "Beat Geneva" is the Bison battle cry.

Better BUICK Closed Cars

Extra sturdiness is an outstanding feature of Buick motor cars. Buick closed cars demonstrate this most strikingly in cross-country travel.

Town or country, good roads or bad, it's all the same to a Buick. You can go anywhere any car can go and do it much easier because of the famous, 75 horsepower, Buick Valve-in-Head engine.

You can travel long distances in more comfort because of the deep, wide, luxurious seats, the extra head and leg room, and full cantilever rear springs. And Buick's ball bearing, worm and nut steering mechanism removes all driving strain. This is the most efficient and most expensive steering gear so far perfected.

Better Buick closed models are now on display. Your attention is particularly directed to the 4-door and 2-door Fisher Body Sedans at "Coach" prices!

Allison Surrenders Franchise In American Basketball League

FAILURE OF FINANCIAL PLANS HITS PROPOSED PRO QUINTET FOR CITY

Local Cage Promoter Notifies President Joe Carr of His Inability to Obtain Playing Floor, Only Obstacle in the Way of the Ceramic City Entry; Franchise Will be Disposed of in Larger City.

East Liverpool's dream of a commanding place in the national basketball world, through affiliation with the proposed American Basketball league, has vanished into thin air.

Frank Allison, former Ceramic City professional court star, who attempted to promote the organization of another East Liverpool team, has given up his franchise in the American league because of inability, it is said, to finance the construction of a playing floor.

East Liverpool is definitely out of it. Allison has notified Joe Carr, of Columbus, president of the circuit, of his difficulties, and his inability to retain the franchise, and, as a result, East Liverpool's berth will go to one of the other cities seeking places in the loop.

Allison actually succeeded, after days of strenuous effort, in getting a franchise in the league. He had a team practically organized, and the city was placed on the league schedule before he realized that it would be almost impossible to get a floor.

"The financial backing that I figured on failed to hold up its end," Allison explained today.

Allison went after options on various sites in the business district and at one time contemplated the remodeling of a Dresden avenue structure.

TORONTO-STUB ELEVENS MERGE

Will Play Only Teams of National Pro League.

STEUBENVILLE, Oct. 22.—Weekly losses sustained by both the Steubenville Pros and the Toronto Tigers have brought about the merging of the two elevens into a single professional team.

The team will be composed of the pick of the Steubenville and Toronto players and only teams in the National Professional league will be played, with games alternating at Kilgus Field, Toronto, and Northend Field, Steubenville. The first game, Sunday, is scheduled for Steubenville, and the Dayton Triangles will probably be the attraction.

It is planned to bring Dayton, Canton Bulldogs, Pottsville, Philadelphia Yellow Jackets, Akron and other league clubs to the north end an Toronto fields. At the close of the season the winner of the league race will be met on either the local or Kilgus Field. The game will take the place of the annual Steubenville-Toronto series.

Officials for all games will be named by pro league officials.

There will be 17 men on the squad, the players to be selected from the roster of the two teams. "Bill" Edgar, "Red" Siedelson, Sol Butler, Nick Colonna, Mundy, Genario, Romey and Comer of the Toronto team are to be retained and Fuccy, Pierre Hill, Frankhouser, McSwiggen and several others of the local club are to be on the squad.

The team will compare with any of the league clubs as it is, but the managemeent promises that one or two other big backfield stars are to be added next week.

Both teams have lost money this year. It was impossible to operate, each attraction taking fans from the other, and the result is a loss every week.

Signs Himself to Pilot Team

When the Chicago Cubs signed Joe McCarthy, successful manager of the Louisville American Association team, to pilot the Chicago outfit Owner William Knebelkamp of the Louisville team decided to boss his own team. So he'll play dual role of manager-owner next year.

HUDKINS LICKS JERSEY CHAMP

Outclasses Ballerino In 10-round Battle.

LOS ANGELES, Oct. 22.—Ace Hudkins, Nebraska lightweight, was listening today to the praises from all sides, following his 10-round victory here last night over Mike Ballerino, world's 130-pound champion.

Hudkins pasted the New Jersey champion fearfully and took every round of the encounter except the third, which was even. Ballerino's title was not at stake.

The champion weighed 130 and Hudkins 135.

The Nebraskan fought an almost perfect fight and boxed better than he has in any of his sensatinoal California bouts.

Hudkins had the champion on the floor twice, using a right cross in the seventh and tenth rounds to floor Ballerino for long counts.

So out-classed was the easterner that his showing was voted as miserable, although the fans gave him a hand for his gameness in absorbing plenty of punishment in every round.

The Nebraska star had Ballerino out on his feet most of the ninth and tenth rounds after hectic sessiosn in the seventh and eighth cantos. Hudkins was never seriously bothered by Ballerino's punches and after the sixth could have coasted into a win.

The bout was one of the fastest on record in Los Angeles with both boys swinging a volley of gloves every round.

Hudkins was given an ovation by 10,000 fans as he left the ring.

The Nebraskan has been tentatively carded in a bout with Mushy Callahan, Los Angeles; Tommy O'Brien, New York, and Sid Terris, New York lightweight star, in Los Angeles in the near future. Hudkins was said today to have demanded $15,000 for meeting Callahan and $10,000 each for his matches with O'Brien and Terris.

VIC HANSON NOMINATED FOR ALL-AMERICA TEAM

Syracuse Thinks it Has Certain Mythical Elever Place Winner in Star End and Also Entertains Hopes of Finishing Season Without a Defeat; Departure of "Chick" Meehan Fails to Handicap New Yorkers.

This is the fourth of a series of articles by Davis J. Walsh on some of the leading football teams of the east and middle west.

By Davis J. Walsh.

SYRACUSE, N. Y., Oct. 22.—Up on the hill, which is local idiom for Syracuse University, they haven't had a man on the All-American team since 1919. Up on the hill they haven't finished a football season undefeated since the Mississippi river ran east and west. Up on the hill they think that it is more than possible that both of these annual futilities may be achieved.

With Vic Hanson playing end, they think it is far from a futility that Syracuse will be represented on the All-American team of 1925. With a real offensive in operation for the first time in a generation, Syracuse thinks it may have the only football team in Orange history to survive a season without defeat.

Hanson cannot miss, according to the local diagnosticians. Weighing 170 pounds, with the speed of a fawn and the instinct of a born football player, he seemed to be the ideal All-American end. They called him offside out in Indiana last week because the referee couldn't conceive of a man being so far beyond the play without beating the ball.

Hugo Bezdek, who is understood to have seen an occasional end in his time, says the young man is as good as anything he ever has seen.

Syracuse Has Attack.

In other words, the young man either is good or he has fooled a lot of important people.

As for the Syracuse football team, it has fooled plenty of wise money to date. It was thought that the departure of "Chick" Meehan and the consequent arrival of Reynolds would mean what is technically known as a bad rally for Syracuse football. The contrary has been the case.

For the first time in history, Syracuse has won two games in the first five minutes of play, it having been the custom here to arrive at the given point by degrees and with great circumspection. In brief, Syracuse has an attack.

"We beat Indiana by two touchdowns; Michigan beat them some 60 points," Reynolds pointed out. "Yet you cannot compare the two results. Michigan gained only three first downs through the line. They simply forward passed the Indiana combination to death. When we met them, they had acquired an adequate defense against the pass.

"From my remarks, you may have gained the impression that I think we have a terrible football team. You are quite right. We have a good football team."

Reserves Look Good.

Mr. Reynolds is not so far wrong, at that. In the first place, he has Hanson, who does everything an end should do and several things a tackle misses. He lost two fine tackles in Starobin and Waldorf, but his reply was to produce Bayley and Lee, the former something of a veteran, the latter something of a pleasant surprise. Taylor, Van Lengen, Archoska and Richtmeyer have proved adequate second string material.

So have Mendell, Rourke and Mooney at the wings.

Siggs, 1924 letter man, is one of the guards. Levy is the other, or at least will be when he gets back into the game, which will be soon if not immediately. Levy is supposed to be the best forward in the local squad.

The centers are Friedman, regular, and Wittman, alternate, veterans bith. The quarterback is Captain Foley, the best ball runner in the outfit, with Cooke in reserve, which is often. Carr, Clarke, Hansen, Meister, Flanagan and Mann are the halfbacks, with Barbuti at fullback.

That is the personnel of the team that has won all of its games to date. It still has to take on Penn State, Columbia and Colgate. Can it go on and do what no other Syracuse team has been able to accomplish? Can an irresistible force destroy an immovable body? You answer one question by asking another.

OHIO-IOWA TOP BIG TEN CARD

Clash Brings Together Unbeaten Title Aspirants.

By Jack Cejnar.

COLUMBUS, Oct. 22. — Like the well known frogs in the milk can six Big Ten conference elevens will next Saturday churn up matters with each other in an effort to determine which will keep from being submerged when the 1925 kicking is done. Four others will get exercise outside the cream of the conference.

This week's games will have considerable bearing on the title race. Such unbeaten contenders as Iowa, Purdue and Ohio State may be eliminated.

Saturday will present the following conference card:

Iowa vs. Ohio State at Columbus.

Michigan vs. Illinois at Urbana.

Purdue vs. Wisconsin at Madison.

Outside the conference two other teams will engage in inter-sectional contests. One will entertain Notre Dame, and the fourth will have a practice game in preparation for a conference tussle next week as follows:

Chicago vs. University of Pennsylvania at Philadelphia.

Northwestern vs. Tulane at Chicago.

Minnesota vs. Notre Dame at Minneapolis.

Indiana vs. Miami at Bloomington.

The outstanding conference game, expected to be quite as spectacular as the interesting Illinois-Michigan contest, will be the struggle at Columbus between Iowa and Ohio State. This battle will bring together two of the most powerful, unbeaten championship aspirants, one of them the conqueror of Illinois.

In the other conference game of importance, Illinois, with the meteoric "Red" Grange, will try to stage a comeback after losing two of its three starts this season, by stopping and perchance downing Michigan. It was against the Wolverines last year that Red Grange sprang into undying gridiron fame and the Wheaton flash is all primed to repeat Saturday.

Wisconsin, decisively beaten last week by Michigan, will play Purdue, regarded as a weak sister. It will be Purdue's first conference game.

By a strange coincidence, the meeting Saturday of Iowa and Ohio State will pit Hawkeye stars against Hawkeye stars. In the Buckeye lineup will be two young Iowans upon whom the spotlight of the football game has been playing—Elmer Marek, halfback, and Leo Uridil, tackle, both of whom hail from Cedar Rapids, Iowa.

Marek, who since early in the season, has been proclaimed the outstanding 1925 Ohio State star, will oppose Nick Kutsch, the Hawkeye ace, and leading scorer in the Big Ten conference.

Buckeye fans are looking forward with greatest interest to comparing Marek and Kutsch as they will measure Marek and Grange here on Nov. 21.

Victories Saturday for Iowa and Michigan would muddle up the conference race, as the Hawkeyes and Wolverines do not meet. If both win their remaining games, they will be tied for the title.

If Ohio State comes out the winner Saturday, the conference title may depend on the Ohio State-Michigan game in Ann Arbor, Nov. 14.

GOLDSTEIN MEETS CHUCK HELLMAN

SAN FRANCISCO, Oct. 22. — Abe Goldstein of New York, former bantamweight champion of the world, squares off here tonight with "Chuck" Hellman, of Portland, for a ten round main event at the State Armory on Mission street.

Goldstein lost his title recently to Eddie "Cannon Ball" Martin, the Brooklyn Italian. In Hellman, Goldstein is believed by those in the know to be tackling a fairly tough customer. Hellman has fought many of the best fighters in his class on the coast.

OHIO PREPARES FOR WESLEYAN

ATHENS, O., Oct. 22—A four-hour practice session was held by Coach Don Peden today in preparing the Ohio University eleven for its Homecoming Day contest here Saturday with Ohio Wesleyan. Much of the time was spent in scrimmage, during which the freshmen team assumed the offensive, using the Wesleyan style of attack.

The Ohio team probably will have its full strength this week for the first time since the opening contest with Rio Grande. Several men are ailing, but all are expected to be in shape to enter the fray against the Methodists. Gamber, fullback, has been out for three weeks due to an injury to his knee. He still limps but the injury appears to be mending daily. Wise, Gardner and Duncan are the others who are not in best condition, but all are being counted on to take their places in the lineup.

Striking Facts About London Contained in Book on Statistics

LONDON, Oct. 20.—Striking facts about London and its inhabitants are contained in a book on London statistics issued by the London County Council.

It is revealed that a life is born every three minutes of every twenty-four hours in the county of London, but of the babies more than 10,000 die each year before they are twelve months old.

Other interesting facts shown are: Marriages in London exceed 39,000 in a year. Of the bridegrooms, 500 are widowers. Most London men marry between the ages of twenty-five and thirty, while most London girls marry before they are twenty-five. There are 5,593 dringing saloons in London, or one for every eight hundred inhabitants. The length of London streets is 2,210 miles.

St. Paul Feather Wins.

OAKLAND, Cal., Oct. 22.—Stewart McLean, St. Paul featherweight, technically knocked out Mike Siegel of Oakland in the seventh round of their scheduled ten round bout here last night. Siegel was on the floor at the end, his seconds tossing up the sponge to save him further punishment although he was attempting to rise. The fight was fast throughout.

The defendants the McGrew Coal & Clay Company, John C. Nichols and Mary Etta Nichols who reside at St. Clairsville, Ohio and James Naylor whose place of residence is unknown will take notice that A. L. Hopper has filed his petition in the Common Pleas Court of Columbiana County, Ohio, being case number 16576 praying among other things for a personal judgment against them in the sum of $700.00 and to foreclose a lien for work and labor performed in mining coal and removing same from the mines upon the following described property; Situate in the county of Columbiana, State of Ohio and in the Township of Madison and being part of section 14 and 15 township 10 range 2 and bounded on the north by lands of McCurdy and R. E. George; on the east by the Lincoln Highway from McCurdy's line to where said Lincoln Highway crosses the Y. & O. R. R. Company's right of way from said crossing, south it is bounded on the east by the Y. & O. River Railroad right of way; on the west by lands of Earl White and on the south by the West Point Public road.

Said defendants have or claim to have some title or lien or interest in said premises; that plaintiffs pray that judgment be had for the above amount and in event of failure to pay same that said premises together with all mining equipment may be sold for the payment thereof.

Defendants are required to answer on or before Nov. 7th, 1925 or judgment may be taken against them.

ORDINANCE NO. 2022

DETERMINING TO PROCEED WITH THE IMPROVEMENT OF SEWER DISTRICT NUMBER TWO AND PART OF HAZEL STREET, GRAPE ALLEY AND EDGEWOOD STREET FROM LOT NO. 5207 ALONG HAZEL STREET TO GRAPE ALLEY AND ALONG GRAPE ALLEY TO EDGEWOOD STREET AND ALONG EDGEWOOD STREET TO THE SAN SEWER AT THE HEAD OF MAY STREET BY CONSTRUCTING THEREIN A SANITARY SEWER OF HARD BURNED VITRIFIED SEWER PIPE.

Be it ordained by the Council of the City of East Liverpool, State of Ohio:

SECTION 1. That it is hereby determined to proceed with the improvement of Sewer District Number Two and part of Hazel Street, Grape Alley and Edewood Street from Lot No. 5207 along Hazel Street to Grape Alley and along Grape Alley to Edgewood Street and along Edgewood Street to the sanitary sewer at the head of May Street by construction therein a sanitary sewer of hard burned vitrified sewer pipe, together with all necessary manholes, flush tan s, branch connections and doing everything else necessary or essential for the proper completion of said improvement in the City of East Liverpool, Ohio, in accordance with Resolution Number 325 passed August 8th, 1924 and approved August 13th, 1924, and in accordance with the plans, profiles, specifications, and estimates hertofore prepared by the City Engineer, approved and adopted by Council and now on file in the Office of the Director of Public Service.

SECTION 2. That all claims for damage resulting therefrom shall be judicially inquired into after the completion of the proposed improvement. And the City Solicitor be and is hereby authorized and directed to institute proceedings in a Court of competent juriadiction to inquire into such claims.

SECTION 3. That the whole cost of said improvement less one-fiftieth (1/50) thereof shall be assessed by the foot front upon the following described lots and lands, towit: All lots and lands bounding and abutting upon the proposed improvement which said lots and lands are hereby determined to be specially benefitted by said improvement and in the amount to be levied and assessed pursuant hereto, and the costs of said improvement shall include the expense of the preliminary and other surveys, of printing and publishing the notices, resolutions and ordinances required, the serving of said notices, and the cost of construction together with interest on bonds issued in anticipation of the collection of deferred assessments and all other necessary expenditures.

SECTION 4. That the assessments so to be levied shall be paid in five 5) annual installments with interest on deferred payments at the same rate as shall be borne by the bonds of said City to be issued in anticipation of the levy and collection thereof. Said rate not to exceed six (6) per cent per

Striking Facts About London Contained in Book on Statistics

LONDON, Oct. 20.—Striking facts about London and its inhabitants are contained in a book on London statistics issued by the London County Council.

It is revealed that a life is born every three minutes of every twenty-four hours in the county of London, but of the babies more than 10,000 die each year before they are twelve months old.

Other interesting facts shown are: Marriages in London exceed 39,000 in a year. Of the bridegrooms, 500 are widowers. Most London men marry between the ages of twenty-five and thirty, while most London girls marry before they are twenty-five. There are 5,593 dringing saloons in London, or one for every eight hundred inhabitants. The length of London streets is 2,210 miles.

St. Paul Feather Wins.

OAKLAND, Cal., Oct. 22.—Stewart McLean, St. Paul featherweight, technically knocked out Mike Siegel of Oakland in the seventh round of their scheduled ten round bout here last night. Siegel was on the floor at the end, his seconds tossing up the sponge to save him further punishment although he was attempting to rise. The fight was fast throughout.

CHAPTER 75.

Comfortable in a great leather chair in the library, but bored and yawning, Amoura Ainsley tried to get interested in a new novel by Michael McArlen.

Her mother came in, drawing on her gloves.

"Amoura, dear, I wish you would drive me down town," she said. "James took your father to the office and hasn't returned, so I suppose Reginald has him running erranas. Your father is very annoying in that respect some times. It never occurs to him that we might have something for James to do."

Glad to have something to do, Amoura skipped out for her wraps.

These two had been drawn together in the last few days. Mrs. J. Reginald Ainsley was rediscovering her child, and Amoura was rediscovering her mother.

"I want to go down to wherever it is that Tillie, the laundress, lives." Mrs. Stone placed a filled basket in the car. "It's in Stone street, and I suppose somebody down there can show us the house."

Amoura looked askance at her mother.

"She's sick, her little girl says. Tillie sent up Monday to ask if I would let her have five dollars. I sent her ten, poor thing. She works herself nearly to death. Della says she supports a worthless husband and five or six children over the washtub."

They found Tillie's wretched dwelling with no great difficulty. Shopmen in Stone street, awed by the big machine and the initials it bore, supplied the necessary directions eagerly. Most everybody in Stone street knew Sam Craigley, who got drunk every Saturday night on bootleg whisky and beat up his wife, Tillie. Sam hadn't worked for years and the only money he ever got on Saturday was what he wheedled or took by force, from his wife, but he celebrated Saturday night with all the gusto of a toiler easing up after six days of labor in the steel mill.

An acrid odor of cloth seared by the iron; of dirty water allowed to stand in little puddles in the sideyard; of grease and coffee grounds; of unattended children; greeted their sensitive nostrils when Amoura and her mother ventured into Tillie's house in the face of a troop of wide-eyed kids. A woman worn out by toil, prematurely gray, teeth gone, eyes milky, was lying in a rickety bed amid sheets and blankets that were, however, noticeably clean.

Mrs. J. Reginald Ainsley, stately matron, took off her coat and gloves, bathed her laundress; threw open the windows and aired the house; fed the children; induced a neighbor woman to come in and clean the bedroom. Amoura, marveling at her mother's energy, helped clumsily.

"Now, Tillie, if there's anything you need, don't hesitate to call on me. And don't try to work any more for at least a week. You need the rest."

Tillie, with all the gratitude she could summon, looked up at Mrs. Ainsley, thanked her, confused.

"You were simply splendid, mother," Amoura enthused, after they had left the house, and were driving away, the subject of the stares of the neighborhood.

Mrs. J. Reginald Ainsley's visage did not indicate her feelings. She's a human being, and we treat our horses and dogs better," she said, simply.

"Mother, it's a disgrace to Westland that there are people living in such a wretched state right at the backdoors of Main street."

"There are poor everywhere, Amoura," her mother said, sagely.

"Yes, I know, but even poor people do not have to live like animals in a burrow. The sight of Tillie's house made me ill. Such people could be taught cleanliness, and ——." Her face brightened. "O, I know what I want to do, mother!"

The intensity of her exclamation caused Mrs. Ainsley to stare at her.

"I've been trying to decide what to do. I'm going to stay here in Westland and help these people. I can teach them how ——."

"There ARE charitable organizations, Amoura. The Associated Charities, the Welfare League ——."

"Yes, CHARITY. Charity doesn't do these people any good. They need to be taught to help themselves." An evangelical glow was in her eyes. She speeded up the car, anxious to get home and think over her project.

Della greeted her with a special delivery letter. It was from Tommy Loughley.

An acrid odor of cloth seared by the iron; of dirty water allowed to stand in little puddles in the sideyard; of grease and coffee grounds; of unattended children; greeted their sensitive nostrils when Amoura and her mother ventured into Tillie's house in the face of a troop of wide-eyed kids. A woman worn out by toil, prematurely gray, teeth gone, eyes milky, was lying in a rickety bed amid sheets and blankets that were, however, noticeably clean.

Mrs. J. Reginald Ainsley, stately matron, took off her coat and gloves, bathed her laundress; threw open the windows and aired the house; fed the children; induced a neighbor woman to come in and clean the bedroom. Amoura, marveling at her mother's energy, helped clumsily.

"Now, Tillie, if there's anything you need, don't hesitate to call on me. And don't try to work any more for at least a week. You need the rest."

Tillie, with all the gratitude she could summon, looked up at Mrs. Ainsley, thanked her, confused.

"You were simply splendid, mother," Amoura enthused, after they had left the house, and were driving away, the subject of the stares of the neighborhood.

Mrs. J. Reginald Ainsley's visage did not indicate her feelings. She's a human being, and we treat our horses and dogs better," she said, simply.

"Mother, it's a disgrace to Westland that there are people living in such a wretched state right at the backdoors of Main street."

"There are poor everywhere, Amoura," her mother said, sagely.

"Yes, I know, but even poor people do not have to live like animals in a burrow. The sight of Tillie's house made me ill. Such people could be taught cleanliness, and ——." Her face brightened. "O, I know what I want to do, mother!"

The intensity of her exclamation caused Mrs. Ainsley to stare at her.

"I've been trying to decide what to do. I'm going to stay here in Westland and help these people. I can teach them how ——."

"There ARE charitable organizations, Amoura. The Associated Charities, the Welfare League ——."

"Yes, CHARITY. Charity doesn't do these people any good. They need to be taught to help themselves." An evangelical glow was in her eyes. She speeded up the car, anxious to get home and think over her project.

Della greeted her with a special delivery letter. It was from Tommy Loughley.
